

Chapter: 2076

Lin Ziming showed a gentle smile, nodded and said, "Don't worry, I won't let you down."

His smile was like a spring breeze, which made many compatriots feel very comfortable after seeing it, and they also trusted him, thinking that he was not lying, and felt a lot of peace in a moment.

This time, the scale of his battle with Adam was much larger than when he fought with Hannibal, so the number of people who came to watch the battle was innumerable, and most of them were masters. Among them, there were many innate realms of Great Perfection. Masters, half-step masters of the gods, and even some old monsters of the gods, hide in them.

This can be said to be the most highly anticipated battle in Lin Ziming's history!

His every move was under the gaze of countless people, and the pressure was too great, and it even affected him, as if the air around him had become sticky.

He knew that this was because of the mental oppression given to him by too many people, especially those masters in the beautiful country, who hated him deeply.

If he changes to other people, even at the level of Shangguan Rufeng, he will definitely be hindered in the face of this situation, and even feel extremely nervous, resulting in unable to exert his strength!

However, to Lin Ziming, this is nothing. He entered the Liuli state, and after just a breath, he abandoned his distracting thoughts again and returned to the purest state, looking at Adam with exquisite peace.

Then, under the eyes of everyone, he began to take the first step.

He walked from the land to the lake, but he was already stepping on the surface of the water, but he was still standing very steadily. It felt very vain, as if he had no weight, just a feather, lightly stepping on it. On the lake.

This scene can be said to have surprised many people. It is beyond the cognition of countless people. Even if a person's strength is strong, it is impossible to violate the universal gravitation of physics, right?

Let alone a person of more than a hundred catties, even if it is a few two heavy things, it will be flooded very quickly if it is placed on the surface of the water.

But Lin Ziming didn't have it. He didn't hesitate and walked gracefully on the surface of the water. The surface of the water just flooded the soles of his shoes. With every step he took, waves of ripples were thrown away. , Spreading to the surroundings, that's all!

"This... I'm not mistaken, right? Lin Ziming actually walked on the lake?"

"How is this possible? How did Lin Ziming do it?"

"I heard that the masters of the fourth stage of the Innate Realm can walk on

the lake, but this is to maintain their own weight by rotating their toes to generate a huge thrust! Even so, the knees will be flooded. Ah, but this Lin Ziming just flooded the soles of his shoes. How is this possible? Isn't Lin Ziming a god?"

"Yeah, this has violated basic physics, right? Does gravitation not work on him?"

"Or, Lin Ziming is already a powerhouse in the God-Throughout Realm?"

"Impossible, Lin Ziming is only 30 years old, and it is impossible to reach the God-passing realm. I have heard an old man say that the rule of this world is to restrict human beings and reach the God-passing realm before the age of thirty-five! In genius People who want to reach the god-passing state must be after thirty-five years old! So this Lin Ziming cannot be a master of the god-passing realm!"

"Then how did he do it?"

"I see, he must have done tricks on the lake..."

Many people were talking about it, and they were shocked again by Lin Ziming's performance. Some even tried to walk to the lake to see if Lin Ziming had done anything.
