

“What? Chen Hao, how did you know that my illness will happen again in one hour and five minutes?” Madam Su was slightly shocked.

“There’s one more hour until midday. The rise of the temperature will cause your asthenic heat to rise and blood to fill your brain. This will cause a migraine,” Chen Hao explained, smiling.

Madam Su smiled and nodded at Chen Hao, showing her approval. “I’ve never thought that you would know that!”

At the side, Liu Wang snorted in displeasure.

Ma Jin, however, glanced at Chen Hao. Is it possible that this young man knows about medicine?

Just as Chen Hao predicted, as midday approached, Madam Su, who was chatting normally, was suddenly in extreme pain as she cradled her head. Beads of sweat dripped down her face.

“Madam Su, please hang in there. I’ll perform acupuncture on you right away.” Ma Jin tested her pulse before taking out a

needle pouch from his medical box. He took out several needles and aimed at a few acupoints of Madam Su and jabbed at them. He also placed a few needles at her head and at some acupoints at her shoulders.

His skills made Chen Hao slightly shocked. No wonder Ma Jun is well known in the army. He has quite some skills.

“Young man, do you know what type of acupuncture I’m carrying out right now?” Ma Jin asked as he was inserting needles into Madam Su.

“Dr. Ma, why do you ask him? How could he possibly know?” Liu Wang said coldly.

“Well, I’m not sure about that. Chen Hao could estimate the time accurately, even to the minute mark. Now, it was exactly as he said—the symptoms showed up at exactly one hour and five minutes later. This shows that Chen Hao has a good eye!”

Zhao Bailing, however, merely smiled slightly at Chen Hao.

“It’s just the Ghost Gate Technique. There’s nothing much to guess here!” Chen Hao

looked at him and smiled.

After hearing that Chen Hao knew his acupuncture method, Ma Jin was quite shocked. However, the word 'just' that Chen Hao used just now made him slightly annoyed. He then looked arrogant and said, "Not bad. You have quite a bit of knowledge."

After finishing the acupuncture, Madam Su's pained expression had eased greatly.

"Dr. Ma, you're really the renowned doctor in the army! The results of the few months of research are showing!"

As Madam Su relaxed her pained expressions, Liu Wang heaved a sigh of relief and looked at Chen Hao vindictively.

"Oh, it's nothing." Ma Jin smiled slightly.

However, before he could finish his sentence, Madam Su, who already started looking relaxed, jolted and wrapped her hands around her head once again. She let out a few low groans, and her condition looked even more serious than before.

Everyone's expression in the room

changed immediately. Shocked, Ma Jin looked at his needles and mumbled to himself, "This is impossible!"

While he was speaking, he hurried to check Madam Su's pulse and blanched immediately. Her pulse was bouncing up and down, and sometimes even disappeared. It was extremely weird.

"Dr. Ma, please think of a way to save her." The members of the Su Family who just entered the room started panicking as well. It was even more serious than the first time the illness relapsed.

Madam Su's face had changed from being pale white to purplish-green.

Su Guoqiang was so anxious that he stomped his feet on the ground.

At the same time, Ma Jin was also at a loss. He didn't know what to do at all.

Seeing that the situation was critical, Chen Hao took a large stride forward and took down the needles on Madam Su swiftly. He took six needles down and inserted them at six acupoints around her neck and shoulder respectively.

When Chen Hao entered the room just now, he had already diagnosed the illness Madam Su was suffering.

He merely wanted to see if Ma Jin was really indeed skilled, like what the rumors said. If he could successfully treat Madam Su's disease, Chen Hao didn't have to take any credit from him.

However, it couldn't happen now as Chen Hao had to react immediately.

"T-The Divine Acupuncture?" Ma Jin widened his mouth involuntarily.

"Not bad. You have quite a bit of knowledge." Chen Hao returned Ma Jin's words back to him calmly.

After the insertion of several needles, Madam Su relaxed immediately as her headache gradually faded away and blood had returned to her face.

"Mom, how are you feeling?" Su Guoqiang was elated. He had never thought that Chen Hao knew such skills.

Even though Su Guoqiang and the rest didn't know any medicine, they had seen

both Chen Hao and Dr. Ma's way of carrying out acupuncture.

Any other person could distinguish that Chen Hao's method was way more superior than Dr. Ma's method.

"I'm feeling so much better."

Madam Su cracked a weak smile, and her breathing gradually became more even. Her butler quickly came over to wipe the sweat off her face.

As for Ma Jin and Liu Wang, who stood behind him, they looked stunned after seeing that.

Ma Jin had never imagined that someone actually knew this long lost acupuncture technique. He thought it had already disappeared, hence he was utterly shocked at that moment.

Liu Wang, however, burned with pure jealousy.

I'm even a few more years older than Chen Hao, and studied under many famed doctors since young. I've also been receiving professional training all this

while. But now, my knowledge is even less than this spoiled brat?

What even is this?!

When he looked at Zhao Bailing at this moment, she was actually smiling at Chen Hao.

Jealousy rose within him immediately.

“Dr. Ma, it’s just a coincidence. How could this brat know anything solid in medicine?” Liu Wang said coldly.

“Hao, where did you learn these medical techniques?” Wang Huimin also asked excitedly.

Upon hearing that, Ma Jin raised his head and looked at Chen Hao as he wanted to know the answer as well.

“Let’s speak about this later. Madam Su’s illness is not too serious. I’ll prescribe some medicine for her later. After taking the medicine for a year, her disease could be completely cured,” Chen Hao said, smiling.

“What? That’s great!” Everyone in the Su

Family was elated.

“Mr. Chen!”

At this moment, Ma Jin stood up.

Since he saw Chen Hao using the Divine Acupuncture, Ma Jin’s respect toward Chen Hao grew.

“Dr. Ma, what’s up?” Chen Hao looked at him.

“Please forgive me if I’m rude, but can I ask you a question—where do you learn the Divine Acupuncture? Do you know Mr. Wu Sanfeng from the army?” Ma Jin asked, confused.

“I don’t know him. As for where I learned the technique, I can’t tell you that,” Chen Hao said coolly.

As Uncle Qin’s identity was a top secret, Chen Hao would not simply divulge his identity to anyone.

“The Divine Acupuncture is a long lost acupuncture technique. However, due to some coincidence, Mr. Wu Sanfeng knew three steps of the technique. Because of

that, he became the legend of the army. I initially thought that he was the sole heir of the technique. But I had never thought that there's a person who knew even more than him, who is so much younger as well! It's unimaginable!" Ma Jin said in awe.

"You're telling me that someone else knows this technique too?"

His words made Chen Hao stunned as the Divine Acupuncture was one of the techniques that Uncle Qin had taught him.

Back then, he had mentioned to Chen Hao that this technique had been lost for a long time.

In this world, only Uncle Qin and Chen Hao knew the technique; even his junior didn't know that.

Moreover, Uncle Qin's words had always been accurate.

He would not joke or lie to Chen Hao, neither would he use this to build himself up.

How is it possible that there are others who know this?

“Mr. Wu Sanfeng also knows about this technique? Are you sure?” Chen Hao couldn’t help asking.

“Of course, the position of his first three needles were exactly the same as where you insert them. To be honest, it was Mr. Wu’s luck after he had grown older. He met a person and helped him. In order to thank Mr. Wu, that person taught him the first three steps of this technique.”

“You meant someone gave him the first three chapters? Do you know who he is?” Chen Hao asked in surprise.

“Mr. Chen, I don’t know anything more about this, as Wu Sanfeng only told me the gist. According to him, he seems to have known the mysterious man for a long time, and the reason for him coming to the army was to put something at Mr. Wu’s place. In order to show his gratitude, he taught the first three steps of the Divine Acupuncture to Mr. Wu,” Ma Jin said.

His words made Chen Hao’s heart beat faster as he could only think of one answer.

Could it be Uncle Qin?

In this world, only Uncle Qin knows this!

“Roughly how long ago when this happened?”

“Around eight months ago,” Ma Jin said, and he couldn’t help exclaiming. “In only eight months, Dr. Wu Sanfeng’s medical skills have vastly improved! Of course, your medical skills are even greater. It’s unbelievable!”

“Eight months ago?”

Could it be Uncle Qin?

Uncle Qin had been missing for a year and a half.

Initially, when I started learning from him for the first six months, he left frantically after receiving a letter.

After this, he has completely vanished for a year and a half. No matter how tough the situation was, or how hard I tried to look for him, there was no news of him.

It’s as if he has evaporated from the surface of the earth.

However, there was one point that Chen Hao could confirm—Uncle Qin was extremely strong.

He was much stronger than Mo Canglong and Chen Hao’s grandfather.

Even Chen Hao, who was at his prime, was not even worthy of becoming Uncle Qin’s opponent.

If he could meet Uncle Qin, he wouldn’t be

on the passive side.

“By the way, if it’s possible, can you introduce Mr. Wu Sanfeng to me?” Chen Hao asked.

Chen Hao had to try whether or not that person was Uncle Qin.

Moreover, the chances of Uncle Qin appearing was the greatest.

“No problem! I think Mr. Wu would like to meet you too. Oh, right! You have extraordinary medical skills! I’ve met a case of a weird illness, and I really don’t know where to start. It’s also not any more difficult than Madam Su’s illness. I’m more than willing to introduce Mr. Wu to you, but could you help me in saving over a hundred children’s lives? I’m not asking you to help me, but to save their lives. If possible, I’m willing to kneel in front of you.”

As Ma Jin was speaking, he was going to kneel down, but Chen Hao held him back.

“Around one hundred children? What’s going on?” Chen Hao was shocked.

“Dr. Ma Jin, you’re talking about the weird flu two days ago that everyone is avoiding in our town? Almost one hundred children’s lives are at risk, and until now, no one is able to identify the problem!” Wang Huimin said.

