

## Chapter: 1689

Counting it down, the Kung Fu Cup has been held for more than half, and more than two-thirds of the warriors have been eliminated. All the real powerhouses are left behind, and even the masters of the acquired peak are gone. They are all masters of the innate realm!

When Lin Ziming first stepped into the Innate Realm, he once thought that there were very few innate realm masters in the world, and he could be regarded as unique.

But as his economy deepened and his horizons became wider and wider, he realized that his previous thoughts were a bit of a sit-down view.

There are still a lot of talents in this world, coupled with the revival of aura on the earth, and the advancement of science and technology, there are more and more masters of the innate realm.

There may not be many masters of the Innate Realm in China, but if you look at the world, there will be more.

It is precisely because there are so many Innate Realm masters that it appears that this Kung Fu Cup is so important and attracts so much attention!

When Lin Ziming went to the Kung Fu Cup, it immediately attracted the attention of many people. Every Chinese martial artist who saw Lin Ziming saluted him seriously and injected Lin Ziming with reverent eyes.

I can feel that their respect for Lin Ziming comes from the heart.

And Lin Ziming responded with a smile.

Under such circumstances that attracted attention all the way, Lin Ziming went to the organizer and met with Peng Zhuo.

After greeted him, Peng Zhuo said, "Instructor Lin, you look good. You are on the court today. It is estimated that everyone is waiting for your opponent."

General Qin also said, "I don't know who is so unlucky and will be queued to Instructor Lin."

Zhao Xia smiled and said, "It depends on how fast that person can surrender before Instructor Lin takes a shot, haha."

Others laughed when they heard what Zhao Xia said. Indeed, Lin Ziming is the best on the field now. Before the quarterfinals, anyone who meets Lin Ziming is a dead word.

But for this point, I believe those foreign warriors also know it, and it depends on whether they can shout the word surrender so quickly when they are on the ring.

Because of the rules of this Kung Fu Cup, each contestant has three chances to surrender.

And even if there is a chance of surrender, you have to play and you can't retire actively, that is to say, you must be in the ring. If you don't say the word surrender and get killed by your opponent, then it deserves it.

This rule itself has never been noticed before, because those who can play are more or less powerful, and no matter how bad they are, they will not surrender and they will be killed if they can't say two words.

But now the situation is different. With Lin Ziming, the great demon king, as long as he is not an extremely strong person in the innate realm of Dzogchen, it is really hard to say.

Lin Ziming also just smiled faintly, and said, "Apart from me, who else will play on our side today?"

Xiao Cangmang stood up, smiled and said, "On the third place of Xuanyuan, besides instructor Lin you, there is me who can play."

Zhao Xia, Sun Liang and others sighed and said unwillingly: "Oh, it's a pity that I am already over forty years old, otherwise I really want to end and kill these grandchildren!"

Lin Ziming nodded, smiled at Xiao Cangmang, and said, "Instructor Xiao, encourage each other."

Xiao Cangmang also smiled and said, "Mutual encouragement."

Lin Ziming was not very worried about Xiao Cangmang. After all, Xiao Cangmang was also a master of the third stage of the Innate Realm, and he was approaching the fourth stage of the Innate Realm. Xiao Cangmang still had no problems in the next game.

In addition to Lin Ziming and Xiao Cangmang, there are five folk masters in the innate realm. Two are masters in the first stage of the innate realm, two are masters in the second stage of the innate realm, and the last one is He is the master of the third stage of Innate Realm.

If this is in society, it is actually a very good force. After all, they are all within forty years of age, and they are already considered talented people. But in the Kung Fu Cup, compared with other powerful martial artists, it is still a lot worse.
