

People say you don't know what you've got till it's gone. Truth is, you knew what you had, you just never thought you'd lose it.

Alex's POV

I finally found you.

K.

Whoever did this will fucking pay.

I could hear everyone screaming, I could hear Stephanie's and Leslie's screams and sobs. I couldn't let go of Luke, my best friend was now dead between my arms.

"Alex"-I heard a so voice, I think it was Amie.

"Alex you can bring him back"- She whispered.

"What are you talking about?!" I snapped at her.

"If I'm not wrong the book says you are a Goddess on earth. You have all of Selene's powers one of them was bringing dead souls back. I have read about this. Put your hands over his heart and concentrate on the good memories you both have, imagine him alive."-She said.

I did what she said. I placed my hands over his cold chest. I let my memories flow, I remembered the first time we met, how he tried to protect me from Marks. I remember his smiles, his laughs, and giggles. I remember his green eyes staring at me proudly when we officially became a pack. How he protected me, how he cherished me, how he loved me...

"Alex..."-I heard Mark say. I heard everyone gasp.

I felt my chest getting warm, my hands started burning.

"What's happening?"-Gabriel asked in shock.

"She's bringing him back"-Amie said proudly.

I opened my eyes and saw my chest and hands glowing and it freaked me out but I knew I couldn't stop so I kept replaying all the memories I had with him from over the past 2 years.

"Alex you need to stop your bleeding"-Gabriel said kneeling in front of me. I felt my nose starting to drip over my mouth, but I couldn't stop yet. I just stared at his worried eyes.

I saw Luke's wounds starting to heal, he wasn't pale anymore. I was getting tired, I felt my body getting weaker and my sight turned blurry. I could have sworn I saw his beautiful green eyes open but I was no longer fully conscious.

"Please come back"-I whispered and felt my body hit the ground.

"Alex"-I heard Luke's voice like a whisper, maybe I was dreaming, maybe it was Gabriel.

Darkness consumed me.

Gabriel POV

I saw with my own eyes how she was bringing Luke back to life and it was working his heart slowly started beating. I couldn't believe what I was seeing everyone was as shocked as I was. She was glowing like a Goddess, but I freaked out when saw her blood and I tried to stop her but she only looked at me with her beautiful glowing silver eyes. She didn't stop, I knew she wouldn't.

His eyes opened and a second later she collapsed to the floor I quickly went to her side and picked her up.

"Alex"-Like whispered.

"Hurry we need to get them to the pack hospital"-I yelled.

I ran to the jeep with my mate in my arms while Mark and James helped Luke to get in.

I had a lot of questions but it wasn't the time to ask. I could feel Alex's heart slowly starting to stop.

"No no Alex please stay with me"-I begged.

We soon arrived at the hospital and they instantly took her inside the emergency room and a doctor took Luke to a room.

"We are losing her"-I heard the doctors say.

"No no no she can't die!"- I yelled trying to run inside the room but Mark and James were holding me down.

Beeeeeeeeeeeeeeep.

I heard the heart monitor and I felt how our bond started to vanish.

"NO!"-I yelled and pushed Mark and James off of me.

"No no no she can't die"-Alexander whimpered.

I kicked the emergency room door open and I saw the doctor using a defibrillator on Alex.

"Clear!"

Thump

"It's not working let's do it again!"

Please Moon Goddess don't take her away from me.

"Clear"

Thump

"One more time, CLEAR!"

Thump.

The monitor started beeping again and I felt our bond as strong as ever.

"Thank you Moon Goddess"-I whispered.

"Please your highness you need to step out. We need to stabilize her and move her to the Alpha Room. We will let you know when she's ready."-The doctor said and I stepped back not before looking at my unconscious mate one last time.

"Come one Gabriel you need to go change. You're soaking wet, we have the best doctors she will be fine. She's the strongest wolf."-Mark said.

"I know. How's Luke?"

"He's unconscious but they stabilized him"-Mark said.

"I'm going to shower and change please inform me when she is already in a room"

"Of course"

I drove Alex's jeep to the packhouse and took a quick shower. Slipped a pair of grey sweats and a black v neck shirt and went back to her. I needed to see my mate.

"Is Alpha Silver in a room already?"-I asked the nurse.

"Excuse me, who?"-She said giving me a seductive smile.

"My Mate your Alpha!"-I growled and she paled. I don't know if she was scared of me or scared of Alex.

"Of course follow me"-She said walking rapidly and I followed.

She opened the door to a large room and as soon as I entered I saw my beautiful girl still unconscious.

I walked over to the side of her bed not taking my eyes off her. She looked peaceful and angelic.

Knock. Knock.

"Come in"-I said. The door slowly opened and the doctor stepped in.

"Hello your highness. I just came to check Alpha Moon"-He said.

"Go ahead"

The doctor started checking her and writing on his board.

"It looks like she is recovering fast"-He said.

"Then why isn't she waking up?"

"She was very weak when she arrived, barely had a pulse. I'm surprised she made it, we honestly thought she wasn't. But she has a strong soul. It all depends on her now, have faith."-He said and left the room as Mark stepped in.

"I wanted to show you this"-He said giving me a note. As soon as I read what it said I ripped it apart.

"I will fucking kill you Kade"-I growled.

"Who the fuck is Kade?"-Mark growled.

"The Vampire Kings son"