“That’s right!” Ma Jin said anxiously.

“Can you tell me their general symptoms?” Chen Hao asked.

Chen Hao had never thought of himself as a superhero, and the reason he agreed was not solely because Ma Jin told him that he would introduce Wu Sanfeng to him.

It was because the lives of a hundred childrens were at stake, all with the same symptoms.

If he had the ability to cure them but he didn’t do so, Chen Hao would never forgive himself.

At that instant, Ma Jin told him about their symptoms.

Upon hearing that, Chen Hao’s heart sank.

This can't be happening!

The symptoms sound like the result of a part of their blood energy being taken away by my Soul Devouring Technique.

This is no flu!

Why is it so creepy?

The Soul Devouring Technique was a technique in Chen Hao's mind, and it was a dark and evil technique.

Back then, he used this only because he had no other options.

How is it possible that someone has become the victim of Soul Devouring Technique right now?

Is it possible that there are some other people who know this technique, apart from myself?

Chen Hao couldn't find an answer.

However, he had no time to further think, as he had to make sure whether the kids had this technique applied to them.

“Let’s not delay this further. I’ll go and have a look with you guys!” Chen Hao said quickly.

“That’s great, Mr. Chen! It’s the right timing because the head of the hospital is having a discussion right now. It’s better for you to follow me to the discussion first before going to see the kids in the isolation wards,” Ma Jin said.

Soon, Chen Hao had reached the hospital.

At the lobby of the hospital, many parents could be seen sobbing.

After all, the impact of such events to a family was disastrous.

Following Ma Jin, the four of them, including Chen Hao, came to the meeting room.

As Ma Jin had a respected position in the hospital, no one questioned the people whom he brought into the room.

They even stood up one by one to greet Ma Jin.

Chen Hao sat down after he found an

empty spot. On the big screen in the meeting room, the news was being broadcasted.

“In the isolation ward, there are around a hundred babies and toddlers being reported in a critical condition. Around a hundred fragile lives that have just entered the world were at the verge of death. This disease has occurred for the past three days. The children have symptoms of fever and vomiting at the same time. According to the case book, all the newborns have different levels of lungs infection which results in a failure in their body organs. The hospital is still looking for the cause of the infection, as it is very likely that a new virus has infected them.”

After that, the condition of the babies were displayed when their symptoms appeared.

The beautiful female reporter had a worried look on the face as she looked at the tall buildings of the hospital and said, “The hospital has already formed an emergency team, made up of many specialists. We hope that they are able to save these young lives who have endured so much hardship. Ladies and gentlemen, let’s pray for the cute children!”

The head of Jin Ling's First Hospital, Lin Zhonghua, switched off the television and spoke, "I guess everyone knows the serious problem that we are encountering right now. If everything becomes true, this will be the greatest humiliation in the history of medicine, and also be the greatest scandal of medical accidents in the world. The hospital's reputation will be tarnished beyond repair. Everyone here is a professional in this field—we have many talented people from the affiliated hospitals and even from other hospitals. The expectations and hopes of the government and the people lay on our shoulders. I shall stop talking right now and hear you guys discuss the ways to save hundreds of lives of these children."

"Before the results of the culture of the virus could come out, we have no other ways to solve this problem. We have to prescribe the right medicine according to the disease. But now, we don't even know what the disease is, how could we cure it?" a middle-aged doctor who was wearing a pair of glasses said rudely.

I'm so unlucky, being assigned to this hard work! he thought.

If it's successful, I could have both fame and fortune. Not only will I be widely reported by the media, the hospital might commend me as well.

However, if it's a failure, my future would be gone.

More than one hundred children's lives are at stake here. To think that I have to bear the responsibility for the medical accident, I could already feel a chill running down my spine.

"Based on their pulse, their lungs seemed to be infected. Even though we've used all the antibiotics, there are no improvements at all. We have to discuss this," an old chinese traditional doctor said.

After both of them spoke, there was a silence in the meeting room.

The opinions of both the western doctor and the chinese traditional doctor were exactly what everyone was thinking in that room.

Moreover, they wouldn't dare to voice out their ideas even if they had one.

If their ideas worked and the babies were cured, no doubt they would receive their share of compliments and awards.

However, if their ideas didn't work out and the babies could not be cured, they would become the culprit.

Who would be willing to shoulder such a big responsibility?

"Does anyone have something to say?" Lin Zhonghua gave a glance at every single doctor who was present and urged.

None of them answered his question. Whoever that had caught his glance unconsciously looked away.

They let out a sigh inwardly.

It seemed like their medical careers were going to come to an end.

"I have an idea." Someone spoke up suddenly, breaking the deadly silence in the conference room.

Upon listening to that voice, over twenty doctors who were present all focused their eyes on the person who was speaking.

That person was sitting at the most secluded corner of the conference room. His presence would have gone unnoticed if he hadn't spoken.

Some of them who caught sight of him assumed he was either one of Master Ma Jin's disciples or his driver or secretary.

"Who's that?"

"Is he one of Master Ma's disciples?"

"It can't be. Master Ma only has two disciples!"

Everyone started discussing heatedly while staring at Chen Hao.

However, Chen Hao did not pay any attention to them. He had already seen the image of the babies from the screen just now.

On top of that, multiple organ failures were involved.

Obviously, it was the aftermath of being attacked by his Soul Devouring Technique.

The babies were faring better than Tie Hongxiang and the gang, whose souls were devoured alive by him, turning into a pile of ash in the end.

After going through the training with Uncle Qin, Chen Hao had turned into a fast learner. Now, he had already fully mastered the Soul Devouring Technique.

His attacks had become very powerful because of that.

Clearly, someone had started using the technique after having barely learned the skeleton of the skill.

Who was that wicked perpetrator?

Chen Hao looked extremely furious.

However, after he spoke about having an idea, everyone else reacted to it angrily and disdainfully.

“Mr. Chen Hao, do you have any thoughts on this bizarre disease?” Ma Jin bowed as he said to Chen Hao, his face filled with

surprise.

Judging from Master Ma Jin's respectful attitude toward that young man, he was clearly not his driver.

What was happening?

As a wise man, Director Lin Zhonghua understood something from the situation.

He looked at Chen Hao and asked, "Chen Hao, do you have anything to share with us?"

"Yes," said Chen Hao.

Chen Hao was unruffled by what the others thought of him. The main purpose of him being here was to rescue over one hundred babies who were dying.

At that moment, he declared calmly, "This is not a kind of disease. Instead, the vital energy and blood of the babies were sucked out by someone, causing multiple organ infection and failures!"

Boom!

Everyone was stunned.

If it weren't for the seriousness of the meeting, someone might have burst out laughing.

"Young man, is your name Chen Hao? Have you watched too many movies? It is better for you to just keep quiet if you don't have a clear idea. What's that about the vital energy and blood being sucked out? Are you telling me that vampires exist? Moreover, the babies have always been kept in the NICU, and they have never left. Do you have any idea what the NICU is? It's the neonatal intensive care unit where newborns are kept. The interior's air circulation is completely separated from the outside."

"You're just an immature kid. At first, I really believed you had some good suggestions. If news about this was leaked out, it would cause panic in the society."

"Master Ma Jin, who is he?"

Some of them could not help glaring at Chen Hao angrily. At the same time, they asked Master Ma Jin about his identity inquisitively.

“Everyone, please stay calm!” urged Ma Jin anxiously.

In fact, Chen Hao’s allegation that the vital energy and blood of the babies were being sucked out was unheard of. Even Ma Jin was taken aback by it.

However, he had witnessed Chen Hao’s shrewdness before. Therefore, he had a rather high endurance level to what he had said.

“Hmph, Master, I’ve said before that he is just a lucky man without any real talent. That kid is just too young to know anything. Is he here to shoot a movie?” muttered Liu Wang. Although his voice was soft, it was heard clearly by everyone else in the conference room.

He was jealous of Chen Hao. When he saw the way that Zhao Bailing, the junior who he had been crushing on, was looking at Chen Hao, he was overwhelmed by fury.

He couldn’t wait for Chen Hao to get humiliated in public.

Ma Jin’s face turned grim at once. After giving Liu Wang a glance, he said, “Shut

up. Mr. Chen Hao must have his reasons for saying so. Let's hear him out because what he said might just turn out to be the truth."

Chen Hao's face darkened immediately. Anyone would feel awkward under such criticisms.

"There are a great deal of things unknown to all of you in this world!" exclaimed Chen Hao frigidly.

"Mr. Chen Hao, do you have any idea how to treat the babies?" Ma Jin decided to trust Chen Hao.

"Yes, by using acupuncture with the help of traditional medicine. Of course, we need to act fast. Once all the organs in the babies fail, there will be no other way out."

"It's outrageous," someone said furiously. "Master Ma, the lives of the babies are no joke. He is just a young kid. Does he even know what he's doing?"

"Can you come up with a better idea?" retorted Master Ma Jin while staring coldly at the person.

"I can't, but we shouldn't act too rashly all the same. What if the condition of the babies worsen after being fed with traditional medicine? You should know very well that the babies can't withstand anymore suffering," that person argued.

In his perception, allowing Chen Hao to carry out his treatment was deemed as a suffering to the babies.

Looking at Chen Hao, Lin Zhonghua was unsure whether to believe him or not. However, the sheer determination in his eyes was very persuasive.

Was his suggestion based on something legit?

"Let him try." Finally, Lin Zhonghua made up his mind. Of course, he did not have a better option too.

"Try? It's easier said than done. Who would be responsible if something went wrong?"

"I will bear the responsibility."

"I will bear the responsibility!"

"I will bear the responsibility!"

Ma Jin, Lin Zhonghua and Chen Hao spoke at the same time.

The three of them could not help but exchange glances among themselves.

