

“I did not expect Mister to not only have exceptional combat moves but also superb medical skills. How admirable!”

Shen Wanshan said in a respectful manner.

Chen Hao merely gave a slight nod and stayed silent.

On the other hand, Shen Wanshan and his men exchanged looks at each other.

Shen Wanshan then shouted in a respectful voice, “I have no idea what Mister would like to do in the future but would you need our help? You have saved our lives and all of us brothers would be willing to follow by your side and serve you faithfully.”

Indeed, the gratitude they had for their savior was beyond words. Furthermore, Shen Wanshan and his people strongly valued loyalty and brotherhood.

Apart from that, Shen Wanshan and his people had nowhere else to go. Hence, if they had the opportunity to follow a

person with incredibly strong capabilities at such a young age, they might have a bright future ahead.

Clearly, the rest of his men had similar thoughts.

Chen Hao gave them a bitter smile and said, "Me? I'm afraid that I might have to stay somewhere in the Tian City Triangle Zone as I do not have anywhere else to go!"

"Mister, you have no place to go? It just so happened that the few of us are rather familiar with the Tian City Triangle Zone. So, if we stay by your side, we might even be of some help to you. Mister, would you be willing to take us in?" Shen Wanshan asked.

Chen Hao gave it a deep thought.

The thing that he lacked the most at this moment was manpower. He needed to build a force of his own and he had no idea when he would be able to accomplish that. It was crucial to have his own team of people in order to aid in his fight against

Mo Changkong.

Shen Wanshen and his men have strong foundations and they seemed very loyal too. If they were trained with the similar techniques which Mr. Qin had taught me, then it wouldn't be difficult to go against someone like Mo Changkong.

Chen Hao chuckled. "Taking you in sounds too serious. After all, I'm also a person without a home! So if you all are willing to join me, it would be great to travel and explore together!"

"That's great, Mister!"

Shen Wanshan and his men were overjoyed.

Chen Hao nodded his head.

Crackle!

Just then, dark clouds gathered in the sky and the loud roar of thunder could be heard.

Following that, it started pouring heavily.

Chen Hao and the rest of them couped up in the cave.

For once, the whole lot of them were at ease as they looked out of the cave.

Shen Wanshan said, "Mister, we are going to have to come up with a plan if we want to reside in the Tian City Triangle Zone. We would definitely need to have our own business and force of power!"

Chen Hao nodded his head in agreement.

As it could be seen, they did not have a place to stay which resulted in them having to hide in a cave when it started raining.

If this were to continue, it was going to be tough to survive in Tian City!

Chen Hao turned around and asked, "Do you guys have any ideas so far?"

"The largest city within the Triangle Zone is Tian City. The economy is flourishing and we can build our base over there. However, there are as well many different

forces of power and it's quite a chaotic place. If we just head in there like that, it would be difficult to gain a firm footing! Apart from that, ten kilometers ahead of us is a small town outside of Tian City called Tagou Town. It is a relatively bustling town and we could start from there! Mister, I have some money with me and we could start a small business! That way, at least we have a base set up!" Shen Wanshan explained.

Chen Hao waved his hand and said, "There is no need for a small business. I can give you some money, so you can go and set up a big business instead! Oh right, what is there in Tagou Town?"

Shen Wanshan replied, "The only big business that stands out there would be the pharmaceutical factory. The factory is rather huge and it would take quite a lot of money to purchase it!"

"Pharmaceutical factory?"

Upon hearing that, Chen Hao's interest was piqued. What a coincidence! Not only was I planning to look for the King Ginseng, I

would also need medicinal herbs for my daily training. This would be so convenient!

Chen Hao said, "I can provide the funds needed. Let's head over once the rain stops!"

A day later.

Inside a small hotel of Tagou Town.

"Mister, we got it settled!"

Shen Wanshan pushed the door open.

He came in together with two of his men.

Chen Hao smiled and said, "That was quick!"

Shen Wanshan coughed and said, "Ahem, let's not talk about it. The owner of the pharmaceutical factory had long been harassed by the few local forces and already had the intention to sell it off. I used the least amount of money to purchase the factory and company over, so there is still a small amount of money

left. Oh right, since the owner of the company has been changed, Mister, why don't you come up with a new name?"

Chen Hao casually said, "Let's call it Tian Long then!"

Shen Wanshan smiled and said, "Tian Long? Tian Long Group? Not bad, it's rather domineering. I would get to it right away. By the way, the few of us gathered our money together and also bought over the manor that the previous owner stayed in! From now on, you could stay there!"

"You didn't force him, right?"

Chen Hao knew very well how much money Shen Wanshan had, so how could he afford to buy over the whole manor?

"N-No way! The owner willingly sold it to us!"

Prior to that, Chen Hao had reminded them that they could not threaten the owner to sell the company. Despite the fiery temper that Shen Wanshan had, he was not someone that would act rashly.

