

Chapter: 2056

I saw that Lin Ziming was still standing in place easily, and then he didn't see any big movements. Faced with the thugs surging from all directions, he still shot them casually and cleaned up these men. Up!

Moreover, although he looks very relaxed, he is not merciful at all and extremely cruel. Every one of his hands is a scream like a pig, and several bones will be broken.

In particular, two of his subordinates were directly slapped on the forehead by him, bleeding from seven holes on the spot!

Too cruel, all kinds of fists to the flesh.

It made Zhong Fan and those dudes look silly for a while, they had no idea that Lin Ziming's strength would be so abnormal!

Especially Zhong Fan, he was completely dumbfounded, unbelievable, with a ghostly expression.

He is confused now. Isn't Lin Ziming a trash son-in-law from his aunt's family? Why has it become so powerful now? This is unscientific!

He remembered very clearly that a few years ago, how long Lin Ziming was in the family, he saw Lin Ziming once. At that time, Lin Ziming was still a total waste. He couldn't fight back or curse him. Kind.

However, it has only been a few years now, has Lin Ziming become like this? Now he seriously suspected that it was not Lin Ziming who stood in front of him, but another person!

Otherwise, no matter how big a person's changes are, it won't be that big, right?

It just so happened that Lin Ziming's gaze looked at him. The disappointment and shamelessness pierced him deeply and made him hurriedly lower his head, not daring to look at Lin Ziming.

For Lin Ziming's fierce shot just now, everyone around him breathed a sigh of relief.

They no longer contempt Lin Ziming, but become jealous. Although they are a black force and have a lot of blood on their hands, they have never seen such a cruel thing!

After Scott saw it, his pupils suddenly shrank. He is a master of the third stage of the Innate Realm. No one else can see it, but he can see that the Chinese in front of him is definitely not ordinary. People, but masters of innate realm!

At the most horrible time, he didn't even see it at the beginning, thinking that Lin Ziming was just a Chinese who lived and died.

Now when he faced Lin Ziming again, he already had the contempt he had just now, and he was a little more afraid.

However, the more this happens, the more intense his anger and murder towards Lin Ziming. If Lin Ziming was just an ordinary Chinese and he was

in a good mood, maybe he just abolished Lin Ziming and he wouldn't kill him. .

But now, he doesn't think like this anymore, Lin Ziming must die! !