“Well, since the three of you have already agreed to the idea, just do it.” The rest of them found it hard to make any more comments.

Since there were idiots who were willing to shoulder the responsibility, they welcomed their attempts.

The rest of them could not be bothered by the babies' survival. All they cared about was keeping their positions in the hospital.

“Master? Aren't you going to think it through? Over a hundred lives are at stake and it's not child's play. This time, it doesn't just concern Madam Su alone!”

At the sight of the director showing support for Chen Hao, Liu Wang was consumed by jealousy.

How was that possible?

Had his Master become an old and

muddy-headed man? Why would he believe such an outrageous idea?

“Liu Wang, you’ve let me down!”

Ma Jin cast a sideways glance at Liu Wang, looking furious.

Liu Wang was stunned.

“Master, I just didn’t want your reputation to be tarnished by that kid! You’re the genius doctor in the army!” exclaimed Liu Wang.

“I have never seen myself as a genius doctor. This was just a label given to me by the patients. If my reputation could save lives, I would not hesitate to use up all of it! Liu Wang, you’re already thirty years old. After studying and practicing medicine for so many years, you’ve got it all wrong. You will never achieve anything in the medical field!”

Ma Jin let out a long sigh.

His words had turned Liu Wang’s face pale.

“He won’t be able to cure the babies, trust

me!”

“What if I could?”

Chen Hao glared at him icily. That man had been picking on him non-stop all along the journey. What a nasty piece of work...

“Humph! I’m not scared of you! If you can cure all the babies, I will do whatever you want me to do!”

In Liu Wang’s opinion, curing the babies was an impossible task.

The hundred over babies were barely surviving.

Liu Wang had specifically emphasized that he had to cure every single baby.

Chen Hao nodded and ignored him thereafter.

He changed into a surgical gown and entered the isolation room.

Only three people were allowed in, the other two being the director and Ma Jin.

They followed Chen Hao into the room.

When Chen Hao stepped inside the isolation room, all the babies had already stopped crying.

The room was extremely quiet.

Their faces were bluish, and their bodies

were swollen. Their lips were dry and flaky, and all of them were barely surviving.

It was indeed the Soul Devouring Technique!

The babies looked exactly how one would look after falling victim to the Soul Devouring Technique. He supposed the babies had suffered only one-third of its impact.

That was the reason why their entire bodies were swollen. Water in their bodies had evaporated and accumulated on their skin, causing high fever.

This is too brutal! Chen Hao thought resentfully.

Chen Hao had no other way to cure them. Acupuncture could only ensure that the vital energy and blood in their bodies flowed smoothly.

He was forced to use the Soul Devouring Technique to inject more vital energy and blood into their bodies to compensate the deficiency.

However, by doing so, his identity would be

exposed before the Sky Stone could be completely dug out.

Once his identity was exposed and Yun Qing caught up on him here, he would not be able to fight her.

Yet, the babies would not be able to survive tonight without his help!

Chen Hao gritted his teeth in bitterness.

He decided to save the babies first without paying any regard to other matters. He had taken in a great deal of vital energy and blood from the bodies of numerous adults, the amount of which should be sufficient to save the babies.

Also, he could utilize the Extreme Icy Blood in the jade amulet to deal with the heavy outflow of his essential energy for a night. Currently, Yun Qing was at her weakest. He supposed she would not be as terrifying as before!

He made up his mind.

Immediately, Chen Hao started to take action.

He swiftly poked at several acupuncture points on the chest of the babies, such as Tiantu, Guanyuan and Jiuwei with his silver needles.

His needle alternated between going deep and shallow, changing between poking and picking at the surface of the skin. He made 18 pokes at one go as he quickly jabbed the needle into their skin and withdrew it, without a break in between. It was as though he was doing a magic show. Lin Zhonghua, who was watching beside him, was stunned.

He was outright stupefied.

He gave a glance at Master Ma Jin, who was marvelling at Chen Hao's acupuncture skill.

Next, Chen Hao moved his hands beneath the blanket and grabbed hold of the wrists of the babies. Using the Soul Devouring Technique, he transmitted some vital energy and blood into their bodies.

"It's done. Next. Cover them up with the blanket and remove the clothes of the babies on Bed 002. Act fast, we're running out of time!" instructed Chen Hao

anxiously.

“It’s done?” asked Lin Zhonghua with his eyes widened.

“Yes, it’s done. Next.”

“O-Okay.” Lin Zhonghua nodded his head profusely.

“The Divine Acupuncture? Is this the Divine Acupuncture?” Beyond the glass wall, an elderly chinese medicine practitioner from the expert team revealed a grim expression on his face before letting out a scream in surprise.

“Li, what is the Divine Acupuncture?” one of them asked in annoyance. However, after witnessing Chen Hao’s acupuncture skill, he was convinced that Chen Hao was rather skillful.

“The Divine Acupuncture is an extraordinary skill that has not been passed down from the previous generations. According to rumors, Wu Sanfeng is the only one who mastered three moves of the skill!” Obviously, the elderly chinese medicine practitioner did not notice the expression on the assistant

director's face as he was explaining excitedly.

“Could he be Mr. Wu Sanfeng's disciple? That doesn't sound right. Mr. Wu Sanfeng has only mastered three moves, whereas that kid has already mastered seventeen to eighteen acupoints! That is way too frightening!” Some other old chinese medicine practitioners knew bits and pieces about the origins of the Divine Acupuncture.

At that moment, they clapped while marvelling at Chen Hao's skill. Their eyes were wide open as they were pleasantly surprised.

“How could such a young boy master such a profound acupuncture skill?” Many were more disbelieved than impressed.

“Make no mistake, he is definitely using the Divine Acupuncture. At a forum held a few months ago, I witnessed Mr. Wu Sanfeng demonstrating the skill. The first three moves looked exactly the same as what he did. He also made three deep pokes and three shallow pokes by using a silver needle of 1.6 inches, then withdrawing the needle using the 'Flying

Phoenix' way in the end. With this method, the body will be nourished, and all toxic and extra moisture will be removed," explained the old chinese medicine practitioner enthusiastically.

"However, I've heard that one would need to use one's Inner Energy to execute the Divine Acupuncture. Could it be possible that he has Inner Energy inside his body?"

"Humph, how could he have Inner Energy in his body? Perhaps he is just putting up an act. We shall see if his actions do any good," Liu Wang sneered. He was even screaming in his mind deviantly, I hope you fail! I hope you fail!

Inside the isolation room, Chen Hao had no idea the people outside were having a heated discussion about the acupuncture skill he was executing. He was focusing all his attention on poking and withdrawing needles continuously.

His already blanched face looked even paler now. Beads of sweat formed on his forehead, forming into a stream that flowed down his face. He looked exhausted.

After all, Chen Hao had transferred too much vital energy and blood out of his body into the babies, but he acted at a really fast speed.

Before long, over one hundred babies were treated by him.

The faces of the babies no longer looked bluish. Instead, their faces had turned whitish while crescent patches were starting to form.

Their bodies no longer looked swollen, and their skin started to look springy and elastic.

Even the indicators on the vital signs monitor were showing that they were rejuvenating and getting healthier!

“Ahh! T-T-This...”

Lin Zhonghua sobbed in excitement.

Ma Jin’s eyes were red and filled with moisture too.

It was all because they had witnessed their mutual wish coming true—the babies were saved and their lives were no longer

endangered.

It was unbelievable. It was totally unbelievable!

Both of them clenched their fists tightly and let out a lengthy breath.

“Mr. Chen Hao, you have the ability to bring the dying back to life!”

After they finished doing check-ups on the babies, their faces were brimming with admiration and respect.

“Yes!”

Chen Hao had become slightly weak and feeble.

He didn't feel like listening to their compliments. Saving the babies' lives was a pious deed in itself.

Moreover, all Chen Hao was thinking at the moment was the identity of the perpetrator who had wreaked havoc in Jin Ling City. Was the perpetrator stronger or weaker than himself?

The perpetrator would continue to bring

harm to the public if he was not found!

On top of that, he was unsure whether Yun Qing would get to know that he had utilized the Inner Energy in his body. Logically, she should be at her weakest now.

No matter what, getting to his villa at Cloud Hill was his top priority now.

By the time he reached there, the Sky Stone would almost be unearthed. He supposed Yun Qing would not be bold enough to get close to him.

Therefore, Chen Hao anxiously made an exit.

When the people outside heard about the babies' survivals, all of them were staring at Chen Hao excitedly and respectfully.

Specifically, it was because of Chen Hao's Divine Acupuncture skill. Some of the elderly chinese medicine practitioners almost kneeled down to ask Chen Hao to become their masters.

"How impressive you are. You were just lucky!" said Liu Wang coldly.

Chen Hao was about to leave, but he paused in his strides as soon as he heard his voice.

“Do you still remember the promise you’ve made earlier?” asked Chen Hao icily.

“What?” Liu Wang was puzzled.

“That is, if I could cure the babies, you would do anything as per my wish!”

“Exactly, Dr. Liu. All of us heard the promise you made!” urged the rest of them while staring at Liu Wang.

“Humph, I’m a man of my word. Tell me, what would you like me to do?”

Liu Wang puffed himself up righteously.

He was still putting up an act!

Chen Hao shot him a contemptuous look and said, “How about you fart now?”

“What did you say?” Liu Wang was baffled.

“I’m asking you to fart now. Make a hundred farts, loud and clear so that everyone can hear you!”

Everyone burst out laughing.

“H-How is that possible? Do you think I can control my farts?”

Liu Wang felt that he was deeply humiliated.

“How is that impossible? It’s only a hundred farts. Easy peasy, let me give you a hand!”

As he was talking, Chen Hao lifted his hand and poked an acupuncture point on his body.

Pfff!

A loud and clear fart was produced!

Pfffffffffff!

