

## Chapter: 1474

At the beginning, he also managed to break through to the innate realm by swallowing the Xisui Pill and experienced endless pain, and the beautiful country has only one-fifth of the population of China, so there are so many innate realm masters?

This is really shocking!

Sun Liang on the side also said: "In addition to the beautiful country, there are also many innate masters in several other developed Western countries. Even the Sun Nation next door, I heard that this year, there have also been two innate masters. A master of Zhijing Dzogchen, for this Kung Fu Cup championship, it is bound to win...It can be said that the difficulties we face in this Kung Fu Cup are greater than in the past few times!"

The other high-level people in the conference room were also frowning, sighing again and again.

Lin Ziming also frowned. Through his understanding, he knew the importance of this Kung Fu Cup, especially this one, which was held in China. If you still can't win the championship, or even the silver medal, That's really a shame!

In recent years, the rapid development of China has caused hostility from many developed countries. During this period of time, many foreign forces have come to China to cause sabotage.

Lin Ziming entered the three places in Xuanyuan for a year, and he has performed several missions.

It's no wonder that the order was given to death, and we must win the championship.

Lin Ziming is not stupid. From what Peng Zhuo and Sun Liang said just now, he reacted. This time the Kung Fu Cup, the two leaders meant that he should also participate.

He thought for a while and asked: "Apart from me, does our country still compete in the Dzogchen Congenital Realm?"

Peng Zhuo said gravely: "At present, it is only you."

When Lin Ziming heard this, he also felt the pressure on his shoulders, which made him feel heavier.

In this way, he fought alone.

However, he also has the confidence that with his current strength, even Jian Rushuang is not his opponent, and the innate realm of other countries is Great Perfection. To be honest, he doesn't care too much.

"Then I will go all out." Lin Ziming is not a person who likes to shirk responsibility. As the saying goes, the greater the ability, the greater the responsibility. Since he is the only one, he can't hold back.

However, Peng Zhuo shook his head and said, "No, instructor Lin, you understand it wrong. We don't want you to participate in this Kung Fu Cup,

but we want you to be the organizer of this Kung Fu Cup and maintain order.”

“Huh?” Lin Ziming was really surprised when he heard this. Since he is the only Innate Realm Dzogchen who meets the conditions, why not let him participate? Is this logic wrong?

As if he understood his doubts, Peng Zhuo began to say: “The rules of the Kung Fu Cup competition are different from ordinary competitive competitions. The final eight is a group battle, not a one-on-one match. At that time, instructor Lin you alone, then you will be besieged by seven other people...”

Hearing this, Lin Ziming indeed frowned.

He didn't even think of the rules of the game. If this is the case, it is indeed tricky. Although he is invincible at the same level, it is still very dangerous to have him play seven of them one by one.
