Because the big brother this school games extra active, so as the sports committee Xie Sheng decided to invite the big brother to participate in the relay race, after all, the relay race participants can be changed. ()

And when Xie Sheng found Big Brother, he was accompanying An Xingyue to watch Su Zhiqing jumping high, and there were quite a few people from Class 7 watching, after all, it was the girl of Class 7, the little pepper who was competing.

That's right, class 7's little pepper Su Zhiqing children enrolled in the high jump, so An Xingyue specially come to see her compete, and night Xiu Chen is not willing to separate from her, so he can only accompany her. The point is that the big brother is not only watching, but also constantly spitting those people jumping high posture, the people standing around the seventh class feel that the big devil king refreshed their knowledge of him, after all, it is the first time they see him so to spit on people, and An Xingyue is not used to it, anyway, after together, night Xiu Chen private words can say more, and love words are also at hand, if not really sure that he does not have ex-girlfriend those, An The company's main business is to provide a wide range of products and services to the market.

The real reason is that the big devil wants to show his charm and strength in front of his girlfriend, to show that he is not an empty frame, but this started because one of the suitors of his cutie said in front of her that he only had a good look and could The big man decided that he couldn't be that low-key, or he would be looked down upon.

After all, since their own cutie took the first place in the grade twice in a row, many people specially came to class seven to see her, the purpose is to see how this new transfer student grows, after all, in the hearts of most people with good grades should not look good, but An Xingyue good-looking, good grades, and not the kind of arrogance that I have good grades so I am superior to you, so many boys have a very good feeling for her, even if the other The person who is the Great Demon King.

As the saying goes, there are no corners that can't be dug, only people who don't try to dig corners, so now a bunch of people are digging corners of the King of Magic, but as long as the wall is hard enough it's not afraid of others digging. (. ^ ▽ ^)

Before running the relay race on the field, night Xiu Chen secretly kissed An Xingyue's cheek and said with a smile, "Little table, I'll get you another gold medal back, okay?"

Hearing his words, An Xingyue was surprised to look at him, the relay race can not only depend on the individual, but also on the ability of others, if the others and others are too far behind, it is difficult for him alone to save the day, but since he said so, then there must be sure to get the first.

"If its three people are pulled too far, then what do you do?" An Xingyue asked, although he was sure of him, but it was better for him to speak to her personally, after all, the confident and fearless Dafa was fascinating.

"Don't worry, I'm the last stick, no matter how much I pull away, I can catch up, and since I participated, I didn't think of giving the first place to others." Night Xiu Chen hooked the corner of his mouth and said confidently.

But finally did take the first, and because the first three bats were not pulled away from a lot of distance, so night Xiu Chen more easily sprinted to take the first.

An Xingyue felt that her biggest gain from the school games was probably the medal given to her by Night Xiu Chen.
