

Very quickly, only Bai Shan and Lin Fan were left standing there.

Looking at Lin Fan, a bitter smile appeared on Bai Shan's lips. It was only now that he realized that his son-in-law had truly changed; back then, he was timid and kind, but now, he was just like a demon, crippling others at every turn. At present, he could no longer count how many people he had crippled.

"Fan!" Bai Shan said seriously, looking at Lin Fan.

When Lin Fan heard this, the corners of his mouth twitched. He then said with a tad of disappointment, "Dad, are you going to condemn me as well? Do you think I did wrong, too?"

He didn't explain nor refute Bai Yi's accusations or the senior executives' condemnation because to him, it wasn't necessary.

Even if they lost Tiansheng Group as a collaboration partner, he had a

thousand ways to have New Bai Family Group rise swiftly. However, the prerequisite was whether Bai Yi and the group of senior executives trusted him. If the answer was yes, then he'd do it, but if otherwise, then he would have nothing to do with New Bai Family Group.

To his surprise, however, Bai Shan shook his head and said solemnly, "Fan, be it me, your mother, or Bai Yi, we're your family. Whatever you do, we'll trust you unconditionally. Even if it were you who crippled Gao Shengyuan, I believe that you have your reason for doing so!"

Hmm?

Lin Fan was momentarily stunned. He never thought that despite him having created trouble for New Bai Family Group, his father-in-law still had such confidence in him.

Not only that, Bai Shan also smiled bitterly and pointed to Bai Yi's office before saying, "Fan, don't blame Bai Yi

Chapter 323 What Should We Do Now?

Not only that, Bai Shan also smiled bitterly and pointed to Bai Yi's office before saying, "Fan, don't blame Bai Yi for flying into a rage earlier. Her anger stemmed from her high regard for New Bai Family Group and her impatience to prove herself! Once she'd finished crying, she'll surely understand you and... support you!"

A surge of warmth welled within Lin Fan when he heard this.

"Alright, go and mollify Bai Yi." After saying that, Bai Shan patted him on the shoulder and left.

After everyone had left, Lin Fan then glanced at Bai Yi's office before biting the bullet and walking toward it.

The office wasn't locked.

When he pushed open the door of the office, he saw Bai Yi wiping her tears while stealing a glance at him. Then, in

Chapter 323 What Should We Do Now?

a huff, she demanded, “Why are you still here? Do you want me to scold you again?”

Although her tone was chilly, Lin Fan could hear from her voice that she was no longer incensed at him.

“Darling!” Lin Fan stepped forward and hugged Bai Yi around the neck.

That action of his had Bai Yi’s delicate body stiffening slightly, especially when she felt the warmth from his body and the deep musk emanating from him. In an instant, a faint blush spread on her tear-stained cheeks. “What... what are you doing? We’re in the office!”

After saying that, she felt her heartbeat accelerating, so she hastily changed the topic. “Can you tell me now why you crippled Gao Shengyuan?”

Then, she stared right at Lin Fan.

Chapter 323 What Should We Do Now?

Earlier, she was too blinded by rage that only now did she realize that she hadn't even bothered to ask him why he did that before castigating him.

At once, Lin Fan told her everything about Xun'er and the blind grandma without leaving anything out.

After hearing that, Bai Yi was so incensed that her pale face had gone bright red with anger before further turning purple with rage.

Bang!

Her dainty hand slammed hard on the table, fury written all over her face. "How could there be such heartless beasts! One held no regard for human life for the sake of acquiring a courtyard, while the other treated a family member as though she was the bandit for the sake of money!" Her chest heaved with anger after saying that.

Chapter 323 What Should We Do Now?

Then, she turned to look at Lin Fan, deep regret etched on her stunning face. "I... I'm sorry! Lin Fan, I shouldn't have condemned you. You did right! Plus, even if you had asked Master Dao to kill them all, there'd be no objections from me!" She was truly infuriated.

Gazing at her irate expression and the lingering tears on her face, a surge of warmth enveloped Lin Fan, and he hugged her.

"Thank you, darling!" he whispered into her ear.

When the heat of his breath brushed Bai Yi's ear, her delicate body went limp all of a sudden.

"Let... let go of me. We're in the office..." She realized that every time she was in his arms, she would always go limp as though she had lost every ounce of energy.

Chapter 323 What Should We Do Now?

However, when she wanted to struggle, the corners of his mouth suddenly curled, and in a swift move, his lips had captured hers.

Mmph...

Her stunning eyes widened. Her red lips had been completely covered by his, and she felt suffocated as though she couldn't breathe.

