

Chapter: 2006

As this sentence fell, the sound of police cars whistling came from outside, and when you stood up, you knew that there were a lot of police cars coming. This kind of battle immediately scared all the Chinese compatriots here. Hui, everyone was panicked, extremely nervous and frightened.

For them, the police in the beautiful country are like gods, and they absolutely dare not provoke them.

To talk about these black forces in the beautiful country, they are just hate, anger, and a little idea of resistance, but facing the police in the beautiful country, they have this idea at all. For the police in the beautiful country, you can say It's awe to the extreme.

So there was such a scene. Most of the Chinese people present, after hearing the sounds of these police cars, didn't even see the police, so they all hugged their heads and squatted down, all of them shivering, not at all. There is a little thought of running away, let alone confrontation.

"It's finished, it's finished...the police are here, we are going to be finished now!!"

"What should I do now? The police in the beautiful country have guns. They will shoot at any time. Last month I saw with my own eyes that Lao Zhang was shot and killed by a policeman. Lao Zhang was just I accidentally put my hand in my pocket and took it out for a while before I was shot..."

"Yeah, the police in the beautiful country are too scary, let's surrender quickly, otherwise they will really shoot!!"

"Instructor Lin, hurry up and surrender too. Don't resist, they are not kidding..."

All the compatriots of Chinese descent had already squatted down at this time, holding their heads in their hands, and there were even many people who were directly frightened by the whole person lying on the ground, for fear of being shot by the police of the beautiful country.

To be honest, Lin Ziming felt a deep pain in his heart when he saw this scene.

He originally thought that after his salvation and teaching during this period of time, these compatriots, even if they did not grow up in terms of ability, at least had a lot of courage.

However, it seems that he is still too optimistic. This deep-rooted fear and cowardice cannot be changed overnight.

However, at the same time, he became more determined. He plans to play a good game in the beautiful country!

He wants to use his actions to tell these compatriots that there is nothing to be afraid of in the beautiful country. These beautiful people, who are tall and magnificent, are also afraid and vulnerable! !

The most important thing is that he wants to prove to the world that the

Chinese are not the ones they imagined decades ago, but they are still cowardly people. In China, there are still many capable and courageous backbones!

And he is to be the backbone of China.

Although he knows that doing this by himself is full of dangers and will also suffer a lot of controversy and even abuse, but he does not regret it at all. As long as he can contribute to China and his compatriots, then it is already worth it!

Taking a deep breath, a smile appeared on his face, and he said, “What are you afraid of? Can the police of just two hundred beautiful countries make you so afraid?”

They didn't understand Lin Ziming's remarks, and they thought that Lin Ziming was too arrogant. They didn't know that the sky was high and the earth was thick, and it must be unlucky.