It was then followed by many others.

Liu Wang’s face turned red in embarrassment. However, he could not hold back his farts.

Everyone covered up their noses amidst the stench. It was as though the air outside of the isolation room was filled

with dust.

“Pffff...Braaah!”

His stream of farts ended with a weird noise. Liu Wang started crying because he was done for!

As for Chen Hao, he had long made his exit with his nose covered.

When the bunch of elderly chinese medicine practitioners started to look for him, he was no longer to be seen. As it turned out, he used Liu Wang’s farts as a distraction and left in the meantime.

Chen Hao left the hospital and carried on his journey.

It was already dusk, and the sky was getting dark.

Chen Hao was rushing to his villa on Cloud Hill by driving.

He sped along the way.

When he drove past a secluded forest area, his body trembled slightly. He stepped on the brake abruptly to put his

car to a halt.

The place was looking slightly desolate and barren.

In the middle of the road squatted an elderly lady. In her hands were some joss papers which she was throwing into a brazier.

Chen Hao's eyelids made a forceful twitch.

Evidently, he knew the elderly lady...

Chen Hao recognized the elderly lady at once!

“As enemies, we really can’t avoid each other huh!”

Chen Hao alighted his car and stared at the elderly lady before him calmly.

“The babies were attacked by the Soul Devouring Technique. Is it you who’ve done it?” asked Chen Hao while staring at her icily.

“Do you think you’re the only one who knows the Soul Devouring Technique? Unfortunately, you’ve gone out of hiding way too early. Otherwise, I would have been able to take in vital energy and blood from more babies, and I could have achieved greater heights in my skill!”

The elderly lady had finished burning the joss paper, and she got to her feet slowly.

Her eyes were glued to Chen Hao icily!

“Chen Hao, you’re very impressive. I have underestimated you back then! I was too careless, and because of that, you had the chance to slaughter many disciples of our

Saint Sect! I will not let you escape by all means today! If you're smart, you'll follow me back to meet the Master now!"

The elderly lady was none other than the founder of Saint Sect, Tie Hong. Chen Hao's skills were still locked inside his body previously, and Tie Hong had taken advantage of it, killing Tie Cheng.

At that time, all Chen Hao cared for was running for his life. He had no chance to look for Tie Hong and seek revenge for his buddy, Tie Cheng!

Moreover, it appeared that Tie Hong and Yun Qing knew each other. Back then, Tie Hong was brought away by Yun Qing.

"The Master? Is it Yun Qing?" asked Chen Hao in shock.

"You're right. Among the three religions and the nine sects, the three religions have already been taken over by the Master. The disciples of the three religions are all over the world. Chen Hao, no matter where you go, you will never be able to escape the Master!" said Tie Hong with a sneer.

"It seems like my guess is spot-on.

Someone has been avoiding public appearance after having done such a brutal deed to the babies. I already had a feeling that someone was trying to lure me out!”

“I see that you’ve become Yun Qing’s slave. I suppose she was the one who taught you the Soul Devouring Technique.”

Yun Qing, the lady in white and the God originated from the same place. Other than God, Yun Qing had probably mastered the Soul Devouring Technique too!

“You always think that you’re so smart. Indeed, the Master taught me that skill. Not only did she pass on the skill to me, but she also passed it to your buddy too!”

Tie Hong put on an icy smirk.

“Tie Cheng, what’re you waiting for? Bring them out!” exclaimed Tie Hong.

Tie Cheng?

Chen Hao’s heart could not help but skip a beat!

He looked in the direction of the forest and

noticed a figure bringing a group of people out of the forest.

That figure was none other than Tie Cheng!

However, his facial expression looked very bizarre to Chen Hao.

His entire body was exuding a murderous air.

What was going on?

As for the group of people who were being detained by him, they were none other than Tongxin's family members—Su Guoqiang, Wang Huimin and Tang Ran.

“Tie Hong! My skills were locked in my body that day at the villa. Do you really think I'm afraid of you?”

With a holler, Chen Hao lunged at Tie Hong.

Tie Hong remained her composure. Out of the blue, her body transformed into a blurry state and vanished into thin air right away!

As for Chen Hao, it seemed like his entire body was frozen.

His body was immobilized.

A very powerful force was taking hold of him. He had witnessed Tie Hong's skills before. Back then, she was not as strong as she was now!

"Die, Chen Hao! Killing the disciples of the Saint Sect is an unforgivable sin!" howled Tie Hong.

Following a distortion in space, she appeared in front of Chen Hao and hit him with her palm!

Chen Hao's chest was hit.

Bang! Crack! Smash!

Her attack caused Chen Hao to fly across the air. Under the huge impact, trees and plants surrounding him were broken and snapped.

Chen Hao's body was no longer the same as one of an ordinary person. He had also utilized the Inner Energy in his body, and he knew Tie Hong's capability well.

Nonetheless, he was still taken aback by Tie Hong's vast improvement within such a short period of time.

At first, the strength of her Inner Energy was weaker than his. But now, she was much stronger than him. Also, the Inner Energy in her was very weird.

As soon as her palm hit Chen Hao, he immediately vomited blood. An excruciating pain which reached his bones followed when his back fell to the ground.

He felt as though the bones in his body had fallen apart!

However, he didn't have the luxury of time to ease the pain in him before Tie Hong took another lunge at him. One of her hands grabbed his throat tightly as though it was a giant steel clamp.

What Chen Hao saw was a wicked, distorted face!

"Although the Master instructed me to keep you alive, I can't do it. I have to seek revenge for the entire Saint Sect!" exclaimed Tie Hong viciously.

Chen Hao was stupefied deep down inside.

At this moment, seeing Tie Hong right in front of him made him feel that she was even more frightening.

Chen Hao was too weak to make any counterattack while she was strangling him.

He was as vulnerable as a little chick.

Something was not right. Something was definitely out of place. Her Inner Energy seemed strange, and it seemed like it was at the same level as that of Yun Qing. What had Yun Qing done to her?

“Let go of him!” the family members of the Su Family, who were being held captive, shouted anxiously. They were deeply shaken.

Within a few rounds, Chen Hao’s entire body was already covered in blood.

“Humph, he’s just trash, and it’s unnecessary for me to kill him personally. Tie Cheng, isn’t he your buddy? Hahaha, I will let you do the honor. Kill this arrogant

guy. As for the Master, I will come up with an explanation!” shouted Tie Hong.

No matter how the members of the Su Family begged for her mercy, Tie Hong was unperturbed. On the contrary, she got even angrier.

Her words were treated as an order by the disciples of the Saint Sect.

Tie Cheng, who had been brought back from his death, was merely a dog to her now.

A very obedient and aggressive dog.

It was as though he was not her grandson at all!

Bang!

As soon as he heard her, Tie Cheng’s eyes turned wickedly red right away, and he made his way to Chen Hao slowly.

He landed a strong punch on Chen Hao’s face. Chen Hao felt as though he had suddenly hit a glass door while he was running. He felt dizzy and his vision became blurry under the blow. Tie Cheng’s

Inner Energy had undergone some changes too. It was way too powerful!

“Good punch!”

Tie Hong let out a hearty laugh and the corner of her mouth revealed a disdainful smile. “Chen Hao, what do you think? Tie Cheng and you have always treated each other as brothers. How do you feel now? Also, the current Tie Cheng has more than enough skills to take your life!”

Tie Hong chuckled wickedly and an indescribable brilliance was shown on her face. “Chen Hao, I would like you to have a taste of being killed by your own brother!”

With that, she tossed the dagger in her hands to Tie Cheng, who looked listless and only knew how to kill. “Tie Cheng, this is your brother. You betrayed me because of him! Now, I want you to kill him by using this dagger!”

An iciness flashed through Tie Cheng’s eyes. He lifted the dagger and jabbed it into Chen Hao’s shoulders, then twisted it unflinchingly.

Chen Hao felt his shoulder go cold before

detecting the smell of blood.

“Well done, Tie Cheng. Now, chop off one of his arms,” instructed Tie Hong.

However, Tie Cheng, who was looking listless, had stopped moving while holding the dagger in his hand. He could not execute the attack no matter how hard he tried. It was as though he was under a spell which stopped him from moving!

He was staring at Chen Hao right in the eye. A voice in his mind was urging him, No! You can't do it!

Tie Hong roared once again, “Tie Cheng! What're you waiting for? Do it now!”

“Yes, my owner!” said Tie Cheng calmly following a tremble in his body.

Suddenly, his breathing became rapid, and he lifted the dagger in his hand and aimed it downward. The sharp tip of the dagger hovered over the top of Chen Hao's head, and then it was being brought downward!

At this moment, Chen Hao's neck was held in his tight grip. He could not move his head at all.

With Tie Cheng's current strength, any attempt to fight back would be in vain.

If the dagger was to move any further downward, it was unlikely that he would be able to keep his arm!

Chen Hao's heartbeat immediately sped up. Damn it, he was just one step away from having the Way of Heaven's baptism. It was going to be held tonight!

Now, he was actually going to be killed by Tie Hong before he could get rid of Yun Qing, and before he could locate the lady in white.

It seemed like Tie Cheng was just Tie Hong's puppet now.

The dagger travelled downward at a high speed, and it was going to land on his arm any second now.

In an instant, Chen Hao's mind broke free of all restrictions, just like water which was being poured to the ground. All kinds of memories and flashbacks flooded into his mind at once.

It was told that during one's dying

moment, memories from the past would be played in one's mind within a few seconds.

Perhaps this was the feeling of dying!

Among all the flashbacks, a figure emerged as clear as crystal in his mind.

Yes, it was Su Tongxin.

Tongxin. Is she alive or dead?

How has she been all this while? Is she doing good or bad?

Is she being doted on, or is she being tortured at the moment?