She was weak and limp. At this moment, she was completely lost in the sensations, her body draped entirely over his.

When his tongue slipped out between his teeth and tangled with hers, she felt her entire mind go blank, and she became so dizzy that she felt faint.

This was her first kiss. She had never thought that she'd give her first kiss to him under such circumstances.

“Lin Fan...” she murmured softly. She was completely conquered by his seduction.

Not only that, she could also feel his magical hands roaming all over the notable spots on her body. Every time his hands roamed, it rendered her a little more limp and weak.

When the one after another button on her shirt was unbuttoned, she shivered and suddenly came back to herself, pulling herself clear out from the mirage of sensations blinding her.

At this moment, she had completely accepted him in the physical sense. However, this was her first time, so she just couldn't give herself to him in the office.

Nonetheless, right this second, she was truly alluring. Her lovely face was as red as a ripe apple, radiant and ravishing. Her harsh pants and eyes that were

Chapter 323 What Should We Do Now?

glazed over with passion had Lin Fan chuckling woefully.

“Darling, look at me...” As he said that, he glanced down at himself.

Bai Yi was momentarily startled, but she looked down as well. Then, to her astonishment, she realized that his pants were bulging, and it was jutting hard against her.

“Oh... no wonder I felt as though you had an iron rod in your pants...” Bai Yi couldn’t help but retort. However, after saying that, the blush on her lovely face turned even more fetching.

“Lin Fan, are... are you in pain? What should we do now?”

Chapter 324 What Is So Appealing About This Fella?

Now?

Lin Fan gulped and stared at Bai Yi's red luscious lips before biting the bullet and blurting, "Darling, why don't you... use your mouth?"

What?

Upon hearing his suggestion, Bai Yi was dumbfounded. She then recalled pieces of information that her best friend once told her, and she instantly felt even more bashful and shy.

Just when Lin Fan thought that she would rebuff him, a sight that had his jaw dropping materialized.

Bai Yi nodded shyly and said in a voice as faint as a mosquito's buzzing, "Lin Fan, this... this is my first time, so I'll just practice for a while."

That declaration had every cell in Lin Fan's body quivering with excitement,

especially when he saw Bai Yi gazing at him with glazed eyes and crouching down slowly.

At this moment, the atmosphere in the office turned steamy and sensual.

Slowly, time passed.

When news about Gao Shengyuan and his men being crippled broke out, the wild speculations about Grandmaster Lin slowly dissipated.

Now that the opening of New Bai Family Group was drawing ever closer, everyone's attention had gradually shifted to it. Almost everyone in Jiang City wanted to know what kind of news would break out when New Bai Family Group opened its doors.

After all, rumors had been abuzz among the masses that Lin Fan had crippled Leng Bufan and broken He Jiaojiao's legs. In the eyes of the public, this was

certainly a humiliation to the two Grandmasters, Leng Aotian and He Lanshan, so they would definitely seek revenge.

Very quickly, today was the day New Bai Family Group opened its doors.

Blue Ocean Building had been refurbished, and banners hung from the building; every corner had been decorated grandly and magnificently.

Meanwhile, Bai Yi, Bai Shan, Lin Fan, and all the new senior executives of New Bai Family Group had long since arrived.

However, as time passed, something embarrassing transpired—not a single client came to congratulate them. Be it companies that already had a collaboration in place with them or those that were planning to collaborate with them, not a single one came.

“President, what should we do now? It looks like our opening this time has been utterly ruined!” a senior executive asked Bai Yi after walking up to her, resentment written all over his face. While he said that, his gaze swept over Lin Fan, and he rebuked irately, “All this is certainly thanks to him! He broke Gao Shengyuan’s legs, and I even heard that it was him who crippled Leng Bufan! New Bai Family Group hasn’t even opened its door, and we’ve offended so many fearsome people. Isn’t that just courting death?”

At this moment, it wasn’t just that senior executive who complained. Other senior executives groused as well, their faces similarly dark and gloomy.

“I think Manager Zhang is right! President, your husband is really too much! With this mess he created, he has put all our efforts this month to waste!”

“That’s right. Even just as New Bai Family Group opens its door, we’ve already suffered a crushing defeat. What should we do in future, then? I’m afraid that not a single company in Jiang City would dare collaborate with us!”

The dissatisfied voices of the many senior executives rang out, one after another.

However, when Bai Yi heard all this, her expression darkened.

