### Archer's POV

"I, Alexandra Silver Daughter of the late Alpha Blake Silver of Silver Blood Pack accept your rejection"

"Wait!" - I said holding my chest, I felt like my heart had been ripped out of my body.

"How could you! How could you take away my mate from me! I fucking hate you I told you she was special but you never fucking listen"- My wolf Axel said and then he went numb. I could vaguely feel him.

I stood there. Like the stupid bastard I am, not knowing what to do. I rejected my mate, my only true love. I felt like my world was crumbling to my feet. I destroyed my life and hers.

"Ben get to the border NOW! Take 20 trackers! Alex le the pack find her and bring her back"- I yelled through our mind link.

"Okay? But why do you care? She's just a useless Omega"-Ben replied.

"Shut the fuck up! It's an order do what I said!"-I yelled in my Alpha tone.

I heard the door of my office opening.

"Babe, what's wrong?"-Carly asked confused

"Get out."-I said.

"What is wrong with you? What did I do?"- Carly asked

"I. Said. Get. Out."- I said growling.

She ran out with tears rolling down her cheeks.

I was pacing back and forth. How could I be so stupid? How could I reject our bond? I even told her it was because she was an omega when I have never given a fuck about ranks. But I let my father's ideas fill my head. I deserve this. I deserve all the pain that I have caused.

"We lost her track a few miles a er the border she went south, close to Blue Moon territory"-Ben said through mind link.

"FUCK"

"Get back! I need you to call the Alpha of Blue Moon and if she's there we are going to get her"

"Dude for real why do you even care?"-Ben asked confused.

"She's my mate you idiot! She isn't an Omega! She is the daughter of Alpha Blake Silver from Silver Blood pack, she is the last silver wolf, the last descendant of Selene our Moon Goddess"

"What the fuck!"-Ben said shocked.

I couldn't take it anymore, I ran out of my office and into the woods. I shifted into my black wolf and followed her faint scent but they were right her scent stopped a few miles a er my pack borders. It's like she disappeared in thin air.

I shifted back and dropped to my knees, I could feel Axel whimpering.

"I'm sorry, I'm so sorry"- I said with tears rolling down my face.

### Alex's POV

I was finally far enough of Golden Moon I had to reach the city, I couldn't stay in the woods especially not in my wolf form. Nobody could know I am the last heir of Silver Blood, the last silver wolf.

Suddenly I was thrown into a tree with so much force. I stood up whimpering in pain and saw 6 rouges snarling towards me. They smelled like rotten eggs. The biggest one shifted to his human form.

"Look what we have here, a Silver wolf. Weren't they extinct?"-The man asked.

A wolf shifted behind a tree and a er a girl came out.

"Mark leave her. She is a rouge like us"-The girl said.

"Do you know how much the hunters would pay for her Steph? Come on we can use the money"-He said.

Another wolf shifted and boy was he gorgeous... I know I'm about to die but hey, I can at least have a last look before that. Wait no, I didn't spend years busting my ass training so I could die like a weak pathetic she-wolf.

"Mark seriously let her go."-The gorgeous man said.

"Don't forget who's your leader Luke."-Marks growled.

Oh fuck out of here. I shifted back and pulled a shirt and shorts out of my backpack.

"Let. Me. Go. Before I snap your neck you worthless fucking rouge!"-I snarled.

"Feisty are we... Either you go with us and we sell you to the hunters or you die"

"Any last wish rouge"-I said with a smirk. Ayla was begging to be the one ripping o his throat.

He lunged at me and I instantly dodged his attack. He kept coming at me punch a er punch and I dodged all of them.

"Attack you fucking bitch"-He yelled while lunging at me once more. His attacks were now sloppy and finally he was tired. He threw one punch and it was time for me to finish this. I twisted my body and swung my arm twisting my fist and it collided with his jaw. I felt how it cracked and he fell to the ground. I stood in front of him, my foot pressed on his throat.

"SUBMIT"- Ayla and I yelled. But it was powerful it confused me.

"That's our Alpha tone"- Ayla said proudly." Look around"

What the fuck! Every single rouge was vowing they we're submitting. I turned to see the rouge.

"SUBMIT TO ME! Say it!"- I commanded. A er a few seconds of struggling for air, he finally said it.

"I submit"-Mark said.

"Looks like we have a pack now, my name is Stephanie but you can call me Steph, Alpha."-Steph said giggling

"I'm Luke."-The gorgeous and said with a charming smile.

"I'm James, Stephanie's mate"

"I'm Leslie that idiot's mate"-She said pointing at Mark rolling her eyes.

"I'm Carlos"

"And I'm Mark the one who you almost beat to death"- He said holding his jaw.

"My name is Alexandra Silver, but um you all can call me Alex"-I said nervously.

"Where are you going? You are a silver wolf, you aren't safe!"-Luke said.

"Umm do any of you know where Silver Blood pack is?"-I asked nervously.

"That's like 2 hrs in wolf form why are you heading there? Is it where we are going to build our pack?"-Steph said.

"Umm I need to get something from there"- I said remembering what my father once told me

flashback\*

"Bebe you know there is a hidden treasure in this pack"- My daddy said whispering.

"Is it a pirate treasure daddy?"-I asked curiously.

"So much better bebe, once you're old enough you can look for it. Remember the chapel where we go visit grandma Lili is?"-He asked.

"Dadd-dy you mean where the dead bodies are?"-I said stuttering

"Yes mi amor the cemetery."-He said and I gulped. That place scares me.

End of flashback\*

"Well let's get going"-Luke said.

"No, no, no you can't g"- I was saying before Luke cut me o .

"You are our Alpha, we submitted to your command. Where ever you go we go. We are a pack, maybe the smallest pack in the whole world but still a pack"-He said and winked at me. I turned to look at everyone and they all nodded.

"Jesus hot"-Ayla said drooling.

"Horny wolf"- I said.

"Fine umm lead the way. I won't shift so I'll just run there or whatever"- I said.

"You can ride me"-Luke said mischievously and I felt my face heat red like a tomato.

"Ummm tempting but no thanks"

Wait what?! Did I just say tempting! Oh earth please swallow me!

"Come on it will be faster"-Luke said before shifting into his dark brown wolf and giving me a huge wolfie grin.

"Let me out! I wanna play with this wolf"-Ayla said sarcastically.

"Ayla stoppp!"- I said shocked at my horny wolf and she rolled her eyes at me.

I got on Luke and he literally moaned when I accidentally pulled his fur! What the hell.

"Hold on tight, Alpha"-Luke said in our mind link and I flinched.

Please Moon Goddess protect us.
