

Chapter: 1538

Murongxue also shook her head, thinking that Lin Ziming was crazy and wanting face to suffer. She even dared to say this, and there was a problem in her mind.

Leiton was also laughing. Naturally, he would not think that Lin Ziming's words were true. The Lin Group, what kind of existence was that, even the Lei family would cling to them and be a behemoth.

Especially the chairman of the Lin Group, who is even more of a fairy-like character. I heard that he is still a great master, his realm is extremely high and his energy is huge, beyond the scope of ordinary people's comprehension!

And the Lin Ziming in front of him was just an abandoned son of the Lin family.

But anyway, to hear such a funny joke is still quite interesting for him, and it is a joy in life.

He waved his hand and motioned to everyone else to stop laughing, but said to Lin Ziming: "It's amazing. It seems we have missed it. You don't think you are the chairman of Lin's group, the super big man. what!"

Lin Ziming couldn't hear Layton's ridicule. He said, "It's much better than you little people."

The smile on Layton's face became a bit stiff at the moment. He was originally a yin and yang weird Lin Ziming. He wanted to see Lin Ziming's embarrassment. He didn't expect Lin Ziming's face to be so thick that he really put it on.

He applauded, and continued to ridicule, "Awesome! It seems that we are really the big people we met this time. I heard that the Lin Group's assets are close to 500 billion, an extremely large business empire. And you are the chairman of the Lin Group, you must be very rich, right? How about you settle the bill tonight?"

He looked at Lin Ziming completely mockingly to see how Lin Ziming picked it up.

Others also cried beautifully, this move directly general Lin Ziming.

If Lin Ziming refused, he would immediately slap his face and become a laughing stock, and if Lin Ziming dared to agree, it would be even worse, and he would directly bankrupt Lin Ziming!

After spending this night, it is impossible to have one million eight hundred thousand.

They just watched how Lin Ziming accepted the move.

How could Lin Ziming fail to understand? He sneered and said, "Didn't you just say a treat? Why, you forgot to bring money?"

To Lin Ziming's bill tonight, it's not even a dime, but it doesn't mean that he doesn't cherish money. If he asks these guys to eat, he would rather

throw the money into the sea.

Leiton suddenly laughed, “Hahaha, I’m not giving you a chance to perform, after all, you are Murong’s childhood sweetheart. By the way, I heard that you are still the second young master of the Lin family. You were expelled from the Lin family five years ago. I don’t know if this happened?”

Leyton said this, his face full of joking.

The others also looked at Lin Ziming mockingly.

As for Murongxue, her gaze towards Lin Ziming was also very cold, and she felt that Lin Ziming had failed too much, and she looked down on Lin Ziming from the bottom of her heart.

Lin Ziming looked directly at Murong Xue and said, “Murong, you called me over tonight, just to let these guys taunt me and taunt me?”

Murong Xue didn’t think that Lin Ziming would ask so directly. For a while, she was still a little flustered. After all, her image in front of Lin Ziming has always been very kind and elegant, mocking people for such mean things. , Does not match her personal setting.

Leyton immediately said, “Hmph, that’s what I meant! Lin Ziming, you trash, don’t take pictures of yourself by soaking urine, you have the face to ask Murong to eat, and want toads to eat swan meat? I warn you, Murongxue is my woman. I don’t care what your relationship with her was before. From now on, if you dare to pester her again, I can make you ask, believe it or not?!”

Leyton said this, incredibly arrogant and domineering, making Murongxue’s heart melted when he saw it, thinking that Leyton was the most domineering man in the world. In contrast, Lin Ziming was just a clown!
