

As soon as she finished talking, Zhou Nuo reached her hands out, wanting to hold the baby green dragon.

Roar!

The baby green dragon opened its mouth immediately, revealing its two small teeth as it roared at Zhou Nuo.

Its adorable roar was just heart-warming.

“You little rascal! I’m so gentle, yet you’re still so fierce toward me!” Zhou Nuo pouted her lips as she scolded the baby green dragon.

The baby green dragon seemed to have understood Zhou Nuo as it quickly curled into a ball.

Chen Hao could not help but smile when he saw the baby dragon’s behavior. He then reached his hands out, holding the baby green dragon in his palm.

The baby green dragon lay in Chen Hao’s palm comfortably. It did not stop rubbing itself on Chen Hao’s palm, trusting Chen Hao completely.

“It looks like it trusts you a lot. Look, it has no issue with you touching it!” said Zhou Nuo delightedly when she saw this; a beautiful lady like her could not even be compared to a man.

Actually, it might be because Chen Hao had been the one carrying the dragon egg all this while. Hence, it had already been accustomed to Chen Hao’s aura. That was why the baby green dragon trusted Chen Hao the most.

The two of them then kept the baby green dragon company until late night before they went to bed.

Nonetheless, after a while of interacting, the baby green dragon became familiar with Zhou Nuo as well. It no longer Zhou Nuo like a predator anymore, and had even let Zhou Nuo hold itself.

The next morning, Chen Hao and Zhou Nuo woke up to the baby green dragon jumping up and down on their bellies, occasionally making a roaring sound.

Zhou Nuo immediately understood what it was trying to say when she saw its behavior. “Chen Hao, it looks like it is

hungry!”

However, the both of them were perplexed by this. *What do baby green dragons usually eat?* Their diets were certainly different from a human’s.

After that, Chen Hao kept the baby green dragon in his storage space before leaving the hotel with Zhou Nuo and Lin Zilan to look for somewhere to eat.

The trio finally found a restaurant, and ordered plenty of delicacies.

Chen Hao put some meat into the storage space to feed the baby green dragon.

However, the green baby dragon sprawled on the ground, taking no interest in the food that Chen Hao had put inside.

“It’s not eating? It doesn’t even eat meat.” Chen Hao was baffled.

If the baby green dragon doesn’t eat meat, then what does it eat?

Nevertheless, Chen Hao ignored it for the time being. He wanted the three of them to fill their stomachs first before coming

back to the issue.

After the three of them were done eating, they continued to look for food for the baby green dragon.

At that very moment, the three of them were passing by a grand manor when the baby green dragon in the storage space started getting agitated.

Chen Hao could sense that something was wrong with the baby green dragon and quickly released it. However, it flew speedily toward the grand manor as if something had caught its attention.

“Hey, you little rascal!”

Chen Hao wanted to stop the baby green dragon, but it was already too late.

Thus, they had no choice but to jump over the fence into the grand manor, dashing toward the direction of the baby green dragon.

By the time the trio had caught up to the baby green dragon, it was sprawled under a tree, nibbling on something in its mouth. There were even scraps of it left on the

ground.

“What is it eating?” asked Zhou Nuo curiously.

Remembering that it did not eat any meat just now, she was curious as to what made it so excited that it started eating now.

Chen Hao walked up to the baby green dragon. He squatted down before picking up the scraps on the ground to inspect it.

“These are fruit residues. It must be eating fruits!” concluded Chen Hao after a round of inspection.

It was apparent that the scraps had a fruit-like substance.

As soon as Chen Hao finished his sentence, the three of them lifted their gaze and looked upward.

As expected, there were countless fruits growing on the big tree above them. These fruits were glimmering in pink, which was extremely dazzling.

“Wow, what kind of fruit is this? It looks so pretty and juicy!” Zhou Nuo couldn’t help

yelling out in excitement.

They had never seen such an attractive fruit before. It was not something that existed neither on Earth nor the Border Realm. It could only be found in the Celestial Continent.

After a quick glance, Chen Hao extended his arms and plucked a fruit.

Chen Hao could feel a mysterious energy amassing in his palm when he held the fruit in his hand. It was extremely peculiar.

Whoosh!

Just then, two women wearing white robes with white wings on their backs suddenly descended from above, surrounding the three of them.

“Who are you guys? How dare you trespass this place? What’s more, you even have the courage to steal our holy fruit!”

One of the women pointed at the three of them furiously as she interrogated them.

“Chen Hao, these two people are quite formidable!”

