

Chapter: 1543

Of course Lin Ziming would not take such an ant seriously. He saw Layton dare to be so arrogant, smiled, looked at him condescendingly, and said, "Is that right, I'm dead? I want to see. Look, what can you do with me."

Layton is now completely frustrated and mad. His eyes are spitting fire. He has grown so much and he has never been as humiliated as he is today. As a young Lei family, how honorable is his status. In the circle, it is the existence of being held by the stars.

If Lin Ziming is still the second young master of the Lin family, he still has the right to break his wrist, but Lin Ziming is just an abandoned son, a waste that even his own family doesn't want. What qualifications does he have to fight against him? Come and teach him! !

He swears in his heart that he must concoct Lin Ziming well, he wants Lin Ziming to die, and he still died tragically, in order to fill the anger in his heart.

"You are dead, surnamed Lin, I swear, you are absolutely dead! I not only want you to die, I also want your family to be buried with you!" Leyton breathed fire in his eyes, gritted his teeth, and said with great hatred. , It seems that there is surging river, endless.

But his words reached Lin Ziming's ears, but they touched Lin Ziming's reverse scales. Originally, Lin Ziming didn't care too much about him. For such ants, he just beat them up and gave them a lesson. Up. However, Layton actually dared to threaten him with his family, which is absolutely unforgivable.

He was so angry that he took a step forward. When Layton was about to stand up, he stepped directly on Layton's body and stomped him on the ground. He couldn't struggle at all, and he didn't even breathe. It was unblocked, and his face flushed.

"An ant-like thing, you dare to use my family to threaten me, I think you are tired of life." Lin Ziming's tone was extremely cold, like a voice from hell, and Leyton immediately made a hit. Ji Ling, the other people present were also frightened by him, and their faces paled a lot.

They had never seen this kind of Lin Ziming before, causing them to have a kind of extreme fear and regret in that instant. They had known that Lin Ziming was so terrifying, and they would not be against Lin Ziming.

So far, Lin Ziming is a lunatic with mental problems!

Leighton was a bit spine at this moment. Although he was very scared, he gritted his teeth and threatened Lin Ziming: "Lin Ziming, if you have the ability, you will kill me now! Otherwise, wait for me to go back. I will try my best to retaliate, you and your family, don't want to live! My Layton grows so big, no one has ever dared to humiliate me like this, you are the first and the last! I want you to die, you The whole family will be buried

with you!”

His icy tone made everyone present feel scared invisibly, thinking that Lin Ziming really caused a catastrophe this time, unless Lin Ziming was about to kneel and apologize to Layton, otherwise it would really be a burden. To the whole family.

Lin Ziming is happy, he has been for a long time, he has not been threatened by the ants in his eyes, and this person is still his childhood sweetheart fiancé, which is quite interesting.

Seeing that Lin Ziming could still laugh at this time, Leyton became even more annoyed. If his eyes could kill people, then Lin Ziming had already been killed at least a hundred times.

“In this way, you are very confident of yourself.” Lin Ziming said with a faint smile, and then let go of Leyton.

In Leyton’s view, this behavior was an act of confession. He was delighted a lot, but of course he would not let him go. He stood up and pointed at Lin Ziming, very proudly and proudly. Domineeringly said: “Lin Ziming, you are dead, I can wipe your whole family from this world with a single call!”

Lin Ziming said, “Really, then I am looking forward to it.”

“If you don’t see the coffin, you won’t cry!” Leyton snorted heavily, and then he took out the phone directly, and while dialing, he said to Lin Ziming: “I’m calling someone now, don’t leave if you have a seed!”

His behavior was actually warning Lin Ziming, but Fan Lin Ziming was a normal person. At this time, he would definitely run away in fright, unless he really dared to kill Layton. But obviously, the fate of killing Layton is much more serious!

Now Lin Ziming’s method is to stand there with his arms folded, looking at Leyton with interest, to see what big people Leyton can call.