Other than that, he also thought about the Holy Water Ritual, his grandfather, his parents, his sister and Miss Shen. Could tonight be the moment misfortune befalls me?

Am I going to be dead? Will my body be torn and separated?

No way. I have to stay alive! I have to locate her and see her at least once more in my life!

At this thought, Chen Hao lifted his left hand almost unconsciously at lightning speed. He didn't manage to locate either the dagger or Tie Cheng's wrist precisely.

He merely lifted his hand toward the air and managed to grab hold of Tie Cheng's wrist steadily.

The dagger stopped midair.

The eyes of Tie Cheng were filled with blood vessels. His face got distorted as he was desperate to execute his attack!

"Tie Cheng, have you forgotten that you were trying to atone for your sins? Don't be reduced to Tie Hong's tool once again! Don't help her carry out her incriminating acts!"

Gritting his teeth, Chen Hao tried to hang on persistently.

Because of his voice, Tie Cheng's body shook slightly. Chen Hao's body was bleeding. A substantial amount of blood was flowing profusely from his body!

The Jade hanging in front of his chest was stained red. At that moment, a bizarre ray

of light radiated from the Jade, shiny and gleaming.

Suddenly, Chen Hao's body was emanating a shiny and brilliant light.

It was as though a high-powered spotlight had been ignited amidst the darkness. Golden light shone on Tie Cheng, who was grappling with Chen Hao.

Chhhhh...

Under the brilliance of the intense golden light, Tie Cheng suddenly let out a scream in agony. Black gas continuously emitted from his body.

Following the emittance of the black gas, the air of hostility around Tie Cheng gradually diminished. Even his strength had become weaker by a substantial degree.

Before long, Tie Cheng's entire body became weak and feeble. He was thrown aside by Chen Hao, and he fell unconscious.

"Tie Cheng?" probed Chen Hao as he covered his wound which was bleeding profusely.

However, Tie Cheng could no longer

respond to him.

At that moment, the golden light transformed into a light consisting of seven colors, just like a rainbow.

The Jade had been working rather bizarrely today!

Observing the change brought about by the Jade, Chen Hao was secretly shocked.

“Chen Hao, I see that you have treasure on you!”

As for Tie Hong, greediness flashed through her eyes.

“If I have this treasure, my skills will become stronger!”

Her eyes lit up with a brilliance, and she was ready to get into action.

All of a sudden.

Shhhhh...Shhhhh...Shhhhh!

Several sounds were heard from all directions.

Thereafter, eight figures were seen rushing toward them at a very high speed.

“Old lady, do you think you’re worthy of owning the treasure? Chen Hao is ours!”

Soon, the eight figures reached them.

They encompassed Tie Hong, Chen Hao and the others.

The eight of them looked extremely pale as though they had already been dead for several days. However, their voices were loud and clear.

Chen Hao stared at them warily.

The eight of them had extremely strong skills. Each and every one of them seemed to possess skills not at all weaker than that of Tie Hong.

What was going on?

Were there people with such amazing skills present out there? Moreover, they had all made an appearance at the same time!

The most unusual thing about Tie Hong,

Tie Cheng and the eight people was the Inner Energy in their bodies. Theirs were totally different from what he had inside his body.

It was as though their Inner Energy had an innately unique power.

Just now, Tie Hong had mentioned something regarding The Three Religions and Nine Sects. Obviously, two opposing forces were present now.

One of them was made up of Yun Qing and her gang.

The other consisted of these eight people.

The only thing he was sure of was that both factions were coming after him.

“Well, let’s see if you’re capable enough to fight us!”

As she was talking, Tie Hong’s cold eyes were fixated on Chen Hao while she charged toward him at a high speed.

The eight people got into action at the same time. They lunged toward Chen Hao too.

Clash!

Chen Hao's shoulder and limbs were grabbed tightly by their hands. Pulling Chen Hao, they actually started to spin around.

"My limbs are breaking! They're breaking!"

Chen Hao was in excruciating pain as his limbs were on the verge of breaking apart.

Jade! Jade! Are you a magical tool? If you can hear me, please help me! I don't want to die! On top of that, I don't want to be killed by them in such a freakish manner! Chen Hao screamed in his mind in agony.

He wished his screams could be heard by the Jade.

However, the Jade didn't offer any response.

The organs inside Chen Hao's body were already in a turmoil because of what they did.

Blood spurted out from his mouth once again.

“Ahh!”

Chen Hao howled in misery.

Veins were seen surfacing on his entire body.

Suddenly, a powerful force surged through his body.

Boom!

The powerful force was released out of his body.

It was as though a huge explosion had happened on the spot.

All of them were sent flying by the intense wave.

As for Chen Hao, his vision went black and he fell unconscious straightaway.

By the time he regained consciousness, he found himself lying on a bed inside a room.

He was surrounded by a group of people.

Tang Ran, Su Guo Qiang and Wang Huimin

were there.

“Mr. Chen Hao, you’re awake!”

Beside him sat Ma Jin.

Of course, he had just finished bandaging his wounds.

“Yes. Thanks a lot, Mr. Ma!” Covering his wounds, Chen Hao sat up.

“Aunt Wang, Uncle Su, were you guys the one who brought me here?”

The last thing he could remember was that he was nearly tortured to death by Tie Hong and the rest.

As misfortune befell him, he was asking for help from the Jade in his mind.

At that moment, it seemed like he had gained a surge of power.

As for the things that happened thereafter, he could no longer remember.

“Yes, Chen Hao. At that time, we were greatly frightened by what happened to your body. You sent your enemies flying,

and they fled right after. Then, we immediately brought you back here!" said Aunt Wang in fear.

Not long after Chen Hao left the Su Family, Tie Hong had visited them with her men. Coincidentally, Su Guoqiang, Tang Ran and Wang Huimin were attending to their grandmother. All of them were abducted by Tie Hong.

That was the reason why Tie Hong was able to capture Chen Hao.

It seemed like Tie Hong had been in Jin Ling City for several days already.

She had just gotten to know his whereabouts recently.

Chen Hao concluded as he mulled over the entire incident.

As for the Jade, it was not as simple as he thought it was. It had saved his life several times already.

"Young Master Chen, you had us all worried sick. When you were carried here, your whole body was covered in blood!" said Li Zhenguo in a panic.

“It was really a close shave this time! By the way, where is this place?” Chen Hao could not help but ask as he sensed something weird from the surrounding.

“We are at the villa at the hillside of Cloud Hill. Excavation is ongoing at the top of the hill and a hole has been formed. In my opinion, we’re just inches away from finding what Young Master Chen wants!” reported Li Zhenguo.

“No wonder!”

No wonder the jade amulet that he was wearing was showing such a strong response.

“Ahh!”

At that moment, a lady’s agonizing scream was heard suddenly from the room next to his.

The sound of plates falling to the floor was heard thereafter.

It was as though she had witnessed something extremely terrifying.

Next, a nurse who looked like she was

around eighteen or nineteen stumbled into his room.

“Dr. Ma, the patient next door has woken up, and he is breaking the steel chains on him!” said the nurse in a panic.

“Huh?”

Li Zhenguo knitted his brows together.

He glanced at the bodyguards in the room. Immediately, the bodyguards rushed over to the next room.

“What’s going on?” asked Chen Hao.

“It’s the man who tried to kill you with a dagger last night. He was unconscious then. After we carried you here, we noticed after some time that he had followed us here to Cloud Hill. At that time, he was muttering under his breath, ‘Young Master Chen, I will save you!’. He kept repeating it!”

“We were unsure whether he was a friend or a foe. Therefore, Director Li was told not to kill him. We contained him using some steel chains. He was very weak then!” said Wang Huimin in a terror-stricken manner.

“It’s Tie Cheng!”

A brilliance flashed through Chen Hao’s eyes.

He turned over and sat upright before rushing to the room next to his.

Only when he had entered the room did he notice that the bodyguards who were standing by the door were stunned by the sight before them.

The body of Tie Cheng was tied around by over ten chains made of high quality steel.

However, Tie Cheng was ripping them off using merely his hands.

With an electric baton in their hands, none of the bodyguards were bold enough to take any action. Obviously, it was their first time seeing such a freakish guy.

“Tie Cheng!”

At the sight of Tie Cheng, Chen Hao’s face was brimming with emotions.

As for Tie Cheng, his whole body shook when he heard Chen Hao. He immediately

lifted up his head.

“Y-Young Master Chen!”

He spoke at an extremely slow speed. Just like a toddler of the age of around three to four, he could not even speak clearly.

However, through his eyes, Chen Hao knew that he had already awakened. He was resurrected by someone using unknown means.

“Tie Cheng, it’s me!” exclaimed Chen Hao as he was looking at Tie Cheng.

Back then, Tie Cheng had sacrificed his life in order to save him. Because of that, Chen Hao had been living in remorse ever since. Now that his buddy was resurrected, Chen Hao felt overjoyed no matter how much he had changed.

“Tie Cheng, aren’t you... How are you alive?” asked Chen Hao as he walked toward Tie Cheng.

It seemed like Tie Cheng had a lot to tell Chen Hao too. Although he was ineloquent now, Chen Hao could still grasp the main idea from his words.

It turned out that Tie Cheng had indeed died in the beginning, and Chen Hao was the one who buried him. However, his corpse was stolen by Tie Hong in the end.

Tie Hong had used some secret method to resurrect Tie Cheng, then converted him into a murdering tool.

This secret method was taught by Tie Hong’s Master, Yun Qing.

Speaking of that, it turned out that their Sacred Sect had an inheritance that was passed down from one generation to the next. The Sacred Sect was everything to Yun Qing, and it was founded by her alone. The purpose of establishing this sect in that year was just to prepare for her resurrection a few hundred years later.

Listening up to this point, Chen Hao finally

understood why Tie Hong burst into a cold sweat after reading a letter that was sent by Yun Qing's underling the day they were in the manor.

