

## Chapter: 1537

Lin Ziming's heart is like a mirror for Leyton's behavior, and he laughs in his heart. Such a naive approach naturally cannot affect his emotions. He has long felt the same affection for Murong Xue.

After a while, a man said to Lin Ziming, "Lin Ziming, I don't know what company you have now? What is your annual income?"

When he asked this, everyone else's faces were full of jokes, and it was clear that they were watching Lin Ziming's joke. They all knew from Murong Xue that Lin Ziming had been expelled from the Lin family five years ago, and now he has been in a particularly desperate way.

Naturally, they would not let go of this kind of beating a dog in the water.

Lin Ziming said: "I really don't know the annual income. Subordinates help me take care of it."

Lin Ziming's words are not lying. He has already handed over all the business matters. He really doesn't know how much he earns a year, because he doesn't care, but what he can be sure is that he is now The annual income is an astronomical figure. Even the dozens of rich second generations present will not earn him a year in total.

He didn't bother to say this kind of thing, not because he was embarrassed, but because it didn't make any sense.

But his reaction fell in the eyes of other people, and it turned into an expression of guilty conscience, and another person said in a weird manner: "Oh, listening to you, it seems that your company is doing a big job? I don't know you. What kind of company do you start? Let's just listen and see if there is any possibility of cooperation between us."

What he said was completely mocking Lin Ziming, sarcasm about Lin Ziming round and round.

Murongxue was also very curious. Will Lin Ziming actually start a company? Lin Ziming answered right away, but did not rush to drink and eat. His behavior was particularly uncomfortable in the eyes of others.

I think Lin Ziming is pretending to be coercion, and pretending to be coercive in front of them is too shameless!

After serving himself comfortably, Lin Ziming said, "The Lin Group, have you heard of it? I drove it."

"Which Lin group?" Leighton asked.

The Lin Group is no stranger to them, because it is the largest enterprise in Province G. Not only is it huge in scale, it involves many fields, but also has a very good development. It is conceivable that in a few years, it will be affirmative To become the business empire of China!

Lin Ziming gave the full name of the Lin Group.

The scene suddenly became quiet.

Then there was a burst of laughter.

“Puff! I heard it wrong, right? You started the Lin Group, which is currently in the limelight in the province of G.”

“Hahahaha! I really laughed at me. I see a lot of people who like to brag, but I’ll see you for the first time if you grow up like you! Why don’t you say that the entire country of China belongs to you?”

“Interestingly, do you think your surname is Lin, and the Lin Group belongs to you?”

Lin Ziming’s answer immediately made them laugh to death, and ridiculed them unabashedly again.

“Is it funny?” Lin Ziming said lightly.

A man laughed out of breath, and said, “It’s funny, this is the funniest joke I’ve heard this year! The Lin Group belongs to your Lin Ziming, haha. No way, I have to take this. If you post a joke to your circle of friends, there will surely be a lot of people like it.”
