

## Chapter: 1768

Their attacks were too fast. For most people, they couldn't see their specific moves, only the afterimages, and the constant eruption, like firecrackers.

"It's too fast, it's too fast, I can't see clearly at all, is this the confrontation of the Innate Realm Dzogchen, it's too terrifying!"

"And you have not discovered that the ring made of stainless steel is beginning to tremble... Is this really the energy that humans can generate?"

"It's too strong, when will I reach such a realm."

Although most of the people present could not see clearly the attack between them, they could also feel the intensity of it, as if Mars hit the earth. There were still many people who clenched their fists tightly, did not dare to breathe, did not dare to blink, looked at the ring motionlessly, cheering for Lin Ziming.

This battle is really too important. If Lin Ziming loses, then China will also be implicated. As Chinese people, naturally they can't stand alone.

But for the strong in the fourth stage of the Innate Realm, it is still possible to see the changes clearly.

Therefore, they can all see that Lin Ziming is already at a disadvantage!

It is said that double fists are difficult to defeat four hands. Lin Ziming now has two fists to defeat twelve hands. There are fists in all directions, making it even more difficult.

In this situation, even if Lin Ziming is much stronger than any of them, he is still only one person. If there are too many ants, he can kill an elephant. Therefore, Lin Ziming's current situation is not ideal.

Not to mention, there was a Romer standing beside him, always shooting Lin Ziming's cold arrows, that is to say, Lin Ziming's situation is dangerous now.

At this moment, Romer, who had never been able to make a move, suddenly made a move.

His speed reached the extreme, and at the same time he appeared behind Lin Ziming, and launched the most severe and deadly sneak attack on Lin Ziming!

This sneak attack appeared too quickly and too suddenly, and even Peng Zhuo and Li Dao, the fourth stage masters of the Innate Realm, were not aware of it. Only people at the level of the Little Valkyrie could discover it.

So the Little Valkyrie stood up directly with a panic and worry on his face, and said, "No, instructor Lin is going to suffer a lot!!"

His utterance was so sudden, it shocked Shangguan Buyi and the others. When they recovered, their expressions changed, "What?!"

As soon as the voice fell, only a loud bang was heard. Lin Ziming in the ring was successfully attacked by Romer. Even if he had made the fastest response, Romer had kicked him. On the body, the body fell heavily.

Seeing it is about to fall out of the ring...

If he gets out of the ring, then Lin Ziming will lose the right to compete for the championship.

This sudden scene surprised everyone, especially for the Chinese warriors, obviously they had no idea that Lin Ziming would lose!