She swept her gaze over every single person here before saying in a hard voice, “That’s enough! Please don’t say anything further. Regarding what Lin Fan did previously, after I’ve clarified the matter with him, I... support him!”

What?

Her declaration had the disgruntled senior executives all dumbfounded.

They looked at each other. They remembered that she raged and ranted at Lin Fan because of this matter just a few days ago. Her fury was so intense that it was as though she wanted to sever her relationship with him and seek a divorce.

But now... This change in attitude was truly a 180-degree turn.

Seeing her resolute expression, even if the many senior executives were chagrined, they could only keep it to themselves.

Glimpsing this, however, Lin Fan smiled. "Don't worry, everyone. I can guarantee you that not only will it be extremely lively today, but New Bai Family Group will also be starting off with a bang. Plus, this good start will undoubtedly take Jiang City by the storm!"

Whoa!

His proclamation was arrogant and delusional.

When all the senior executives heard that, they went into an uproar. The look in their eyes when they stared at Lin Fan was as though he was a lunatic.

“Oh my God, does this fella know what he’s saying? It’s almost 10 o’clock now, and not a single person is here. Yet, he said we’re going to start off with a bang?”

“Exactly. He’s really talking big without any shame! He even dared to say that this good start will take Jiang City by the storm! Isn’t this the biggest joke ever?”

“What a nutcase! This fella chose the wrong time and place to boast.”

The many senior executives talked among themselves, and almost every one of them looked at Lin Fan as

though he had a few loose screws.

It wasn't just them, for even Bai Shan and Bai Yi were struck dumb.

"Lin Fan, stop talking!" Bai Yi felt her face burning.

They were already utterly embarrassed now, but his boasting was like a slap to their own faces, making her upset and peeved.

However, Lin Fan merely beamed as though there wasn't anything wrong and said to her, "Darling, don't worry. Today, I'll give you a huge present!"

A huge present?

A bitter smile appeared on Bai Yi's lips. She truly wanted to know when her husband would change this bragging habit of his.

Wait a second... Husband?

When the word 'husband' flashed in her mind, she was shocked herself. She never thought that unknowingly, she had considered Lin Fan her husband.

"Was it since that time in the office?"
After pondering a moment, she realized that after that day in the office, she had completely accepted him in both the physical and emotional sense. She had already wholly deemed him her husband for life.

However, when she thought of the word 'office', a faint blush rose on her lovely cheeks; she couldn't forget how he had yelped in pain when she accidentally bit him.

Pfft!

When she thought of this, she laughed to herself.

At this moment, everyone around her was stupefied. They saw their cold and

stunning president seemingly immersed in her own world of fantasy.

This...

“Damn, our president has been bewitched by that kid!”

“You’re right! This is exactly the expression of a woman in love! I just never thought it’d appear on our president!”

“I really don’t understand what is so appealing about this fella that he could captivate our president so!”

The many senior executives there looked at Lin Fan with envy and bewilderment as though he were a swine that had been given a pearl.

Chapter 325 | Agree to Them All

Thud, thud, thud.

Just then, footsteps echoed outside the building.

Then, the usher's voice rang out. "The Chairman of Tiansheng Group, Gao Zhilong, is here with Gao Shengyuan!"

What?

When the words 'Tiansheng Group' was uttered, the atmosphere in the lobby instantly turned somber. They knew that New Bai Family Group and Tiansheng Group's relationship these days had come to dire straits, especially after Lin Fan had crippled Gao Shengyuan, smashing the relationship to smithereens altogether. Hence, their coming now must be of no good reason.

Whoosh!

Everyone from New Bai Family Group

Chapter 325 | Agree to Them All

turned their gaze on the entrance. As they looked on, a middle-aged man with a square face walked in while pushing a wheelchair, followed by a group of men in suits. The person in the wheelchair was Gao Shengyuan.

“Ah, how lively! There isn’t even a single soul here!” Just as they came in, Gao Shengyuan, who was in the wheelchair, swept his gaze over everyone in the lobby.

When he had ascertained that there was no one else in the lobby besides those from New Bai Family Group, the smile on his face deepened. “Ha ha, President Bai Yi, Lin Fan, my father and I are here to congratulate you both!”

As he said that, Chairman Gao Zhilong pushed his son over to face everyone.

When the senior executives of New Bai Family Group saw them and Tiansheng Group’s senior executives behind them,

Chapter 325 | Agree to Them All

they were all frantic.

Thus, they hurriedly greeted them.

“Chairman Gao, thank you for coming! As for the personal grudge between Lin Fan and your son, we truly hope you’d excuse that. After all, business is business. We hope it won’t affect our relationship and collaboration!”

