

“No, he won't do that, because he said he will be coming. I also took that in consideration, which is why I asked to meet him in front of the hotel!”

Shen Nan was a goddess-tier beauty indeed.

She also looked at things from a more comprehensive perspective.

Just as what Yao Yuanyuan said—Chen Hao might not have been to any five star hotel like such, so he might be quite timid and taken aback. Hence, Shen Nan told him that she will be waiting for him at the entrance of the hotel so that both of them can enter the hotel at the same time.

The time when they promised to meet was at nine in the morning. But it was almost nine forty, and there was still no sign of Chen Hao.

He also didn't reply to any of her messages on Wechat.

Shen Nan thought, Is he not coming anymore?

By the way, yesterday he told me that he is

going to prepare a special present for a friend.

Who could that friend be?

Could it possibly be some girl around him?

Perhaps, he doesn't like me at all?

If Chen Hao was just an average Joe, Shen Nan wouldn't be thinking about him in such a way.

However, Chen Hao had his strengths. He had good fighting skills, and he was even the hero in people's thoughts.

It was undeniable that he was an outstanding person.

Hence, Shen Nan was worried that he might not like her.

This was the subconscious thought of many girls. Understandably, around eighty percent of girls, especially the pretty ones, would have such mentality.

"Shen Nan, I'm so sorry to keep you waiting! I took the VIP lane just now!"

At this moment, Wang Peng, Wang Guifang, and four other girls came down to the entrance together.

Seeing that Shen Nan and Yao Yuanyuan looking everywhere at the streets in front of them, Wang Peng felt a sense of accomplishment after thinking about the difference in the treatment Shen Nan gave him yesterday compared to that of today.

“Shen Nan, did you know that Wang Peng prepared a present specifically for you? Initially, I wanted to give you a call to ask you to come up to find us, but Wang Peng insisted on coming downstairs to find you personally!” Wang Guifang said, smiling.

“Oh, I see. Thanks, Wang Peng! Why don't you go upstairs with my mom?” Shen Nan gave Wang Peng a perfunctory smile.

With that, Wang Peng's expression changed immediately.

Wang Guifang also froze seeing that their mood was a little off.

Why does she look like she's waiting for someone else, not Wang Peng?

Wang Peng also realized that she was not waiting for him in hindsight.

“Shen Nan, who are you waiting for?”

Wang Guifang’s tone had taken a turn for the worse.

“I’m waiting for another friend of mine. He’s not here yet,” Shen Nan said subconsciously.

“He? This friend of yours... is a guy?” Wang Guifang asked.

However, Shen Nan ignored her and walked to the streets outside as she wanted to see if Chen Hao had arrived.

Wang Guifang looked at Yao Yuanyuan.

“Yuanyuan, who are you guys waiting?”

Hence, Yao Yuanyuan told the series of events that happened yesterday to Wang Guifang, including how they met when they asked Chen Hao to take pictures for them, and how they got into trouble in the afternoon.

Only then Wang Guifang understood that

her daughter was waiting for a guy who was flat broke.

Wang Peng took a deep breath with his face filled with jealousy.

After noticing the changes in Wang Peng's expression, Wang Guifang gritted her teeth grudgingly.

Why is this daughter of mine so disappointing? Doesn't she know what's important and what's not?

She then walked to reproach her daughter harshly...

On Chen Hao's side.

After receiving Shen Nan's birthday invitation last night, Chen Hao took it seriously and was well prepared.

If everything went according to his plans, he would drive there and reach the venue punctually before half past eight.

Chen Hao only drove a normal car, not even any fancy cars or sports cars.

It was because Chen Hao thought that his

misunderstanding with Shen Nan had finally been cleared without any need for him to use his money, and their relationship was also void of any financial interests.

As long as he attended her party and prepared a well-thought present for her, everything would be done.

Chen Hao even thought the act of driving a fancy car to show off his wealth was pretty obnoxious.

From some details, he realized that Shen Nan was different from Su Chuchu; Shen Nan still cared a little about money, while Su Chuchu didn't care about money at all.

If he drove a fancy car here, Shen Nan would probably become less sincere toward him after knowing he was rich.

If that was the case, then the extreme Yin blood that he obtained would be useless.

According to Bai Xiaofei, Chen Hao didn't need to show off his wealth in front of her.

Hence, the car that Chen Hao drove today was just a normal car which cost a few

hundred thousand.

However, there was a major traffic jam on the road.

And just now, with a screech, the driver in front of him suddenly braked.

Hence, Chen Hao followed suit and stopped his car immediately.

However, the woman driving a Porsche behind him, who dressed up well and wore a hat, stepped on the accelerator instead of the brake and knocked into the back of Chen Hao's car.

Being involved in an accident, in addition to the major traffic congestion, Chen Hao was exasperated.