“Okay, that would make me feel at ease. By the way, Wanshan and the rest of you, move into the manor as well! That way, I wouldn't be so lonely! Come on, let's go take a look at the manor!” said Chen Hao.

“Alright!”

Shen Wanshan and the others were ecstatic.

When they walked down to the entrance of the hotel, there were already two black Mercedes Benz waiting for them. Chen Hao was puzzled as to where Shen Wanshan got the cars from.

However, after mingling with Shen Wanshan for the past two days, Chen Hao came to realize that he was quite a capable person. Not only that, he had similar traits to that of Li Zhenguo whereby they were very meticulous in handling matters.

Very soon, they arrived at the manor.

Although Tagou Town was only a town, it was definitely not small.

It was twice the size of Ping An County.

Apart from that, the town was rather bustling as they had various bars and hotels.

At the end of the day however, it was still within the Tian City area which was undoubtedly chaotic and dangerous.

People, who had dragon tattoos, roamed the streets.

A group of punks smashing up a shop lot was considered quite a common occurrence. Along the way, Chen Hao had already witnessed a few of such cases.

It really is lawless around here!

Chen Hao shook his head slightly.

Not long after, they arrived at the manor that Shen Wanshan bought over.

It was a rather huge place.

However, before Chen Hao even made it into the main villa of the manor, he

overheard people crying and wailing.

“The whole lot of you better be orderly! Why are you all crying? Later when the new master arrives, you all better smile and greet him. If you all offend him and make him unhappy, I will make sure to skin you all alive!”

The sound of a middle-aged man reprimanding others could be heard.

Shen Wanshan then pushed the door open.

“Oh! Chairman Shen, you are here. This is... Oh, is this our new master? With such an impressive appearance, it must be him! My name is Liang San and I'm here to greet you, Master!”

The middle-aged man with a thievish look and furtive eyes was Liang San. He introduced himself and bowed respectfully before Chen Hao.

“Greetings, M-Master!”

Behind Liang San were twenty over lady

servants of various age groups. They all looked rather beautiful. At that moment, they greeted Chen Hao with a faltering voice.

Shen Wanshan said, "Mister, these are all the lady servants of the previous owner. Liang San here, is the butler. I thought that these servants were decent and decided to leave them behind to serve you!"

Liang San smiled and said, "Yes, Master, don't worry! I have trained these lady servants well. They would obey your orders and dare not defy them!"

"They... Did you abduct these girls?"

Chen Hao slowly walked over to one of the girl servant's side.

He lifted her arm and dragged up her sleeve. There were bruises all over her arm, clearly, she was beaten up a lot.

"Hehe, I bought them a while ago at a cheap price. After all, a lady servant is cheaper than a box of cigarettes! The key point is that they all looked rather pretty

and cute. Master, don't worry, these twenty plus lady servants were newly purchased. They are still virgins and those who weren't have been chased away! Master, are you satisfied?"

Chen Hao frowned as he felt disgusted looking at Liang San.

With a cold tone, he said, "I have no need for lady servants. Wanshan, ask them to provide you with their house address and find a way to send them back home."

“S-Send them home?”

Liang San was shocked.

“Didn't you hear what Mister said?”

Shen Wanshan snapped at him.

“Yes, yes, yes! I will do so right away. Right away, Mister!”

Liang San nodded his head fervently.

The group of girls turned toward Chen Hao and nodded their heads in appreciation.

“Thank you, Mister! Thank you, Mister!”

Chen Hao smiled and said, “Alright, you guys should head home now!”

Chen Hao was never an unreasonable person. Furthermore, he had experienced the feeling of being forced away from home. Therefore, he could empathise with their grief and sadness in which an ordinary person would not have been able to understand.

Not only that, they were bought to become

servants and were even constantly tortured and bullied.

The group of girl servants then left.

However, there were two girls who stayed behind and stood at their spots. They were sobbing uncontrollably.

Chen Hao asked, "Why are you two still here?"

One of the girls said softly, "M-My parents were murdered by the gangsters around here. I-I don't have a home anymore, Mister!"

The other girl said, "Mister, please let us stay here. We will make sure to serve you well as long as you feed us!"

Chen Hao gave them a warm smile. "Alright, since you are willing to stay behind, I won't chase you away then. However, don't worry. From today onward, nobody will bully you guys!"

"Thank you, Mister!"

Both of them, Yu and Lan, expressed their gratitude.

Especially the girl called Yu, she lifted her head slightly and peeked at Chen Hao.

Looking at how handsome Chen Hao was, Yu's heart could not help but throb.

Yu had seen far too many evil and creepy guys around here. However, this new master is different! He's very different compared to the others.

He has a kind heart.

Just like that, Chen Hao settled down here.

He had used the remaining money and asked Shen Wanshan to recruit a hundred youths. They had to have above average physical traits and were honest and loyal.

They were recruited to be the bodyguards of Tian Long Group.

At the beginning, Shen Wanshan was the one who coached them.

