

Chapter: 2078

Originally in this world, there were very few strong people in the realm of the gods, let alone the battle between the realms of the gods!

Tongshen realm, the reason why it is called Tongshen, is that it is on the way to becoming a god, which can be called a demigod.

The strong in this realm, in the strict sense, can no longer be regarded as a human being, but a more powerful existence beyond human beings.

Adam is a master of the Divine Realm, and he is also a super power at the pinnacle of the First Grade. He is very famous and prestigious in the whole world. He is the strongest person in the beautiful country, and is also known as the big demon in the Western world. Since his debut, he has not known how many masters have been killed, and he is famous.

As for Lin Ziming, he is a super genius from China. He still hasn't reached the realm of the gods, but he dares to challenge Adam as a mortal. This is extremely topical in itself.

In particular, Lin Ziming still represents the country of China. These days, it is even more prosperous in a beautiful country. It can be said that this is no longer a simple battle between two strong men, but a contest between two countries. !

If Lin Ziming can really defeat Adam, then the status of China in the world will definitely be different!

However, everyone felt that this possibility was too small, even infinitely close to zero. It would be good for Lin Ziming to survive under Adam's hands.

Finally, when they looked at each other, Adam began to speak.

"Lin Ziming, I have to admit that I underestimated you. At first, I didn't expect you to make progress so quickly. In just over half a year, I dared to stand in front of me."

Adam spoke with a very sexy and nice voice, like a fairy, fascinating.

In line with his image, tall figure, golden scalp, it looks like the Adam in mythology, a god from the sky.

In contrast, Lin Ziming seemed much more mediocre.

Lin Ziming was just wearing a casual outfit, looking like a passerby, everywhere, there was nothing striking about it.

Especially when Lin Ziming's height was half shorter than that of Dang, the gap was even more obvious.

Facing Adam's pressure, Lin Ziming smiled slightly and said, "Adam, you don't expect me to come to you. Back then, at the Kung Fu Cup, you had murderous intent on me. You are the strongest person in the beautiful country. The existence of the pinnacle of the first rank of the God Realm actually has a murderous intent on an Innate Realm Dzogchen master, your mind and eyes are small enough. As far as your measurement is, it is really

too small compared to the military god of our country. You are Just a little man.”

Adam became very angry when he heard Lin Ziming’s words, his pupils suddenly shrank, and the murderous intent that had been hidden in his eyes suddenly burst out.

“You, a little junior, dare to speak ill of me and look for death!!”

Adam was angry and was about to attack Lin Ziming. His speed was very fast, and what he said seemed to have magical powers and could exert mental pressure on the enemy.

Lin Ziming dodged lightly, like a feather, without a little weight, it looked particularly light.

Adam didn’t hit Lin Ziming with one move. His eyes were more violent, and at the same time he was a little more jealous. Lin Ziming’s posture was too flexible. He made a sudden move like this just now, and he didn’t even run into Lin Ziming. Ming!

Logically speaking, Lin Ziming was only half-stepping through the divine realm, it was impossible to be so fast.