Lin Zilan could feel that something was wrong when he saw the arrival of these two women, so he quickly reminded Chen Hao.

These two women were at the fourth stage of Immortality at the very least.

“Oh, I'm sorry. We did not mean to trespass onto your property!” Chen Hao apologized to the two women.

“Save the nonsense! You're holding the fruit in your hands, yet you have the courage to claim that it was not your intention. I'm going to punish you three thieves!” reprimanded the woman who had a better-looking figure.

The moment she finished talking, the two of them launched their attacks simultaneously toward Chen Hao and the other two.

“You guys should leave first. I will handle them!”

Chen Hao quickly turned around and urged Zhou Nuo and Lin Zilan to leave the scene as soon as he realized what was happening.

Zhou Nuo and Lin Zilan had no objections; they retreated immediately and fled the scene, leaving Chen Hao to fight the two women by himself.

Although these two women had reached Immortality and were at the Fourth Tier of Soul Cultivation, they were still no match for Chen Hao.

Zing!

As soon as Chen Hao's Sword Energy was unleashed, the two women in front of him were sent flying back in an instant.

They were in absolute astonishment as they had not expected Chen Hao to possess such terrifying strength. Even if the two of them joined hands, they were unable to defeat Chen Hao. It looked like they had met a formidable opponent today.

Ding!

At this moment, a halo suddenly flew toward them from nearby, separating Chen Hao from the two women.

As the halo descended to the ground, a

woman wearing a phoenix robe with a crown on her head walked out from it, holding a scepter with a pink gem on its end.

“Halt, everyone!” urged the woman with a crown tersely.

Chen Hao and the two women had no choice but to cease their attacks.

“Master Mage!” The two women greeted respectfully as they knelt before the woman wearing a crown.

“Stand down, I will handle this!” The woman in the crown ordered.

Upon hearing her instructions, the two women quickly stood up and retreated, leaving the scene.

After the two women had left, the woman in the crown looked at Chen Hao and asked, “Is that baby green dragon your pet?”

After hearing her question, Chen Hao turned his gaze to the baby green dragon, which was still indulging in the fruit. He turned back to face the woman with the

crown. He then nodded and replied, "Yes, it's my pet. I also don't know why it's so attracted to this fruit!"

“This is the Divine Energy Fruit, which is a type of holy fruit!”

The woman proceeded to introduce the fruit to Chen Hao.

The Divine Energy Fruit was a holy fruit harvested once every hundred years in the Celestial Continent. It could help replenish the body’s energy and heal it of its wounds. It was a basic element in medicine-making in the Celestial Continent.

“But why is it attracted to the Divine Energy Fruit? I fed it meat but the baby green dragon took no interest in it at all,” asked Chen Hao, looking at the woman in confusion.

“Hehe!” The woman let out a soft chuckle.

“This baby green dragon is one of the Heavenly Beasts in the Celestial Continent. You obtained it from a challenge in the Illusion Realm, didn’t you? It does not consume meat; instead, it feeds on this Divine Energy Fruit!”

After that, the woman with the crown continued to explain everything to Chen

Hao patiently.

Only then did Chen Hao understand what was going on.

“Since the baby green dragon has chosen you as its master, it means that you’re not an average person yourself. I hope that you will take good care of it. When it grows up, it will surely bring you unexpected rewards!” The woman with the crown reminded him earnestly.

Even if she had not advised Chen Hao on this, Chen Hao was aware of it himself. He would definitely take good care of the baby green dragon.

As soon as the woman finished talking, she waved her hand, plucking down hundreds of the Divine Energy Fruit from the Divine Energy Tree in an instant. She placed them right in front of Chen Hao.

Chen Hao was shocked to see this. He could not comprehend what the woman was trying to do.

“What are you doing?”

“You and I are fated to meet. Furthermore,

the baby green dragon needs the Divine Energy Fruit in its diet. Thus, I'm endowing all these Divine Energy Fruits to you!" explained the woman as she smiled faintly.

With that, the woman flew away from the scene with a leap.

After watching the woman leave, Chen Hao came back to his senses once more. He quickly stored all the Divine Energy Fruits inside his storage space.

After he was done with all of that, Chen Hao brought the baby green dragon out of the manor.

By then, the baby green dragon had already filled its stomach. It lay in the storage space, snoring away soundly.

"Hey, you little rascal! You were the one who caused all this trouble, yet I'm the one who needs to clean up the mess you left behind. Now, you're sleeping so soundly. I wonder who is the real master here!"

Chen Hao was slightly annoyed when he saw the baby green dragon dozing off.

