

Chapter: 1554

With this punch, he directly used 90% of his strength. Once he was hit, even if Lin Ziming was a top 5s-level superpower, he would have to drink hate!

If you don't make a move, it's a big deal.

For such a Chinese master with unlimited potential, he naturally wanted to kill with all his strength.

Lin Ziming indeed entered a state of enlightenment in that instant, and his mental power grew rapidly. It was a mysterious and mysterious realm that was incomparably wonderful.

This was his first epiphany after he stepped into the innate realm and Dzogchen. At that moment, he really felt that he had returned to more than a hundred years ago. At that time, he was exposed to the breath of that era and the nation. Struggle and struggle.

This is something he has never experienced before.

Even his nose is a little sour, sad and angry for the arrival of that era.

It's a pity that the foreign leader's reaction was extremely fast, and he was not given enough time to attack him immediately.

Generally speaking, people who enter the epiphany are indeed very engaged, and it is difficult to dodge in the face of a sneak attack by a master of the same level.

But for Lin Ziming, it was okay. He caught it mentally almost when the foreign leader started killing him. He immediately opened his eyes and awakened from a state of epiphany.

Looking at the foreigner leader.

And at this moment, the foreign leader's original smooth and fast movements stopped abruptly, and in an instant, he actually had a kind of indescribable heart palpitations.

For him, this is a very unbelievable thing. You must know that when he reaches his realm, his mentality is extremely tenacious. Unless it is the coercion of the legendary master of the gods, it will cause cracks in their minds.

But at that moment, a look in Lin Ziming's eyes actually caused him palpitations.

Fortunately, he is always a 5s-level decision-making ability, and he has grown up in battle all his life. In a very short period of time, there is no one-tenth of a second before he returns to normal, so he does not seem to have any lag.

However, only this one-tenth of a second was enough for Lin Ziming.

Lin Ziming made the most timely response to this punch from the foreign leader in an instant. He stepped back half a step, leaning back, and at a tricky angle, he just escaped the foreign leader's fist.

At the same time, he also fought back against foreign leaders.

The foreign leader was originally inevitable for this sneak attack, but he did not expect that Lin Ziming would hide him and fight him back. This fighting technique was too subtle, and he had to deal with it. .

With this response, his sneak attack has already failed.

Bang bang bang bang...

They had already fought ten punches in just one second, and the speed could be described as fast to the extreme, and from their center, a powerful wave of air exploded and swept all around.

“Foreigner, you have violated the rules. As the law enforcer of China, I am obligated to capture you.” Lin Ziming said lightly, and the movements on his hands became more swift and violent.
