

The Almighty Dragon General Chapter 967

After a short while, Thea felt a warm and comfortable energy spreading throughout her body.

The warmth seemed to come from the points where James had placed his needles.

James carefully inserted energy-infused needles into her body.

In an instant, there were already seven placed in various places on Thea's body.

After the eight needles, his True Energy was almost spent.

With this technique, a portion of the poison in Thea's body had been successfully expelled.

However, there was a limit to using Crucifier this way.

Thus, James could not completely eliminate all the poison in Thea's body.

"Wait a while, Thea. I'll go get some acupuncture needles."

"Alright."

Thea was lying on the sofa. She felt much better and was relieved that she was not going to die.
