

Chapter: 1515

When Lin Ziming faced this punch, there was no resistance at all, but he let the opponent hit him with a bang.

Everyone in the Lin family thought that Lin Ziming was frightened and stupid, so they didn't know that he had dodged and received this punch, but he was about to be beaten into the air.

This foreigner is tall and magnificent, how could Lin Ziming bear it?

When the foreigner saw Lin Ziming motionless, the corners of his mouth raised, showing a sneer. He was sure enough that he could beat Lin Ziming half to death with this punch!

But in fact, what they saw was that Lin Ziming didn't move at all, and he didn't even move his steps. It was just that the floor tiles under his feet had cracked, as if he had transferred the strength of this punch to his feet.

Then Lin Ziming spoke, "This is your strength? Too weak."

"You..." The foreigner's eyes widened in an instant, unbelievable. He couldn't recover at all. You must know that this punch has condensed 90% of the power, let alone a person, even if it is a single person. He also has to open up a thick wall!

And he only felt that he had hit the iron plate, and even felt pain in his fist, and couldn't help but twitch at the corner of his mouth.

Another foreigner with blond hair was also very surprised, yelling three words impossible.

As for the dozens of Lin family members behind him, they were even more dumbfounded.

You know, Lin Ziming and Lin Yuanyang joined forces just now, and they were also in the hands of this foreigner. They couldn't make three moves. They were defeated cleanly, and they weren't of the same level at all.

But now, such a master is helpless with Lin Ziming, the gap is too big, and the picture is too subverted.

They all doubted seriously, is this really the Lin Ziming they knew?

What happened to Lin Ziming in the past two years?

The foreigner reacted quickly. He gritted his teeth and immediately launched a second attack on Lin Ziming.

His speed is not unpleasant. As a master of the second stage of the Innate Realm, his boxing technique is very clean and neat, and he pays attention to the most direct strike method. By using the most powerful force of the body, he can often achieve great results.

Moreover, he is considered a half-doctor, and he especially understands the weaknesses of human beings, and he is particular about one move to control the enemy.

Now he calmed himself down immediately, and immediately straightened his fingers, thrusting heavily into Lin Ziming's neck, intending to directly

hit Lin Ziming's throat.

This is one of the weaknesses of human beings, even if you are a master of the innate realm, if you suffer this way, it will definitely be extremely difficult.
