

Chapter: 1530

Murong Xue smiled and said, "This is fate."

The woman in the back seat rolled her eyes and said, "Murong, since you have promised to have dinner with this surnamed Lin, I suggest you don't hide from Shao Lei. It's better to tell Shao Lei. Let Shao Lei accompany you, so that Shao Lei knows that you are loyal to him, and that fellow Lin Ziming will retreat from difficulties and dare not pester you again in the future."

When Murong heard this, she frowned slightly and said, "This, isn't it necessary?"

She had no idea about Lin Ziming anyway, and now she was only loyal to the Lei family, as if she was eating with a friend, if all this had to be told to the Lei family, then she would be too free.

However, the woman in the back seat said solemnly, "Huh, why is it necessary? It is necessary! You know, the Lei family is a very masculine person. If one day gets caught He knows, you told him to eat with the previous childhood sweetheart, and this childhood sweetheart still has a heartfelt heart for you, what would he think? Murong, let me tell you that men are particularly sensitive in this regard, so don't underestimate it. !"

Murongxue was shocked when she saw how serious her best friend was. If she really said it according to her best friend, then it would be wrong not to tell the Lei family. Moreover, with the energy of the Lei Family, his hands and eyes are open to the sky, it is sure that the Lei Family will know it.

After thinking about it carefully, Murongxue decided to do what her best friend said, telling the Lei family about this matter, and then going to dinner with Lei family, so as not to have a misunderstanding.

"In other words, after so many years, Lin Ziming shouldn't be interesting to me, right?"

After the car started again, Murongxue frowned and said in disbelief.

I was immediately rebutted by my best friend, "How to call it will not be interesting to you, is it definitely interesting to you! You don't even see the look in the eyes of the guy just now, and your eyes won't move anymore! As someone who came by, I'm absolutely sure, this guy is making your idea, you know, you are the daughter of the Murong family, and you grew up with him, and now he is down, saying that he doesn't have an idea for you, do you think it is possible?"

"Think about it, it is really necessary to tell the Lei family, otherwise, if you have this meal with him tonight, this guy will definitely find a way to stick you!" My girlfriend analyzed with confidence, she said. With a certain look, Murong Xue began to believe it.

Indeed, Lin Ziming is already an ordinary person now, and he may earn only a few thousand yuan a month, which is not of the same class as her at all. Now that we encounter such a coincidence, normal people's thinking will

want to retell the old feelings.

The more you think about Murongxue, the more regretful she will be. If she knew this earlier, she shouldn't talk so much just now. If the Lei family knew about it, she might be really unhappy.

“Or? I just broke the appointment and I won't go to the appointment tonight.” Murongxue thought for a while and said.

What she said was immediately denied by her girlfriend, “This is not okay. I have already said what I have said. I still have to go. Otherwise, he is really shameless and goes to your house to find you? You know, he is yours. Childhood sweetheart, I know your details. So, the best way is to tell the Lei family and let the Lei family go on stage, humiliate him severely, and naturally let him retreat!!”
