You can imagine her differently if you want :)

Alex's POV

It was 11:53 pm. 7 more minutes until I turn 18. 7 more minutes to finally be free. 7 more minutes to get out of this horrible place, I said to myself alone in the laundry room while everyone else was at Archer's birthday party, the future Alpha. Yes, his birthday is a day before mine how unfortunate.

I am an orphan. My parents died when I was 10, our pack was attacked and my parents died trying to protect me. I remember my father severely injured pulling me out from under the bed. He had 3 large claw cuts on his chest and he was bleeding out.

Flashback*

"Baby we have to go! We have to go before they find you."-My father said pulling me to his arms.

"Daddy I'm scared, what is happening? Where is mommy?" I said sobbing in my father's arms.

"Mommy le with our moon goddess we will meet her soon bebe, now hurry we don't have time"

He jumped out of the balcony of my room and as soon as we were on the ground he shied and bent down for me to climb on the back of Maxwell, his huge black wolf.

He ran for hours until his legs gave up on him and he fell to his side and shied back to his human form. I knew my daddy was dying, I could feel our bond slowly slipping away.

"Bebe run. Run as fast as you can. You are a minor any pack you come across will take you. But whatever you do, do not reveal your name to anyone. You are special mi amor. I will always watch over you. I will always be right here"-He said pointing at my heart with his shaking finger."I love you Alex" That's the last thing he said before his arms went limp and his eyes became lifeless.

I don't know how much time I held his dead body until I felt strong enough to leave him. I ran, I ran as fast as I could until I crossed a border to a pack and soon a grey wolf jumped in front of me growling, I looked at him straight into his brown eyes and he stopped growling. He ran behind a tree and when he came back he had already shied.

"Hey little one, what's your name?"

"Umm my name is Alex, Alex Wright."- I lied. I used my dead bestfriend's last name. I didn't know any last names beside hers and mines.

"What are you doing here? Where are your parents?"- The man asked.

"I don't know"- I said.

"Come with me, little one"-He said and took me to his Alpha.

At the Alphas office

"Carl we can't keep her we don't know anything about her"-The mean Alpha said.

"Alpha we can't leave her out there. She is just a kid. She won't last a day by herself. Let me keep her, let me raise her. She won't harm anyone. You know my mate died 2 years ago with my unborn child. Maybe this is a sign for me from our moon goddess, I see her and I imagine my pup in her place, she is too young for this cruel world. I'm begging you Alpha"- Carl said.

"Fine... but keep an eye on her we don't know what kind of twisted ways she has"- The mean man said glaring at me

End of flashback*

My father Carl. He was a warrior, the strongest of the pack. He raised me and loved me as his own child, he trained me harder than any other wolf in the pack but no one could know he was training me so every night when everyone was sleeping we would go to the wood and train, he was harsh on me but he just wanted to make me strong and he did, I was the strongest I once won against the Betas son when I was 12 and he kept bullying me, I got tired of his pranks and beat him up and broke his nose. The Alpha was pissed and my father disappointed but either way I was the light of his eyes until the light le and he died protecting the borders from rouges. Filthy fucking mutts, they have taken everything from me.

When he died 3 years ago the Alpha ranked me as an Omega instead of a warrior. I knew he never liked me and I never liked him.

Being ranked an Omega just gave everyone in school one reason to bully me. They already called me names because of my white hair and grey eyes, they would beat me up just for the fun of it, and now with this. They believed I was even weaker. Carly, Archer's girlfriend was the worst she once cut a chunk of my hair cause she thought it was a wig. Archer is the next Alpha in line so I knew I couldn't do anything to her without getting in trouble even though she would sometimes beat me in front of them, he would just laugh but never stopped her and her friends. Next was Ben, the Beta's son he was the worst. He didn't beat me but he would humiliate me in front of everyone and pull horrible pranks on me.

But a er today everything is going to change.

Beep. Beep. Beep. Beep
12:00am

"Hello"-Someone said in my head.

"Who's that?"- I looked everywhere scared.

"Hello, my name is Ayla I'm your wolf, Alexandra."

"Oh, goddess. Hello!"- I said excitedly.

"Let's go to the woods and shi please"- Ayla said with excitement.

I went to turn o the lights from the Laundry Room and made my way towards the door but suddenly someone abruptly opened it and I gave 2 steps back. I was scared shitless! I couldn't see his face.

A mouth-watering scent invaded my senses, caramel and chocolate.

"Mate"We both said at the same time. The word just rolled out of my mouth without even knowing.

He grabbed me by my shirt and pulled me to his hard chest and wrapped his arms around my waist. In a blink, he smashed his lips against mine roughly. I just stood there frozen, I've never had kissed anyone before. But my lips started to move in sync with his and I melted in his arms. Out of nowhere, he pushed me.

"No, no, no! This can't be happening. I already have a chosen mate"- The stranger said.

I turned the light on and my eyes went wide when I saw who my mate was.

"No this can't be happening"- I said shocked. He turned to look at me and was even more shocked than I was, his fingers gripping his curly black hair.

"What the fuck"- Archer said in shock."We can't be mates. I don't want you, you are an Omega and I have already chosen Carly"

I stood there, not moving. What kind of joke is the moon goddess playing on me?

"Reject me"- I said. If he doesn't want this then I don't either. He can rot in hell with Carly the whore for all I care.

"What?"- Archer asked.

"I said reject me. Or I will do it myself, and you don't want your pride hurt because an Omega rejected you Alpha"I said with no emotion and a cold tone. He looked at me with a blank expression but I could see the pain in his eyes.

"I'm sorry... I, Alpha Archer Williams, future Alpha of Golden Moon Pack reject you Alex Wright Omega. What kind of sick joke is the moon goddess playing on me?"

I fell to my knees clutching my shirt over my breaking heart. My wolf whispering in pain. He ran out of the laundry room. I gathered all the strength I had le and run to my small room. I grabbed my backpack and packed a few things and jumped out my window to avoid anyone in this hell hole. I ran, I ran as fast as I could to the woods.

"Let me take over Alex it will be faster. It will only hurt for 10 seconds because it will be our first time shi ing but we are special and stronger"- Ayla said.

I stopped at the edge of the woods.

"Do it"-I told her and retrieved to the back of my mind and gave her control to shi .

I could feel my bones breaking and readjusting. My skin was burning and my head felt heavy. I wanted to scream, to cry out loud, the pain was overwhelming me but Ayla didn't let me. She forced us to take the pain in silence so no one could hear us and stop us.

I landed in 4 strong paws.

"Open your eyes Alex"

I did. My paws were almost white but the light of the moon made my fur look silver. Wait!

"You are a silver wolf Alex, the last descendant of the moon goddess and the Silver Blood Pack. The pack of Selene."-Ayla said

"Selene as in the Moon Goddess?"-I asked confused at all this information.

"Yes, that Selene. Now run Alex before they find us!"

"Run Alex, run faster we are almost thereMy wolf Ayla kept yelling while I ran with all I had.

"I, Alexandra Silver Daughter of the late Alpha Blake Silver of Silver Blood Pack accept your rejection"- I said through our mind link before crossing the border and cutting all ties to the pack I grew up in, my personal hell hole. No one knew about my past. About me being an Alpha but to accept his rejection I had to use my title.

"Wait..."

It was the last thing I heard him say.

Today is the start of a new chapter in my life.

They will regret everything they did to me, that's a promise.

I hope you guys liked it! <3
