

## Chapter: 2003

Hannibal nodded and said, "Yes, Chinese."

Adam was a little surprised and said, "Chinese people have always been very timid, especially in our beautiful country. Everyone is useless, honest, letting bully, how come there is an arrogant Chinese now, what is the origin of the other party? , Is it a supernatural person?"

Hannibal said, "It must be a supernatural person, and the strength is not low. I heard that the other party killed hundreds of people in my beautiful country within a week. Now it has alarmed many high-level officials, and they want to send most of them to arrest. Catch this Chinese man."

Adam seemed to have no interest in this Chinese. He nodded, and then said, "This Chinese will die in our beautiful country sooner or later. It is not a problem. It is you, Hannibal, you are practicing now. How's it going? I think you are stuck in the half-step psychic realm. It has been many years. If you continue like this, you may not be able to beat Lin Ziming."

When Hannibal heard these words, he immediately raised his eyebrows, his expression was obviously unconvinced, and said, "Lin Ziming, is the last Kung Fu Cup champion?"

"Yes, it is him." Adam nodded. When he mentioned Lin Ziming, some cold light flashed in his eyes, which was obviously hostile to Lin Ziming.

Hannibal was very keen, and he caught Adam's eyes in an instant. He asked, "Teacher, is this Lin Ziming very powerful? Even the teacher is very jealous of him?"

"Huh." Adam just chuckled lightly, and said, "As a teacher, he will naturally not be jealous. He is just an ant in front of him as a teacher. However, this person has excellent martial arts talents. According to the investigation, this person It took only three years to step into the supernatural realm, and now it is the Great Perfection of the Innate Realm, and it is even half-step through the Divine Realm, and the speed can be said to be very rapid."

When Hannibal heard this, his brows suddenly raised fiercely, and some flames rose in his eyes, which was obviously a strong interest and hostility towards Lin Ziming.

Hannibal is a militant himself. For him, there is nothing more happier than encountering a strong opponent. And if this opponent is from another country, he can torture him in battle, it will be even more perfect!

"Really, in three years to reach the congenital realm of Dzogchen, this is a bit interesting." Hannibal's mouth raised slightly, his eyes also flashed with a coquettish look, he had already regarded Lin Ziming as a prey.

Adam was very satisfied with his fighting spirit, nodded, and said, "I heard that he went to the Eagle Dog country some time ago and got the advice of the old woman. Next, he should come to the beautiful country. The identity of the cup champion, come to me for advice. Ho Ho, how does he deserve

me to give him advice? Hannibal, when you come, you will give him a vicious lesson. It is best to abolish his martial arts. Throw it back to China.” After Hannibal heard these words, the look in his eyes became brighter, and he licked his lips fiercely. He was extremely excited and said, “Teacher, rest assured, this is my favorite thing to do. The last Kung Fu Cup champion will definitely entertain the new champion, hehe.”

Yes, Hannibal was the champion of the last Kung Fu Cup, and he was the one who won with a crushing attitude. It’s a pity that he has reached his age, otherwise, with his strength, to participate in the Kung Fu Cup, where is Lin Ziming?

Adam nodded. He was also full of confidence in Hannibal. He thought that Lin Ziming would be unlucky as long as Hannibal made his move. He had never thought about it. Lin Ziming was no longer the same Wu Xia Amon. Now, Lin Ziming’s progress is extremely rapid, and now he has the strength to challenge him!

If it were Hannibal, he would be killed in seconds.

In his opinion, Lin Ziming was only lucky enough to condense the general trend of the Chinese nation before he could perform supernormally. He could not be Hannibal’s opponent.