It was because Yun Qing had the status of a founder.

In addition, the present Tie Cheng was not actually resurrected, but a result of Gu Magic that was used by Yun Qing.

Which meant that she had converted the dead Tie Cheng into a Gu, and this supplied life force to him.

This kind of Gu worm was evil, and it allowed a person's ability to rise instantly, just like how Tie Hong was now.

Frankly speaking, Tie Hong was half human and half demon now.

Tie Cheng also said that Yun Qing had transformed many people like them.

"All this time, I was just like a bystander, watching a movie. Everytime I receive Tie Hong's order, I lose control of my body and do things that I'm not willing to!"

“But Young Master Chen, the golden glint that appeared from you seems to possess magical powers. It cleansed me of all my guilt, allowing me to gradually change from being a bystander to the master of my body, regaining the ability to control my consciousness and body!” Tie Cheng said.

Master Ghost once said that his Yang energy was an untouched, extremely pure Yang energy, and there were countless ties between the owner of the Jade and him.

If that was the case, this Jade was definitely something special.

He remembered that when Tie Cheng strangled him, there was a bright golden light emitting from this Jade.

Then, black gas had emitted out of Tie Cheng’s body continuously. It must have been the evilness that was purged out of him.

That must have been it!

“Tie Cheng, who were those 8 people? The inner energies in all of you were changed drastically, and the inner energies in those 8 people were also not ordinary. Even I

failed to harm any of you!” Chen Hao could not help but ask in astonishment.

“They are from a group called Nine Doors. I overheard Tie Hong’s report to Yun Qing, and they said that Nine Doors is a new force that has just risen, just like Yun Qing’s Three Saints Sect, and they oppose the Three Saints Sect in everything. In addition, it seems like they’re searching for you too!”

“They said that after seizing you, they’ll bring you to Ancient City to search for the corpse of the Goddess!” Tie Cheng coughed while explaining.

Although Tie Cheng was under control, he had been conscious from the beginning. He just could not control his body, so he actually more or less remembered what he saw and heard.

Search for the corpse of the Goddess in Ancient City? Chen Hao thought.

“Then what about Nine Doors? Why are they so powerful too?” Chen Hao felt even more perplexed.

Actually, he could hazard some guesses

about Ancient City. Gu Yuxiao was from the Gu family, and when she and that old lady went missing mysteriously in Sea Palace, her corpse was nowhere to be found.

Could it be that she was actually not dead, but had the same experience as him where she went to another dimension, and brought the actual lady in white out?

This conjecture was not impossible! Chen Hao had sent people to inspect the place where Sea Palace was, and they found that the tomb there had collapsed and was destroyed.

“Tie Cheng, do you know where Ancient City is?” Chen Hao asked again.

Tie Cheng shook his head.

“I only know that Yun Qing and the rest went to Ancient City after they learned that the lady in white was there. Then, she sent me and Tie Hong to seize you. I have no idea where Ancient City is.”

“Ancient City? I think there’s a family there called Gu family. I heard it from Master Ning Yuan a few days ago!” Doctor Ma Jin,

who had been standing aside and remaining quiet all this while, suddenly interrupted.

“Really? Indeed. If Gu family is there, and if this is where the lady in white will appear, it definitely is the Ancient City that is mentioned by Tie Cheng!” Chen Hao could not help but look at Doctor Ma Jin.

“Master Ning Yuan is having talks in Jin Ling recently. If you’re interested, I can recommend you there, Young Master Chen. It so happens that he and Mister Wu Sanfeng are old friends!” Ma Jin said.

“That would be great. Thank you, Mister Ma!” Chen Hao nodded as a gesture of gratitude.

Right at this moment, an underling ran in hastily to make a report.

“General Manager Li, Young Master Chen, the top of Cloud Hill has been penetrated, and we found a colorful giant rock!” the underling informed hastily.

“A colorful giant rock?” Chen Hao could not help but shudder.

At once, he focused his attention to respond to it hastily, and Yang energy was released continuously.

“It’s the Sky Stone!” Chen Hao was elated.

The Sky Stone was finally found!

“Zhenguo, instruct the others to seal the surrounding of Cloud Hill immediately, and prohibit anyone from going near it!” Chen Hao commanded.

“Yes, Young Master Chen!”

This colorful giant rock was shining brightly. As soon as it appeared, all the workers were astounded.

They even wanted to touch this colorful giant rock because they felt that this was an auspicious sign.

However, this colorful giant rock was right at the center of one underground cave.

And too many people were interested to go into this underground cave to have a look personally.

However, as soon as they approached the

entrance of the cave to look at the colorful giant rock, they felt a scorching sensation which was unbearable.

“It’s too hot. Damn it!” the workers exclaimed while wiping sweat off their foreheads.

“Young Master Chen is so lucky. This giant rock must be worth a few hundred million!” Someone was envious.

They had the thought of stealing a small piece of it, but no one could get near it.

Soon, the bodyguards of the Chen family arrived and interrupted everyone’s thought.

They were quickly sent down the hill.

Even the roads within a 50-mile radius were sealed temporarily, and there was no one to be found near the hill.

Chen Hao stood at the entrance of the cave alone, looking inside the cave. When he saw the colorful light that was emitting from the Sky Stone, he was utterly astonished.

It felt like there was a strange will at one

instant, trying to communicate with Chen Hao's will.

"This looks like a cave. There's a huge cave in the mountain!"

Chen Hao observed the cave from the outside.

Other than making him sweat slightly on the forehead, the strong scorching sensation did not harm him at all!

I'll go in to have a look!

Enduring the pain from the wound, Chen Hao directly leaped down from above.

Although the entrance of the cave was as small as a well's opening, it became larger when he jumped in.

The space inside was humongous.

In addition, the more he looked at this cave, the stranger he felt.

It was obviously not formed naturally, but carved by someone.

"Huh?"

## Chapter 645 Appearance of the Sky Stone

Chen Hao continued to inspect the surrounding with the help of the colorful light. Suddenly, his eyelids twitched vigorously when his eyes set on a spot.

At once, his hair stood on end in fright...

## Chapter 646 A Visit

Reflexively, Chen Hao stepped backward hastily, but when he noticed that it did not move and just remained serene with his eyes shut, Chen Hao finally calmed down.

In the corner of the cave, there was a man sitting cross-legged in front of him. He was wearing a Taoist robe, and his hair was all gray.

This man had a rosy complexion, and his eyes were closed, just like a meditating old monk.

Anyone would be taken aback if they suddenly saw a person sitting in this mountain, who looked like he was alive.

He was holding a fly-whisk, and he looked unruffled.

Chen Hao approached him carefully and felt for his breath, only to find that he was no longer breathing.

“Huh?”

Due to his approach, the old Taoist’s ruddy complexion had blackened at once, followed by the drying of the skin.

In just a blink of an eye, he had become a mummified corpse.

Chen Hao backed off immediately.

After looking at the Sky Stone, which had the height of a man, and glancing at the mummified corpse, Chen Hao pondered, Could it be that other than offering Way of Heaven's baptism to people, the Sky Stone can also preserve one's youth eternally?

That must be it!

Chen Hao recalled that both times he saw the longevity coffin, it was shining colorfully exactly like the Sky Stone.

Could it be that the stones at the bottom of the longevity coffin were actually converted from the Sky Stone?

Chen Hao could not help but form an association.

Then, he immediately looked down again, only to realize that there were some seal characters inscribed in front of that old Taoist!

It looked like his posthumous note.

Since Chen Hao was from the department of literature, he understood these writings.

This seemed like a posthumous note that he had written when he was alive.

'I am the destined one. When I was 60, I achieved the level of Grandmaster and was honored to attend the Holy Water Ritual. Unfortunately, the journey was full of dangers, and I happened to learn about the great secret of the Holy Water Ritual, so I fled to this place. Even so, I was on the verge of death! Once you attend the Holy Water Ritual, there will be no turning back. If any Grandmaster of the future reads this message, please remember this and be cautious. Stop everything!'

This was all that was written.

It turned out that this old Taoist was also a Grandmaster that attended the Holy Water Ritual that year.

In addition, he must have had extraordinary ability to be able to flee from it successfully.

He mentioned that he found out the great secret of the Holy Water Ritual, but he did

not write what the secret was. This made Chen Hao anxious.

Indeed. The Holy Water Ritual was extremely mysterious, and once people went there, almost no one would make it back successfully.

However, the Holy Water Ritual held the biggest mystery of the League of the Sun.

On top of that, Chen Hao bore the curse of death, so nothing could stop him. Even if he died, he must figure out what secret the Holy Water Ritual held!

This cave was in the mountains. He had inspected everywhere in this cave and concluded that the surrounding was all sealed.

Even the large hole on top was dug by the men he sent.

So how did this old Taoist come in?

Chen Hao found it puzzling.

However, this was not the time for Chen Hao to mull over this question.

Now, there was Yun Qing's Three Saints Sect and Nine Doors to deal with.

It was obvious that they were after something.

Besides, he must not let them get the lady in white. Otherwise, all his effort would go to waste!

The Sky Stone!

After kowtowing to the old Taoist, he approached the Sky Stone.

Now that he came nearer to the Sky Stone, that feeling became stronger.

Chen Hao raised his hand and felt it.

Boom!

An overwhelming heat energy was emitted from the Sky Stone, and it began to circulate inside Chen Hao's body rapidly.

Due to that, Chen Hao's pores enlarged continuously, and it seemed like they were receiving this baptism...

Three days had passed in the blink of an

eye.

“Old witch, why aren’t you dead yet? If it wasn’t for you, I would have gotten Chen Hao!”

Nearby Cloud Hill, a few figures flew by.

It was the 8 people with the addition of Tie Hong.

