

Chapter: 2111

Listening to Meng Lang's words, Ning Yuning only felt very disgusting, but she had no choice but to obey helplessly.

But just after they took two steps, they heard a bang-bang collision, followed by screams and horrified calls from Sister Hua and others, which immediately made Ning Yuning subconsciously look back, and immediately saw it. , All of these subordinates who were still invincible just now lie on the ground and won't move.

Two of them even hung the ceiling fans on the ceiling, and the scene looked very shocking.

"Boy, don't you feel embarrassed that your dignified master of Dzogchen in the congenital realm actually bullied a female class?"

I saw that strange man, after solving these big guys, he patted his sleeves and walked in slowly, with a lazy smile on his face, as if he had just done a trivial thing.

After hearing these words, Shao Lai suddenly changed his face and his eyes became sharp. He stopped and stared at Lin Ziming closely. A huge momentum emanated from him. !

He actually saw the other party wrong, and the other party actually knew that he was a master of Innate Realm Dzogchen. To be honest, when Lin Ziming said this, he really shocked him!

Because he has a unique set of techniques that can conceal his aura very well, even if he encounters a master of the same level, he can't see his true strength!

This is also the reason why he dared to be so unscrupulous. With the strength of his Innate Realm Dzogchen, he can be said to walk sideways in society. Only the strong with the God Realm can suppress him! However, the masters of the God-passing realm are all legendary monsters. They are immortals. There are few in the whole world. Where will they look at him?

But now, facing this man who appeared suddenly, not only did he see his strength, the most frightening thing was that he still couldn't see the opponent's strength!

Could it be said that the opponent is a master of the gods? !

As soon as this thought came out, he was immediately thrown out of his mind, because it was impossible!

Masters of the God Realm, they are all god-like characters, how can they be so boring to nosy? Moreover, when the other party looked so young, it was even more unlikely that he was a master of the gods.

Lin Ziming walked in with a smile on his face, looking at Lai Shao lightly, with a playful look.

At the same time, he also took a look at Ning Yuning a little, and found that Ning Yuning was still intact and had not suffered any harm, he was relieved.

In fact, he could show up earlier, but during the incident, Tao Sanniang called him and asked him where he had flown. After chatting for a while, there was a delay for some time. After he hung up the phone, he rushed right away. coming.

Ning Yuning was looked at by Lin Ziming's eyes, and she didn't have the same disgust as other men. On the contrary, the look of the strange man's eyes gave her a very familiar feeling!

It seems to be, where have you seen it?

But she was consuming her brain, and she didn't remember when she saw each other.

Lai Shao said in a deep voice: "Who are you and why do you want to provoke me!?"

When he said this sentence, his tone was questioning, full of majesty, and the various echoes in the box seemed to be particularly shocking. For Sister Hua and others, his heart was throbbing with fright, his feet were soft, and he was breathing heavily. , Fear to lack oxygen at any time
