

The Almighty Dragon General Chapter 926

Gradually, the frost on James' body began to disappear.

Half an hour later...

James opened his eyes and said excitedly, "I did it! I've converted all the Cold Energy into True Energy!"

Maxine said, "Hurry up. The Cold Energy accumulated in Cynthia's body is already too powerful. I won't be able to control it any much longer."

James said, "Quick, channel it into my body."

Maxine quickly transfused her True Energy into Cynthia's body and channeled the Cold Energy into James' palms.

James' palms began to freeze and slowly spread through his arms instantly.

He quickly absorbed the Cold Energy and refined it into True Energy.

The process for him to fully absorb and convert the energy took three hours.

Three hours later, his True Energy had proliferated. As soon as he exerted it, True Energy flowed like a gush of water.

"That's enough," Maxine said. "You've almost completely absorbed all the Cold Energy that built up in Cynthia's body for the past few days."

James withdrew his palm.