A few days ago, they had tried to besiege Chen Hao but were hurt severely by Chen Hao’s Jade.

At that moment, they felt like their inner energies were sealed.

This frightened all 9 of them, and they were afraid that they would be killed by Chen Hao instead.

After all, the magic tool Chen Hao had was beyond powerful.

After they fled and reflected on it carefully, they recalled some details.

They realised that Chen Hao did not have full control of that magical Jade.

Also, their capabilities had returned, so all of them individually planned to first take away the Jade, then capture Chen Hao and bring him back.

Therefore, they came to Cloud Hill.

Unexpectedly, they bumped into each other on the way here, so they fought again.

“Old Witch, it’s such a great misfortune to meet you here. Nevertheless, it is imperative that we get Chen Hao and that Jade!”

As they were speaking, they engaged in a fight again.

They fought all the way to the forbidden area at Cloud Hill.

When the bodyguards saw them, they were panic-stricken, so they informed the higher-ups without delay.

While they were talking, the few figures had fought all the way from the bottom of the hill to the peak in just a few seconds.

“It’s you!”

## Chapter 646 A Visit

Tie Cheng had been sitting crossed-leg on top of the hill and guarding this place for many days.

When he saw them, especially Tie Hong, intense hatred appeared in his eyes.

Because of his words, Tie Hong and the others stopped fighting.

“Betrayer. I didn’t expect Chen Hao to have the ability to make you regain your consciousness!”

Tie Hong’s face was overtaken with murderous intention.

Tie Cheng clenched his fists. “Young Master Chen did this so that I could have a chance to seek revenge!”

Although the person in front of him was his grandmother, she had never treated him as her grandchild.

In her eyes, he was just a petty dog.

From the beginning to the end, he was just a dog.

She had not hesitated to kill him, and even

turned him into a gruesome monster.

He could not swallow this hatred!

“Seek revenge? Tie Cheng, did your mind become like Chen Hao’s after returning to him? You want to take revenge on me?”

“I only turned you into a Gu and made you one of my murdering tools, but you actually betrayed me. Fine. I’ll just kill you again, and this time, I’ll cut you into pieces!” Tie Hong said with grim eyes.

“Even if I can’t defeat you, I’ll still fight. Today, none of you will step foot into this cave as long as I’m alive!”

Tie Cheng stood up without fear.

“Old Witch, do you need our help to get rid of the trash from your family? If that’s a deal, you can have Chen Hao, and we’ll have the Jade. What do you think? It seems like Chen Hao is in the underground cave in front of us!” that person said with an evil laugh.

“What a beautiful dream you have. Today, I’ll get Chen Hao, take the Jade and the life of this betrayer!” Tie Hong smiled eerily.

Thump!

As soon as she finished speaking, her face became ferocious instantly.

In just a flash, she dashed toward Tie Cheng and attacked him.

Tie Cheng could only last a few rounds, especially after most of his evil strength was forced out by Chen Hao's Jade, causing his ability to combat to decline significantly.

After a few strikes, he was slammed on the chest by Tie Hong.

At once, blood spurted out of his mouth, and he smashed onto a huge rock, shattering it.

With a blood-covered face, Tie Cheng stood up slowly from the ground.

Tie Hong was aiming to kill him with that slam, but out of her expectation, he had stood up even though his legs were trembling.

"Over my dead body!"

On Tie Cheng's face, only his eyes were white. His face and the rest of his body were covered in blood. Even so, there was still a firm determination in his eyes.

"Old Witch, you're weak! It was such a powerful attack, but he didn't die. Are you sure that you don't need our help?" the 8 people mocked while crossing their arms.

"With just another hit, I'll break all his meridians and kill him!" Tie Hong bellowed angrily, going in for another strike.

Tie Cheng clenched his jaws tightly.

"Strike back!"

Just when Tie Cheng thought that he would definitely die this time, a voice rang beside his ears suddenly. It sounded like it came from beside his ears, but it also sounded like it came from the bottom of his heart...

There was no time for Tie Cheng to think about that. Instantly, he lifted his hands and made a counter-attack at Tie Hong.

“Don’t overestimate yourself!”

Tie Hong sneered. After that, she mustered even greater strength and aimed to break all of Tie Cheng’s meridians with this blow.

Boom!

It was a direct strike of a palm against a fist, and it produced a deafening noise.

Tie Cheng stood in place, perfectly still.

On the contrary, Tie Hong was blasted to the sky like she was swept away by a tornado of severe intensity, causing her whole body to split open, and blood splattered everywhere

She was thrown backward, smashing through more than 10 huge trees, then skidded across the ground, where a long trail of blood could be seen. Finally, she came to a stop, but her four limbs were all drenched in blood.

On top of that, all her internal organs almost exploded due to the blow.

At once, she raised her head in fear and stared at Tie Cheng in disbelief.

“H-How is that possible?” Tie Hong said with a mouthful of blood.

The 8 other people, who were initially enjoying the scene from the side with crossed arms, were all dumbfounded and stunned.

Even Tie Cheng did not expect that his fist would have such great power!

No. It wasn't him!

Tie Cheng moved his severely injured body and looked back. Only then did he realize that Young Master Chen had appeared behind him without him noticing.

However, looking at Young Master Chen now, he felt that there was something strange about him.

There was an obvious change in Young Master Chen's skin—it had never been fairer, nor had it ever glowed. The most

bizarre change was, his hair had become dark purple, and there was some sort of purple mist surrounding him.

Standing beside Young Master Chen, he felt that the faint purple mist bore an indescribable pressure, and it overwhelmed his body uncontrollably.

This caused Tie Cheng to quiver.

“Y-Young Master Chen!”

The weight on Tie Cheng’s shoulder was finally lifted.

“Tie Cheng, I almost caused you to die again. Go and rest now. I’ll treat your injuries later,” Chen Hao said in a flat tone.

“Have you just been through the Way of Heaven’s baptism? Was it successful?” Tie Cheng nodded in exhilaration.

Chen Hao gave a faint smile. “Yes. It was successful.”

Now, Chen Hao’s inner energy had completed the Way of Heaven’s baptism, and it became the universe’s pure Yang energy.

He would never have to be afraid that there was nothing he could do, or worry that he could not cause any harm anymore when fighting against people like Yun Qing and Tie Hong, whose inner energy was that of Yin energy.

“Chen Hao, how did you become so strong?! I know. It must have been the power that the magical Jade gave you!” Tie Hong exclaimed in shock with her blood-covered face.

“I told you. That Jade must be extraordinary, and we found a treasure. After capturing Chen Hao, we’ll take this Jade for ourselves!”

The eyes of the 8 people were beaming with greed now.

They were extremely confident with themselves, so they did not bother about the drastic change that had happened to Chen Hao.

All they wanted was Chen Hao’s Jade.

“If you want it, come and get it,” said Chen Hao with a faint smile while looking at them.

“Attack!”

The leader of the 8 people waved his hands abruptly.

The remaining 7 people pounced on Chen Hao like rabid dogs.

Chen Hao might have been unable to hurt them previously, but it was not the same now.

Chen Hao’s moves were swift. In just a blink of an eye, even before the 7 people could approach Chen Hao, their necks were twisted by Chen Hao’s pure Yang energy.

All of them died on the spot.

“What?”

Only now did the last person come back to his senses, and he calmed down quickly.

He told himself in astonishment, I’m not a match for him!

At once, he wanted to flee.

But as soon as he turned away, a strong

suction force lifted him high off the ground, and he could not resist it.

All his meridians were devoured by a horrific force.

In the end, he fell from the sky and smashed onto the ground.

“Young Master Chen, please spare me!”

He turned around and got up. Trembling vigorously, he kneeled in front of Chen Hao.

In just three days, Chen Hao seemed to have changed into another person. He had become unimaginably strong!

As the saying went, a wise man would not fight when the odds were against him. The most important thing now was to look for a chance to escape.

“Young Master Chen, please show mercy. I have a great secret to tell you!” said this man in an exploratory tone after taking a deep breath.

But Chen Hao just lifted his feet and stepped on his head.

This man gulped and continued, "If you promise to spare my life, I'll tell you everything!"

"Sorry, but I'm not interested!" As Chen Hao was saying, he stepped even harder.

With a thunderous crack, this man's head was crushed by Chen Hao's feet.

The insides of his head were all over the place!

Even the hidden weapon that he was about to pull out from his sleeves was too late to be launched.

Finally, Chen Hao set his eyes on Tie Hong, whose four limbs were all crushed due to the blow.

In extreme fear, Tie Hong propped her body up and tried to crawl away.

"Young Master Chen, please leave her to me!" said Tie Cheng while walking toward him.

Chen Hao nodded.

"Tie Cheng, you unfilial son! How dare you

kill me? Aren't you scared of being struck by thunder?" Tie Hong berated with her bloodshot eyes.

"You're wrong, Tie Hong. No matter how cruel you are to me, I will never become an inhumane beast like you. I will not kill you personally. I requested Young Master Chen to leave you to me because I want to ask you a question before you die. This question has been bugging me for years, and all I want is an answer."

Tie Cheng had stopped in front of Tie Hong.

"Have you ever cared about family?" Tie Cheng asked coldly.

"Family? How hilarious. No. Anyone who obstructs me must die. All of them!" Tie Hong shouted angrily.

When she finished her sentence, she stared at Tie Cheng who had his fists clenched, and suddenly mustered all her strength to launch an attack.

Swoosh!

But a beam pierced right through her neck,

and the force sent her flying out to a distance. On her neck, there was a hole of a fist's size.

When she landed on the ground, her eyes were no longer lively, indicating that she was absolutely dead.

Chen Hao kept the Breaching Army and walked toward Tie Cheng.

