

Chapter: 1310

It can be said that Han Ruxin is the focus of the audience, and her every move affects the eyes of everyone present.

Deng Kai worked for Han Ruxin for many years, and he had a deep awe of Han Ruxin. Now that Han Ruxin came, he immediately did not dare to lie down anymore. He quickly stood up and called President Han respectfully to Han Ruxin.

Han Ruxin looked at Lin Ziming faintly, then smiled and said, "Lin Ziming, long time no see."

Everyone was surprised when they saw that Han Ruxin took the initiative to greet Lin Ziming. According to their understanding, Han Ruxin is a very proud person, especially after her success in her career. And now Han Ruxin actually took the initiative to greet Lin Ziming. This is too abnormal. Could it be that after so many years, Han Ruxin is still unhappy with Lin Ziming? Thinking of this, many people think that Lin Ziming is out of shit luck, and he can actually get Han Ruxin's favor. This is a blessing from cultivation in the last life!

Who doesn't know that Han Ruxin is now the big boss, and she is beautiful and beautiful, and if you marry Han Ruxin, you don't have to worry in this life.

The male classmates on the spot were all ugly and full of jealousy. They were more or less interesting to Han Ruxin. Seeing Han Ruxin and Lin Ziming intimately, they would naturally be jealous. If Lin Ziming is still the second generation of super rich, the key is now that Lin Ziming is down, just a dog in the water, so why won Han Ruxin's favor!

Especially Dai Xinghuai, his face was even more ugly, and he clenched his fists, particularly unhappy.

He has been secretly in love with Han Ruxin for many years, and he has been pursuing Han Ruxin, but Han Ruxin has always looked down on him, making him very hurt and disappointed.

Lin Ziming stood up and said, "Yes, it's been a long time."

When other male students face Han Ruxin, they will inevitably be nervous, excited, and eager to express themselves, but Lin Ziming's reaction is extremely flat, without the slightest restraint or excitement.

His reaction made Han Ruxin frown slightly and was uncomfortable. In her opinion, it was Lin Ziming's honor to greet Lin Ziming as her own initiative. Lin Ziming should be flattered and be at a loss, instead of the current breeze. Yun Dan!

However, Han Ruxin believes that Lin Ziming is just pretending to be calm and wanting to get caught. She can see more of this kind of tricks.

So she continued: "Listening to you just now, you have opened a few companies, I don't know what field it is, we might be able to cooperate with

you.”

With a smile on her face, but with obvious arrogance and ridicule on her expression, she clearly did not believe that Lin Ziming had the ability to start several companies.

What kind of look did Lin Ziming look, and how could he fail to see what she meant, smiled faintly, and said, “The gap between us is huge, I believe there will be no chance of cooperation.”

What Lin Ziming said is the truth. With his current business empire, the cooperation talks are all over tens of billions. Where can a small boss of Han Ruxin’s level reach it?

However, Lin Ziming’s words fell in Han Ruxin’s ears, but it became a manifestation of guilty conscience, making the smile on her face even more intense, “It’s okay, I just plan to return to Huacheng to expand, although we are of the same size. It’s a lot worse, but as an old classmate, I’m still willing to help you.”