“That’s right. Chairman Gao, if you and your son aren’t satisfied, we can have Lin Fan apologize to you!”

It was apparent that the many senior executives of New Bai Family Group weren’t willing to offend Gao Zhilong and his son.

However, when Gao Zhilong heard their words, his lips curled into a sneer.

“Apologize? Forget it, we aren’t worthy of Mr. Lin’s apology!”

After saying that, he turned his gaze on

crippled 36 people from Tiansheng Group!”

What?

All the senior executives of New Bai Family Group instantly paled upon hearing his resentful declaration, especially when they saw him taking a contract from one of his secretaries and throwing it onto the ground.

“This is a termination agreement between Tiansheng Group and New Bai Family Group! From now onward, don’t dream of getting even a single piece of raw material from us!” Gao Zhilong’s voice was foreboding.

After he said that, all the senior executives of New Bai Family Group were panic-stricken.

Are we done for?

After all, a termination of collaboration by its own raw materials supplier was a huge blow to New Bai Family Group.

However, that wasn't all.

“Oh yes, today is New Bai Family Group's opening, so my gift is naturally not that simple!”

Gao Zhilong and Gao Shengyuan looked at Lin Fan and Bai Yi, smiling ominously.

Then, Gao Zhilong lifted his hands and clapped.

Clap, clap!

As the clap rang out, the voice of the usher rang out again in that instance.

“The Chairman of Linglan Group, Zhou Linglan, is here!”

“The Chairman of Jiashi Group, Song Jia, is here!”

His voice rang out successively.

Meanwhile, the faces of all the senior executives of New Bai Family Group drained of color when they heard the

names of the arriving guests because all these people made up the raw materials suppliers from Jiang City and the other few surrounding cities.

Under everyone's shocked gaze, one figure after another strode in via the entrance.

Looking at all these suppliers, who were all sporting hostile expressions, Bai Yi, Bai Shan, and all the senior executives of New Bai Family Group paled.

"Alright, you can all present your gifts!" Gao Zhilong chuckled sinisterly.

After he said that, all the suppliers abruptly walked over.

"President Bai Yi, I'm sorry, but we need to dissolve our collaboration!"

"President Bai Yi, from today onward, we'll be halting all supplies of raw materials to New Bai Family Group!"

Their voices rang out, one after another.

There were no exceptions; all of them wanted to dissolve and terminate their collaboration. In the blink of an eye, when all the suppliers had uttered those words, New Bai Family Group's raw materials' supply channel had been utterly cut off.

This sight had everyone from New Bai Family Group looking ashen.

The senior executives of New Bai Family Group, especially, glared at Lin Fan furiously.

Earlier, this fella even boasted and said that we'll be starting off with a bang. But now, not only did we not have a good start, but a disastrous one! We could almost announce that New Bai Family Group is kaput!

However, at this moment, it was as though Lin Fan didn't see the furious glares they directed at him. Instead, he swept his gaze over every single one of the suppliers, the smile on his lips deepening. "Alright! On behalf of

President Bai Yi, I agree to them all! We'll dissolve our contract with all who wish to do so! And we'll also terminate our collaboration with all who wish to do so for all time!"

What?

His proclamation had everyone stupefied.

He agreed?

Normally, since Tiansheng Group had already signed a contract with them, if they wanted to dissolve the contract, they had to pay quite a sum in damages for breach of contract. However, no one expected Lin Fan to agree to a dissolution of contract right away without even mentioning a single cent of damages for breach of contract.

This...

All the senior executives of New Bai Family Group were apoplectic.

What a spendthrift!

Lin Fan's proclamation had cost them a guaranteed 100 million in damages for breach of contract, so how could they not be incensed?

On the contrary, Gao Zhilong and the others were also momentarily stunned.

When they finally got back to themselves, they all burst into booming laughter.

"Ha ha... nice! Mr. Lin, you're very straightforward. Since that's the case, let's sign them now! It seems that we've even saved the sum we prepared in damages for breach of contract! Ha ha... amazing! This is my first time seeing such a generous person! Lin Fan, you're really talented! Ha ha... New Bai Family Group will be ruined in your hands!"

At this moment, Gao Zhilong and Gao Shengyuan looked at Lin Fan as though he were an idiot, laughing maliciously.

Bai Yi's ethereal face was also as dark as night when she saw this. Likewise, it was clear that she, too, didn't expect her husband to be so dumb; they could have received damages for breach of contract, but now, it was all gone.
