

## Chapter: 1992

Now Lin Ziming looked embarrassed on the surface, but his eyes became more energetic, and the aura of his whole person became even higher. On the contrary, it is Ashura. If his image looks better than Lin Ziming, his spirit is obviously not as high as Lin Ziming's, and his expression is full of gloom and depression.

But isn't it? He feels it now. This damn Lin Ziming is Xiaoqiang who can't be beaten to death. His physical strength is so frightening that he is the most troublesome. It is Lin Ziming's energy that is not afraid of death.

As time passed, he became more and more constrained, and he had already fought with Lin Ziming about five or five times. He was a master at the realm of God, if this spread out, where would he put his face!

At this moment, he had already begun to have the thought of retreating, and Lin Ziming was immediately aware of it, and sneered and said, "Asura, are you timid?"

"Fart!!" Ashura cursed immediately, and at the same time he was surprised. How could Lin Ziming detect his thoughts in his heart?

It's kind of evil.

"Can't help it, kill you!!!"

At this moment, Asura seemed to be really getting more and more annoyed. He took a deep breath, instantly gaining momentum, and then launched a stormy attack on Lin Ziming.

In an instant, Lin Ziming felt the tremendous pressure, but he was not afraid, on the contrary, he became more excited and laughed twice, "Good job!"

He also didn't retreat, just like Saburo desperately, fighting with Ashura.

Now he is going all out, his body is full of scars, even blood dripping, but he just doesn't retreat, his spirit is getting higher and higher, his mood is getting more and more excited, the whole person is a tireless machine, a Xiaoqiang who can't beat him.

In this state of him, even other people were shocked, and everyone was in awe and jealousy of him.

As the saying goes, the brave wins when they meet on a narrow road, and two people fight. In fact, courage and momentum also account for a very important reason.

For now, Lin Ziming clearly surpassed Ashura in this respect.

Originally, Asura was still close to Lin Ziming five or five, because of the crushing momentum of this moment, he fell into a disadvantage in an instant. However, once he fell short and wanted to seize it back, it was simply impossible.

Asura kept cursing in his heart, and at the same time, he became more annoyed. Now he could see that he couldn't beat Lin Ziming today.

If he continues to fight, he will even have to capsize in the gutter, so soon,

the retreat in his heart will be even more intense.

However, after his retreat came out, he was immediately caught by Lin Ziming and immediately launched a more fierce attack.

Asura had always been on the offense before, and he was mostly defensive. Now he launched the offense for the first time. For Ashura, it was an absolutely different experience.

In an instant, Asura felt the tsunami hit his face, as if it were a vast ocean, about to drown his whole person!

However, Asura is also an experienced powerhouse at any rate. In his lifetime, he will be defeated in no less than a thousand battles.

He snorted coldly, opened his hands, opened and closed, and fought Lin Ziming.

However, he still overestimated himself, or underestimated Lin Ziming too much. With a fight, he found that his disadvantage was even more obvious...