“You bastard! Are you blind? Do you even know how to drive? How could you stop whenever you like?”

With a cigarette in her mouth, the well-dressed woman walked over with a bag slinging over her body to shift the blame on Chen Hao.

“Madam, look clearly—you're the one who

crashed into my car!”

Chen Hao had never thought that such an unreasonable person existed. He was utterly speechless.

After hearing Chen Hao called her ‘madam’, this word seemed to strike on the woman like a flash of lightning, with thunder rolling in a quiet background.

Her entire body jolted and her facial features were twisted together.

“W-Who are you calling ‘madam’?” she asked angrily.

“You’re only driving a small sports car! What are you so proud of? I’ve seen many poor guys like you. Look at yourself, what car are you driving? And look at me, what car is this? Let me get this straight—you better compensate me. Otherwise I will call my husband, and let you know the consequences!” the woman said with extreme hatred on her face.

Chen Hao just shook his head and smiled wryly.

Since everyone was stuck in the traffic,

many of the other drivers rolled down their car windows to look at the drama unfolding in front of them while honking loudly.

This woman was quite materialistic. Chen Hao only called her 'madam', yet she looked like she wouldn't be appeased unless she cut his mouth off.

And she even called her husband.

Not long after, her husband arrived with a huge Hummer, driving onto the pedestrian street and reached the accident scene.

He even bought a few big, bulky men with buzz-cut hair, and gold necklaces around their necks.

Both their hands were in their pockets as they smoked with cigarettes in their mouths. Meanwhile, they cracked their necks continuously, making some cracking noises.

"Darling, that's him! He's the one who purposely stopped the car to let me crash into his car!" the woman said hastily.

"Brat, you're pretty brave, huh? How dare

you pick on my woman? Do you still want to survive here in Jin Ling? Do you know who I am?" the leader of the group, who was a middle-aged man, said coldly. He had a big gold watch on his wrist and clamped a bag between his arms.

"I don't know!" Chen Hao shook his head and took out his phone to look at the time.

"F*ck you!"

The men behind the middle-aged man swore and took a step toward Chen Hao.

"If that's the case, lil bro, today you're doomed! I'll leave you incapable of standing today!" the middle-aged man threatened fiercely.

"Who would leave me incapable of standing?" Chen Hao shot a glance at him.

"Me!" the middle-aged man yelled.

"Ha-ha!" Chen Hao shook his head at him and laughed.

After realizing he was being teased by Chen Hao, he looked livid.

Chapter 627 Traffic Jam

The men behind him had just come to their senses. "F*ck you!"

They threw their cigarettes on the ground and surrounded Chen Hao.

A few big, bulky guys wanted to attack right after they surrounded Chen Hao, obviously no stranger to such actions.

On another hand, the woman wanted to give Chen Hao two big slaps to vent her frustration after her fighters had gotten hold of him.

However, as the leader of the men charged toward him, she had never expected Chen Hao to raise his legs and kick him in the abdomen harshly.

Even though that man was just a little shy of two hundred kilos, he was immediately sent flying for around twenty meters and landed on a Hummer behind him.

With a loud crash, the windows of the Hummer were all broken and shattered to the floor in pieces.

“Aaah!”

Taken aback, the woman couldn't help letting out a scream.

The middle-aged man next to her was shocked in an instant.

He thought Chen Hao was just a fella who was broke, hence he had never expected Chen Hao to be so strong.

The remaining people did not even dare to budge as the man who was the first to take a move just now was in so much pain until he had shriveled into a ball, with white foam oozing from his mouth.

With just the power of a kick, he had become half-dead.

Who would even dare to move now?

Looking at the time, it was already nine forty in the morning since the accident and the traffic jam. It was way past their arranged time now.

Shen Nan should be getting quite anxious waiting for him.

Bai Xiaofei told him yesterday that women hated the most when men weren't punctual.

It reminded him about the day when Su Tongxin waited for him for a long time, but didn't manage to see him.

If Chen Hao still couldn't reach the hotel, the good impression that he left the other day would all be gone.

Chen Hao thought anxiously, No, I can't waste more time waiting here!

His eyes moved as he looked at the middle-aged man who was looking back at him blankly, still not daring to move an inch.

Then, he took his phone out and called Li Zhenguo.

"Manager Li, send someone to fly a helicopter here immediately. I want to attend a birthday party, but there's no other transportation vehicle which is suitable. Yes, right now!"

With that, Chen Hao hung up.

The traffic was so congested that he knew he couldn't afford to continue waiting.

Even though he could reach the hotel quickly with the Godspeed Technique, he couldn't expose himself too much to the public.

And walking there would delay more time.

Without other choices, Chen Hao could only fly a helicopter there.

“A helicopter?”

A few onlookers who were just rubbernecking heard the content of Chen Hao’s phone call clearly.

