

Chapter: 1473

The Global Competitive Competition, also known as the Kung Fu Cup, is a competition that Lin Ziming has only recently learned about. It is a competition co-founded by many powerful countries in the world. Its nature is similar to the World Cup.

Both are particularly important, regarding the face between nations.

The only difference is that the World Cup is global and is announced to all people, while the global competition is for warriors and is not open to ordinary people.

But its importance even exceeds that of the World Cup!

And it is held once every five years. At that time, all countries in the world will send the top players in their own countries to participate in the competition. The duration of the competition is 40 days. Through continuous competition, the absolute final champion will be achieved.

In many previous Kung Fu Cups, China has not won the championship, and the ranking is not very good, so that China has lost a lot of face internationally.

You know, China is known as a Kung Fu country in the world. As a result of such an important Kung Fu Cup, China has not won the championship. It really has no face!

Regarding the top players, there are not many countries in China. Just a military god, Whampoa Road, is enough to be proud of the world, but the problem is that in this Kung Fu Cup, the first requirement is that all contestants must be no more than 40 years old, otherwise it is a violation of the rules.

In this way, China does not have any masters who are too good at it, because many of the great masters in China are in their forties, even if it is Zhao Xia, they are in their early forties this year and lose. Qualified for the competition. And most importantly, even if Zhao Xia is of this strength, there is actually no chance of winning if he goes to participate in the Kung Fu Cup.

Suddenly, everyone in the conference room looked at Lin Ziming.

Lin Ziming thought for a while and said, "Since the above said so, then we will make every effort to win this championship."

"That said, it's a pity that the Kung Fu Cup has a hard condition. All contestants must be no more than 40 years old. In this way, there are very few top players we can send." Peng Zhuo sighed. He said in a tone that he also wants to participate, but he is 44 years old this year.

He had participated in the last Kung Fu Cup, but at that time, he was only in the third stage of the Innate Realm, and he lost to a foreign master, and he was still a very complete defeat.

Although China is a big country with a magnificent national fortune, there are really very few top players under the age of 40.

Occasionally, that is not an official person in China, just like Lei Zhen, he is a super master, but he is not an official person, and he will not participate in the Kung Fu Cup at all.

Lin Ziming thought for a while, and said with some confusion: “There are so many masters abroad?”

Peng Zhuo nodded and said solemnly: “Many, especially the beautiful country, they have the most advanced biotechnology and artificial intelligence technology in the world, which can greatly stimulate the potential of martial artists, and the training method is also the world’s leading. According to our simple Statistics show that there are more than two hundred masters of the Innate Realm under the age of 40, of which there are more than ten in the fourth stage of the Innate Realm! As for the Dzogchen in the Innate Realm, it is said that there are four people, which is very terrifying.”

Lin Ziming couldn’t help being surprised when he heard this data. There were more than two hundred masters of the innate realm under the age of 40. What kind of concept is this!

You know, the entire China, all innate realm masters, can’t add up to a hundred!

As a master of Innate Realm Dzogchen, he walked all the way from ordinary martial artist, master realm, and acquired pinnacle, very clear how difficult the Innate Realm is.