However, Chen Hao could not do anything about it. Since it was his pet, he had the obligation to take care of it.

When he left the manor, Zhou Nuo and Lin Zilan had been waiting outside the fence for quite some time.

The two of them were relieved when they saw Chen Hao coming out safely; they were afraid that Chen Hao had been in trouble.

“Are you alright, Chen Hao? Are you hurt?” asked Zhou Nuo, who rushed up to Chen Hao worriedly to check up on him.

Chen Hao gently shook his head and answered, “I’m fine. It was just a misunderstanding!”

Zhou Nuo and Lin Zilan were relieved after hearing Chen Hao’s words. If something were to happen to Chen Hao, the both of them would feel very terrible.

“By the way, Zhou Nuo, Zilan, why have we come to the Celestial Continent this time?” Chen Hao looked at the both of them as he asked curiously.

Truth be told, Chen Hao had no idea what he was doing here at the Celestial Continent. He had no clue at all.

“Huh? Don’t you know why we came all the way to the Celestial Continent?” asked Lin Zilan doubtfully, revealing a hint of astonishment on his face.

“I don’t. Do you?” Chen Hao furrowed his brows.

Lin Zilan and Zhou Nuo exchanged gazes before nodding.

“Chen Hao, we came to the Celestial Continent to enter Celestial Academy. We are here to cultivate and become a stronger cultivator!” The next second, Zhou Nuo answered Chen Hao as she kept her eyes on him.

“The Celestial Academy?” Chen Hao was puzzled for a second.

Zhou Nuo and Lin Zilan started to introduce the Celestial Academy to Chen Hao, and talked about the academy’s situation in detail.

The Celestial Academy was the biggest

academy for cultivators in the Celestial Continent. They would select talented individuals from different continents to enter the academy to learn cultivation every ten years. From there, they would go on to become the strongest cultivators. At the same time, those who passed with flying colors would hold a first-class degree in the Celestial Academy, which was the highest honor of them all.

This was the reason why so many people wanted to enter the Celestial Continent whenever it opened its portals.

However, Chen Hao was an Earthling, so he did not know about this information. This was because the Celestial Continent did not accept any applicants from Earth. Instead, they only accepted applications from the Border Realm.

Chen Hao was enlightened after listening to their explanation.

“How can a person get into the Celestial Academy?” Chen Hao continued asking curiously.

Since this Celestial Academy was so amazing, Chen Hao wanted to go inside

and have a look at it himself. He might even stumble across some magical opportunities.

“You can only enter after sitting for the Celestial Academy’s test!” answered Lin Zilan.

“When will the test be held?” Chen Hao asked in return.

“It will be held at 3 o’clock in the afternoon!” Lin Zilan blurted out.

Chen Hao looked at the time. It was already two-thirty in the afternoon. There was only half an hour left before the examination started.

“It’s two-thirty now, and we only have half an hour left. We’d better hurry!” Chen Hao said to Zhou Nuo and Lin Zilan.

The two of them had no objections to it as they nodded quickly, agreeing with Chen Hao.

After that, the three of them headed to Celestial Academy hurriedly.

It was already 3 o’clock at the Celestial

Academy in the Celestial Continent.

Thousands of people had already gathered outside of the entrance.

Although there had been a round of selection from the challenge in the Illusion Realm, many candidates still remained. All of them were here to enter the Celestial Academy.

However, the Celestial Academy only accepted 200 candidates each time. It was a tight competition because thousands of candidates were gradually eliminated until only 200 remained.

Soon, Chen Hao and his friends arrived at Celestial Academy.

"It looks like there's a lot of candidates this year!" Zhou Nuo could not help but sigh when she saw the massive crowd.

Ding!

As soon as she finished talking, a soothing ring of a bell sounded from the inside of the Celestial Academy.

Whoosh!

As soon as the bell rang, four silhouettes instantly appeared at the entrance.

These four silhouettes were the Four Great Guardians of the Celestial Academy, who were in charge of defending the Celestial Academy. Every one of them had reached the stage of True God with a terrifying presence.

The moment the Four Great Guardians appeared, the entire place fell into a deafening silence.

Their overwhelming aura suppressed everyone's heart; everyone could feel a strong force pressuring against them, including Chen Hao, Zhou Nuo and Lin Zilan. Although Chen Hao had a strong consciousness, he still could not withstand the force from those strongmen at the stage of True God. After all, their strengths were one of a kind. It seemed like there were quite many experts in Celestial Academy; it was no wonder that it was the stronghold of the Celestial Continent.