They dared not laugh loudly as they were afraid of Chen Hao’s power, but they covered their mouths and looked at Chen Hao like fools.

“Is there something wrong with him? Asking people to drive a helicopter here?”

“Perhaps he is skilled at fighting and trained hard for his physique, but his brain is underdeveloped?”

Many people from the crowd guffawed.

The middle-aged man had just returned to his senses.

What the f*ck? I’ve been out and about in society for so many years. How can I be scared by this young lad?

Impossible!

While Chen Hao was looking at his phone, the middle aged man looked at his men, signaling them to gather by his side.

With small, sharp knives in their hands, they planned to stab Chen Hao.

Now, they were fully equipped and prepared to attack. As soon as the middle-aged man gave commands, the four of them would show their knives immediately.

Thwup-thwup-thwup!

With red eyes, as the middle-aged man was about to command them to attack, they suddenly heard the loud rumbling sound of a helicopter.

As if they were petrified by magic, the few people jolted and stood still, as if they were frozen within a frame.

“There really is a helicopter!” the pedestrians yelled.

On the streets, many people got down from their cars and looked to the skies.

The huge, vulture-like helicopter was flying over, preparing to descend.

The wind brought by it could even break one's lips.

The black, vulture-like helicopter found Chen Hao's position and stopped on top of the car in front of Chen Hao.

OMG!

The middle-aged man and the young lady were shocked to see that.

Because there were a few huge words printed across the helicopter—'Jin Ling Commercial Group'!

He's someone from the Jin Ling Commercial Group! And his position is not low!

What the f*ck?

This is too much!

Sweat trickled down the middle-aged man profusely.

"Young Master Chen!"

A young man walked down from the helicopter, giving the cockpit to Chen Hao respectfully.

“Alright. You drive the car back first. As for these two people next to me, check their backgrounds and give them some punishments!” Chen Hao ordered after putting his phone back safely.

“Don’t worry, Young Master Chen!” The man nodded.

As Chen Hao was preparing to leave, he saw a bulky man holding a small knife that was about to reach his waist.

Chen Hao swept a glance at him. Not daring to move, the man sweated profusely and showed an apologetic smile. “Y-Young Master Chen!”

Smack!

A huge slap from Chen Hao sent this man flying back.

“Such a big man, yet you use such a small knife! Who are you trying to scare?”

Once again, Chen Hao was exasperated.

He left the remaining matters for his men to take care of.

Chen Hao then flew away with the helicopter, leaving the passers-by who were shocked and wailing.

This scene is so f*cking shocking!

Driving the helicopter away, there were no other obstacles blocking him.

Soon, he reached Long Teng Hotel.

However, Chen Hao didn't place his ostentatious helicopter down at the entrance of the hotel. Instead, he placed it on top of the hotel and ran down the stairs.

After he called Shen Nan, Chen Hao only knew that she was still waiting for her at the entrance.

"Chen Hao? Why do you come from the inside of the hotel?" Shen Nan asked in shock after seeing Chen Hao running out from the hotel.

"Oh, I came from the backdoor!" Chen Hao managed to explain it to her forcefully.

Shen Nan understood him. He must be worried that many rich people were going in and out from the entrance, so he felt embarrassed and came from the back door.

“This is him?”

When Wang Guifang saw Chen Hao, she didn't look pleased at all.

Moreover, she hadn't finished scolding her daughter right now.

According to her, she didn't care whether this man here saved her daughter or not. That was not the most important. After all, they could give him a sum of money after their family crisis was over.

They didn't owe him anything.

But what was the meaning of asking him over to spend her daughter's birthday together?

Looking at Chen Hao, Wang Peng was incredibly jealous as well.

So the guy whom Shen Nan has been waiting for is him! Not only did she invite

me, but she also invited him!

No matter what, Chen Hao was already an enemy to Wang Peng.

Thinking back Shen Nan's expectant expression, Wang Peng felt even more awful.

After he was such an outstanding person, and so rich. But Shen Nan didn't care about him at all.

"It's good that you're here. It's almost ten! Let's go inside quickly!" Shen Nan said, looking at Chen Hao and smiled at him.

"Let who in? Let him in? Shen Nan, is there something wrong with your brain?" Wang Guifang scolded resentfully.

This is purposely agitating Wang Peng!

What if Wang Peng gets angry because of this, and even leaves you? Then, our Shen Family will miss the chance for a comeback!

However, Shen Nan had already brought Chen Hao into the compartment.

Chapter 628 A Helicopter

Wang Guifang chased after them, leaving Wang Peng with a fierce expression on his face.

“Good! You managed to let Shen Nan give you such treatment! I’ve been courting her for six months, yet she doesn’t even look at me in my face when she talks to me! But you guys have only known each other for two days!”

Humiliation washed over his entire body.

Gritting his teeth, Wang Peng took his phone out.
