your room to speak with you." I shake my head in acknowledgment. Thena nods to me and Gilgamesh says "I can send him away if you'd like." Thena nods and says "I'll give him a vasectomy with one of my cosmic swords if you'd like." I smile to her and say "Thank you for the o ers. But it's alright, I'll go talk with him." Sprite says "Let me go with you. He needs to be bitch slapped again." 3

I shake my head and say "Seriously, he wasn't mine to get overly emotional over. There's really no reason for you guys to be angry with him... Wait, what do you mean again?" Sprite and the others shrug not fessing up to what happened. I walk away and Gilgamesh sco s and says "I'm still going to be mad

at him. He hurt our Gaia." Thena pats his shoulder and Sprite says "He's a jerk."

I walk down the hall and Makkari grabs my shoulder nodding no. I pat her hand and say "It's alright. I've got it."

She hesitates and I head inside my room. Druig looks up immediately and says "Gaia! Where the hell have you been?? I've been-" "I was with friends. Why are you in my bedroom?"

I shake my head and say "They are NOT my boyfriends!"

He sco s and says "Really!? So why did you sprint to their aid

I cross my arms unamused and say "There's really nothing to talk about." I look to his bruised face and knuckles and obviously he got in a fist fight with someone on the team. Obviously it wasn't a short fight either.

me?" I sigh and say "I didn't tell them to be angry with you. They knew about you and your hussy before I even got home. Your noises with her were loud enough for everyone in the house to hear. They actually tried to stop me from feeling embarrassed walking in on you

He sco s and says "And is that why the whole team is angry with

He sighs deeply and looks to the ground "Why would you be embarrassed?" I sco and say "You played me." He shakes his head and says "I did not. If anything you did. You don't

"I do all of those things around Kingo and Phastos too! I wanted you

"And you just chose to listen to her this time!?" "I am friends with them!" He stands up and walks towards me "So did you fuck them while I fucked that blonde?" Oh god. Oh my god. Who the hell is this guy?

Druig does NOT act like this. Here come the tears. I shake my head

immediately!?" I hu and say "Because Ajak told me I needed to!"

He shakes his head and says "Liar." "I didn't fucking sleep with them!" "I don't believe you. I really don't."

I hu out through my now falling tears "YOU hurt me!! You don't get

to flip this on me. I came back for you. Nothing happened between

"Well, that still leaves the other one." a I look down wiping my tears quickly saying "I wouldn't have done that to you." a

He sighs and says "It's not like it'd be the first time." I knit my

eyebrows together and say "You never made a move! I may have

cared for you since we le Olympia but you crushed me. You betrayed

me! You act like I am the biggest whore to exist! Did you ever consider

that maybe... just maybe I attempted relationships with other men

because you never made an e ort? You didn't show any real interest

in me." a⁷ He shakes his head and crosses his arms "Stop lying you know that isn't true." I cry out with my lip now quivering "You never really cared about

me... I was just always there. You don't care about anyone but

both hate. You went and you probably had a nice threesome. So what

I sco and say "Sure. Sure! Coming home and hearing her moan out your name was exactly what I wanted to hear a er a day of drunk asgardian men harass me. I can't believe you! You fucking man whore!" đ "Better a man whore then a pain in the ass.." I slap him across the face and turn my back to him retreating to my nightstand to grab something. I look through the things within and he says "You can't just smack me! We aren't dating! We have nothing close to a real relationship!" đ

with your feelings? Open your eyes Gaia. You've been doing this to me for centuries! Centuries! I feel no pity for what I did. What's the di erence between what I did and what you did with the princes?" "I slept with them decades ago! I didn't screw usup for a blonde whore!"

He laughs loudly as I shake my head as tears roll down. He sco s and

He sighs and says "There never was an us. You're dreaming if you ever

think two people like us could be together. It was never going to

now sick of feeling vulnerable to his attacks.

He shakes his head and says "You kept this?"

Isco and say "Yeah and now we never will. That's for fucking sure."

He shakes his head and says "You had your mind made up about me

the minute you met me." I irk an eyebrow up and say "Is that so?" He

nods angrily and says "Most definitely. You think I played you? Toyed

hah. I found it ď I slide out the pressed flower and his face scrunches up confusedly. He says "What are you-" "This is what you gave me when we landed on earth. You found a daisy for me and you propped it behind my ear. You can keep that. Obviously keeping it was... stupid of me. Wishful thinking? I don't even recognize you. It's like.. when I'm in the room you watch me and

act like you really care about me but as soon as I leave the room you

I gulp and cross my arms over my body. Tightening them around me,

I sigh and say "Obviously it was a stupid thing to do. You can go

ahead and throw it in the garbage. Who needs a wilted flower

I nod and say "Surely the universe believed I deserved better."

He laughs and says "Yeah, sure. You go find that Gaia. Then in a

hundred years he'll die. You'll be right back to where you started."

135 "The blonde already did." Silence lingers as tension rises in the room. Sure as hell not sexual tension that's for sure. a He nods and I feel anger rise incredibly fast within me. I'm going to burn a hole through his chest in 2 seconds if he doesn't shut the hell up. I turn away from him staring out my window now

I nod and say "Of course. I'm your friend right? You should confide in

"No! What should I ask about then? We're frieeeenddds! Right!? So! How was she? From the noises I heard she must have really fucking enjoyed you!" đ He shakes his head and says "You didn't have to listen." I shake my head and say "Inconsiderate piece of shit. It was hard not to listen. Even with my hands over my ears I could still hear her pathetic moaning. So, answer my question! Was she good? Did you

enjoy yourself with the woman you say is the complete opposite of

Well, Makkari's attempting to listen. a⁷ Kingo looks to Makkari and begins signing the argument to her. She nudges him waiting for more information and he groans signing

"They're not screaming now. It's hard to hear. But he is being a dick

I pout out "I was wrong.... I was wrong about you all along. You never

You aren't myDruig," I push the tears o my cheek now continuing on

you will miss me being there. Putting up with your bullshit. Refusing

I need to put myself to a higher standard." a¹ He shakes his head and says "There never was a mydruig for you." I nod and he says "I enjoyed myself with Tammy. She didn't over complicate everything! She praised me and that was it. She was

beautiful and fun. She showed interest and we slept together. She

was my opposite. Not you. God not you. She was nothingike you."

Times up, Druig." a He shakes his head and says "You sure you don't want to involve Ikaris again? Let him punch me again?" Apparently last night Ikaris and Druig had a longer discussion in the living room that led to a full on brawl. đ Phastos chimes in "God knows you deserve it." He continues walking down the hall and the others nod in agreement.

**** a/n: I mean.. COME ON. Look at Gaia crying ^^... it's like someone

kicked a puppy. Gah. So this is the big blow up. The big sad argument

and confrontation. I hope I didn't crush you guys too much, I know

these past three chapters have heart wrenching. Trust me when I say I

was hearing Adele scream 'go eaaaasssyyy on me baby.' So I

attempted to not make it too bad. I just love to really build on every

single relationship and friendship Gaia has with the eternals. Each

person she has such a unique friendship with. The question I have for

you guys is, should I put the movie plot in this book or make a

book 2? I don't want to make this book too long. I'm up for either, I

just don't see many druig stories with two books. Anyway, how are

you guys feeling? Too much heartbreak? I know I cried while writing

it. This is a pretty long chapter, I hope that's alright. I didn't think I

could express such an important fight in under 2000 words, so it's a

little bit longer. Hope you all have a great morning, a ernoon,

evening and night. I might post something later but I'm not sure. Question down below Q&A: Which one of Gaia's friendships do you like best? **Continue reading next part** □
