

## Chapter: 1241

Lin Ziming didn't fight with them either. Knowing that even if he bought the house, it would not be so easy. He directly called Jiang Liqun and asked Jiang Liqun to send someone to deal with it.

What he has to do now is to get Chu Fei back! He absolutely cannot accept the fact of losing Chu Fei.

When he arrived at the property, Lin Ziming went straight to the point and asked Chu Fei how he sold the house. However, he received a message from the property that shocked him.

"What, you mean, that villa was sold by my wife herself?"

"Yes, Mr. Lin, because the owner is Miss Chu, she sold the house ten days ago."

"Then do you know why my wife sold the house?"

After Lin Ziming's question came out, they all looked at Lin Ziming with strange expressions, "Mr. Lin, are you kidding me? As Ms. Chu's husband, don't you know what happened to Ms. Chu during this time?"

As they said this, there was more or less schadenfreude on their faces.

Lin Ziming is not stupid, he immediately guessed a general idea. During the time he disappeared, there must be something wrong on Chu Fei's side!

"Tell me what happened." Lin Ziming said in a deep voice.

Now Lin Ziming's appearance is very serious and full of majesty, making them awe at once, and they don't dare to interrogate anymore.

"In fact, we also heard the message. It seems that Ms. Chu's company has a problem and lost a lot of money. In the end, she had to sell the villa in Yulong Bay..."

it is as expected!

Lin Ziming's heart is very heavy, and the thing that worries him the most has happened. During the period of his 'falling down', someone really troubled Chu Fei!

He no longer hesitated, immediately took out his cell phone and dialed Chu Fei's number.

However, it was prompted that the number you dialed could not be connected. After more than a dozen calls, it still couldn't be connected, indicating that this number Chu Fei is already useless.

Lin Ziming immediately called his father-in-law and mother-in-law again, but they couldn't get through.

This caused Lin Ziming's heart to sink infinitely, and he didn't even dare to think about it.

"It shouldn't be possible. Now Chu Fei is already a master of the innate realm. In ordinary society, she has the ability to protect herself, and there is no possibility of accidents!" Lin Ziming comforted himself, and then he ran

towards the Chu family non-stop!

.....

At the same time, the Chu family.

The Chu family, which was already very prosperous, has now become a lot more desolate. Large villas worth tens of millions have become empty, and many furniture have been moved away, making it seem like a family.

Now, in the villa, there are a group of people, among them seven men in black with strong aura, standing behind a young man, who is sitting on the sofa with a golden sword, with a very lazy posture. , There is a Ruoyoruowu smile on the corner of his mouth, and he is making tea.

“Chu Family Master, you don’t have to be restrained, just sit down, don’t be nervous, I came to you today with kindness.” The young man said with a smile, obviously this is the Chu family’s home, but now he has become the owner. , Overwhelmingly dominant.

But the Chu family didn’t dare to sit down, they looked particularly nervous and restrained, especially the eyes that looked at the young man were full of awe and fear.

Chu Guodong said quickly: “Meng is very polite, we can just stand, and we can just stand.”

Mr. Meng smiled, made tea slowly, and then said with a faint smile: “It seems that Patriarch Chu doesn’t put Meng in his eyes, he just put Meng’s words in his ears.”

Chu Guodong couldn’t help but shudder when he heard it, his old face trembled, and some sorrow flashed through him, so he had to sit down too.

But he didn’t dare to sit really hard, so he got a little bit of his butt, obviously because he was terrified of President Meng, for fear that he might get angry.