"She has abandoned her conscience. Do you think that she will do anything kind before she dies? I know that you couldn't let go of what happened to your father and Xiaolou, but everything's over now!" Chen Hao patted his shoulder.

Tie Cheng clenched his fists and nodded firmly.

"Young Master Chen, what should we do next?" Tie Cheng asked.

"Mister Ma Jin knows Master Ning Yuan, and he knows about the Gu family, so I'm planning to pay him a visit. There's something mysterious about the Gu family. Most importantly, they also know about the lady in white, and are even looking for her using every means. Now,

the Sea Palace is destroyed, and Gu Yuxiao is nowhere to be found. If she's truly dead, why can't I find her corpse after searching for her so long?" Chen Hao replied.

"I understand now. Young Master Chen, are you saying that the true Goddess might have been taken away, and that she was taken to the Gu family?" Tie Cheng nodded.

"Yes. You should rest well to recover your injuries for these few days."

As Chen Hao was speaking, he took a deep breath, and the next thing that happened was his dark purple hair vanishing, and the purple mist that was lingering around him dissipating. Gradually, Chen Hao returned to normal.

After receiving the Way of Heaven's baptism, his inner energy had fundamentally and significantly improved as expected.

The next day, Master Ning Yuan was holding a talk for charitable donations in one of the biggest halls in Jin Ling.

Master Ning Yuan was a renowned senior monk in China.

Therefore, everyone on the scene was simmering with excitement when he came.

There were also some youngsters, because many of the young people grew up reading Master Ning Yuan's words of wisdom.

Initially, Mister Ma Jin planned to let Master Ning Yuan and Young Master Chen meet in private.

But Chen Hao rejected it because he did not want to disrupt Master Ning Yuan's schedule. Besides, a lot of people had prepared for this donation drive for a long time. Since he was not in a rush, he might as well wait for another one or two hours. It would be unreasonable to force Master Ning Yuan to cancel the talk using his identity.

Therefore, Chen Hao came to the scene to wait while Master Ning Yuan finished his talk.

"Chen Hao?"

But when Chen Hao walked through the entrance, his shoulder was suddenly patted by someone...

“Xiaonan? Why are you here?”

The one who called him was Ma Xiaonan.

Speaking of which, they hadn't met for quite a few days.

“Master Ning Yuan is having a talk today. I'm in charge of bringing the excellent students of the grade to attend this talk,” replied Ma Xiaonan with a smile.

“What a coincidence!” Chen Hao returned a smile.

“What about you, Chen Hao? I didn't know you were interested in this kind of event,” Ma Xiaonan looked at Chen Hao and said.

It was a delightful surprise for Ma Xiaonan every time she met him.

In many of her sleepless nights, she even wished she could call Chen Hao to ask him what he was doing, or how he was recently.

After all, Ma Xiaonan did not keep this a secret. She had fallen in love with this man starting from some point in her life without her noticing.

Chen Hao knew her feelings toward him too.

But she knew that before Su Tongxin was found, any feeling was just subtle and insignificant for Chen Hao, because his focus and attention was not on this matter.

Even so, Ma Xiaonan was not willing to give up. She had even set her mind to follow Chen Hao wherever he went.

“I came to discuss some matters with Master Ning Yuan.” Chen Hao did not conceal his objective.

It was a coincidence that they met here, so both of them chatted while planning to find a seat inside.

Right at this moment, Chen Hao’s phone rang.

It was a call from Ma Jin.

“What’s the matter, Mister Ma Jin?”

“Young Master Chen, after getting to know that you would be present, the organizer of this event, Wu Darong, has set great

stores. He has even arranged VIP seats for you and Master Ning Yuan. The members of the organizer told me to ask if you were willing to go there,” Ma Jin said.

“No, it’s fine. I’m with my friend. When Master Ning Yuan finishes his talk, kindly arrange a private meeting for me and him. Thank you!” Chen Hao replied with a smile.

“Yes, Young Master Chen!”

It was not an exaggeration to say that Ma Jin was absolutely awestruck with Chen Hao, and he admired and respected Chen Hao greatly.

Therefore, being able to do Chen Hao a favor was an honor for him.

After hanging up the call, Ma Jin had no choice but to shake his head in regret at Wu Darong, who was rubbing his hands together nervously.

Wu Darong wiped the sweat off his forehead and felt disappointed.

This meant that he had missed an important opportunity to get to know Young Master Chen.

Sigh!

“Are you busy? If you have something to do, you may leave to settle your things first,” said Ma Xiaonan while looking at Chen Hao after both of them sat beside her students.

Although she expressed it as though she was fine with him leaving for his work, she was actually anxious deep inside, afraid that he would really leave her to tend to his matters.

“Nope. I’m not busy,” replied Chen Hao with a smile, fortunately.

Both of them continued chatting while waiting for the talk to begin.

Ma Xiaonan put all her attention on Chen Hao, and she did not bother about the few boys behind them that were running around.

Right at this moment, there was a loud clatter.

A boy was chasing another boy to get back his phone, but he accidentally ran into a waiter and flipped the wine serving tray.

The worst was, a beautiful girl was walking past this waiter while holding hands with a middle-aged man, so the red wine spilled onto her directly.

“Ah!” the woman screamed with a face full of anger.

Everyone who attended this grand event had dressed up meticulously and glamorously. After all, it was an opportunity to exhibit their best status.

But now, her clothes were tainted, and she was utterly embarrassed.

“I’m sorry!” The boy did not mean to cause this mess, so he immediately apologized in a panic.

Smack!

However, right after he apologized, his face was slapped hard by that woman. The sound reverberated in the room.

The boy was left stunned from that blow.

“Do you think apologizing is enough? Are you blind?!” the woman berated.

“I-I didn’t do it on purpose!”

Many people were attracted by this scene immediately after the boy was slapped in public.

Being stared by such a large crowd, he felt greatly embarrassed.

However, the boy noticed that this couple was wealthy, and he could not afford to offend them. Out of embarrassment and fear, he started weeping.

“F\*ck! Are you sure you didn’t do it purposely?!”

The woman’s husband was obviously not someone to be trifled with. Raising his feet, he kicked the boy’s abdomen.

The boy sprawled to the floor due to the kick, causing his tears to gush down his cheeks uncontrollably while the crowd looked at him with sighs.

“My shirt costs more than a hundred thousand. It’s ruined now, so you must compensate me for this loss!”  
commanded the young woman coldly.

“M-My parents don’t have so much money!” the boy stuttered in fear.

“What a poor loser. Then why did you come to this kind of event? Looking at poor losers like you makes me sick!” As the woman mocked, she slapped the boy’s face continuously.

The boy’s eyes were brimming with tears, but he did not dare to resist her and just allowed her to hit him.

“Miss Ma, someone is hitting Liu Hao!”

At this moment, many of the students saw this scene, and a few girls came rushing to report to Ma Xiaonan.

“What?”

Ma Xiaonan turned to look at that direction and saw that there was indeed a large crowd gathering near the entrance of the hall, and her student, Liu Hao, was standing there crying while getting slapped by a woman.

He was clenching his fists while looking down, and his tears trickled down his cheeks drop by drop.

“Stop it! Stop hitting him. You don’t have to resort to violence!”

Immediately, Ma Xiaonan rushed there and pulled the boy behind her.

The few boys who took Liu Hao’s phone behaved themselves now. They were only making fun of Liu Hao in the beginning, and they did not intend to cause such a big trouble.

Liu Hao’s family was poor, but he was an obedient kid who was diligent and hardworking in his studies. Even without them explaining the situation, Ma Xiaonan had figured out that it must be these few boys who snatched his phone to tease him.

At once, Ma Xiaonan looked at that woman and stopped her.

However, both of them were stunned once they saw each other.

“Ma Xiaonan?”

“Wang Xiaomei?”

Obviously, they knew each other.

“If I’m not mistaken, you went to study at Jin Ling College after graduating from senior high school. I see that you have become a teacher now.” Wang Xiaomei could not help but taunt, and she even sounded contemptuous.

After all, there were some people who would have the sense of superiority over other people when they felt that they were living a wealthy life.

“Yeah. What did Liu Hao do that you must slap him in public?”

Ma Xiaonan obviously knew the character of Wang Xiaomei, so she did not exchange any greetings or whatsoever with her, especially when Wang Xiaomei had just humiliated her student, causing her to almost explode with anger.

“That’s what he gets for spilling red wine on me. Do you know how much my shirt costs? Can he afford to pay me?” Wang Xiaomei snorted.

“Whether he can afford it or not is a separate matter, and we’ll discuss that later. My question is, why did you slap him in front of everyone?” Ma Xiaonan stared

at her while she chided.

Wang Xiaomei was startled by Ma Xiaonan's stern words.

Indeed. No matter how much it cost, it was the matter of money.

She had hit him just to exhibit her superiority.

Therefore, she felt guilty when she was questioned by Ma Xiaonan.

Everyone was looking at Wang Xiaomei as well.

This caused her to feel exasperated and furious. At once, her temper of a wealthy person aroused, so she just shrugged her shoulders helplessly with her palms facing upward. "I'll hit him as I please. What can you do about it?"

As for Wang Xiaomei's husband, he flipped his wrist to look at his Rolex watch. Then, he tidied his suit and stepped forward.

"I am Li Zhenxiang. I'm—"

Smack!

But before he could finish his sentence, a huge blow had landed on his face, causing his mouth to be distorted. Even his body flew across the room and smashed through a few tens of tables.

This made the crowd scream in fear.

The person who hit him was none other than Chen Hao. He could not stand watching any longer, so he came forward and attacked.

Looking at her husband who was dizzy and even broke a few teeth, Wang Xiaomei shouted in exasperation, "A-Are you crazy? W-Why did you hit my husband?"

Chen Hao looked at her calmly. "Because he has a surname of 'Li' and not 'Zhang', so I hit him."