During the last two weeks, Chen Hao stepped in and personally trained them.

In less than a month, this bunch of youths had a massive improvement in their skills and qualities.

They were not far off from the standards of the Chen Family's team of bodyguards.

One day, inside the manor.

“Yu, why are you taking so long to pick the snow fungus? Aren't you tired?”

Lan was lying on the bed and could not help but smile bitterly at Yu, who was carefully picking out the snow fungus.

Less than a month later, both Yu and Lan had a much better complexion than before.

Especially more so for Yu. Now that her complexion had become better, she bore quite a delicate look. Anyone who looked at her would feel the urge to protect her.

Yu gave a sweet smile and said, “Not tired

at all. These days, Mister spent a lot of time and energy training those bodyguards. He also has to take care of the company and it must be tiring. I am going to make him a snow fungus soup and send it over to him!”

Lan then laughed. “Yes, Mister is really a nice person. However, you being his personal servant is even better! You thought of almost everything you could do and got it done for Mister! Hehe!”

During this whole period, Yu had constantly been by Chen Hao’s side.

She took care of everything well from his meals to his attire.

“Oh right, Yu!”

Suddenly, Lan thought of something and sat right up as she said, “I recalled that a month ago, Mister said that he would let us go and give us a sum of money. I thought you have always wanted to return to your county as well as your hometown. Even though uncle and auntie had passed away, you have other relatives, right? Why

didn't you leave?"

Lan covered her mouth and chuckled. "Could it be that you fell in love with Mister?"

Yu blushed and hurriedly said, "Lan, you are sprouting nonsense again! I-I don't have any other relatives. It's just that I felt a sense of security when I saw Mister so I decided to stay behind. After all, I am not qualified to love him!" After a pause, Yu also questioned, "How about you? You have always wanted to return to your hometown more than I did? Why didn't you leave then?"

Lan happily and respectfully said, "Well, for me, there are two reasons. For starters, Mister is a nice person and he wouldn't torture us like other masters. He respects us and I feel secure staying by his side! As for the second reason, which is the most important reason, it was because Brother Hu had promised me that he would come and pick me up in a month's time. I don't want to leave as I am waiting for Hu to pick me up. He would rescue his brother and he would bring me away so we could

get married!”

“But Lan, do you really believe these guys? Yes, Hu did rescue us before. However, I don't believe he would actually come and pick you up! You have to be emotionally prepared for the worst! Of course, I do believe in Brother Hu, who rescued us, but... ”

Yu wanted to remind Lan to not have such high hopes in order to avoid being hurt.

“Yu, I understand what you mean. However, I believe in Hu. Once he rescues his brother, he would come for me. After all, we're already engaged. In short, if he doesn't appear, I will just keep waiting. It doesn't matter if I have to wait a year or for the rest of my life. I will just wait for him!”

Lan placed both her hands under her cheek and smiled.

“Alright, it's rare to see you so deeply in love. Let's go and make some soup so we could send it over to Mister!”

Both of them left while laughing.

At that moment, at the Northern side of the Tian Long Group.

There was a huge mountain next to it.

There were a few groups of people wandering about within the jungle atop the mountain.

These hundred men were split into groups of five and were led by Shen Wanshan and his men.

Meanwhile, Yu and Lan walked over with thermos flasks.

From afar, they could see that Mister was sitting down on a chair and sipping on his tea.

Behind him were two bodyguards in stylish suits with sunglasses on.

One of them stood upright with his arms behind his back.

The other was holding onto an umbrella and providing shade for him.

“Mister, I made you some snow fungus!
Please try it!”

“Oh, you don't have to trouble yourself next
time!”

Chen Hao placed his tea down and smiled.

Yu gave a sweet smile as she stared at
Chen Hao.

For some reason, Mister's physique looked
as if it was evolving on a daily basis.

A month ago, the muscles on his body
were not that defined.

A few days ago however, his muscles
suddenly bulked up in size.

But now, his physique had returned back to
its normal state.

Yu had seen the very situation with her
own eyes twice.

Just then, a bunch of rapid footsteps could
be heard.

Shen Wanshan and his unit were running over toward Chen Hao.

The few men behind Shen Wanshan were carrying a guy.

Shen Wanshan said, "Mister, we found this man on top of the mountain. He looked as if he had been unconscious for a few days. He suffered rather serious injuries and seemed to be dying so I carried him back!"

As he said that, the few of his men carefully placed the dying youth on the ground.

Upon seeing the person, Chen Hao furrowed his eyebrows and his heart skipped a beat.

Clatter!

Lan, who was holding onto a tray, shuddered all over and the tray fell onto the ground.

"Di Hu?"

"Hu!"

Chapter 480 The Dying Youth

Chen Hao stood up instantly.

On the other hand, Lan ran over to him while crying.

The dying person was none other than Di Hu, the brother of Tian Long.

At this time, Chen Hao dashed over to Di Hu's side...
