

## Chapter: 2129

Lin Ziming said: “When I returned to China today, when I was transiting to a country in East Asia, something happened...”

Next, he talked about Lai Shao’s thing, and when he finished, he said in a deep voice, “I have a hunch that next, the martial world will invade us on a large scale! There may be a third world war!”

“what?!”

After hearing Lin Ziming’s words, everyone opened their eyes wide, showing extreme horror.

Some people even dropped their cigarettes to the ground in shock.

It’s not that their psychological quality is not strong enough, but that this message is too shocking for them, no, it should be said to be terrifying!

What is the concept of the outbreak of the Third World War?

Moreover, it is the martial world that invades the secular world on a large scale. Isn’t this just for fun?

The damage it brings and the impact on the world can be said to be more serious than the previous two world wars!

The problem is that for so many years, the martial world has been very honest, and the world of the secular world is not in the water. How can the world of the martial art invade the secular world? This is not very scientific.

After being shocked, Peng Zhuo calmed down for the first time, staring straight at Lin Ziming, and said in a deep voice: “Instructor Lin, you are serious about this? It’s not a trivial matter!”

Zhao Xia also said, “The martial world and the secular have been living in peace for thousands of years. How can they invade the secular world on a large scale at a high stage? Moreover, if they do this, it will cause harm to the world and the people. It’s too big!!”

Lin Ziming nodded and said seriously, “I’m afraid it is true, so I have been practicing so hard during this period of time, just to prepare for this battle!”

After a pause, he said in a more solemn voice: “My colleagues, I told this story mainly to remind everyone that I have to prepare for the next war. I still don’t know what they will be. Time to start a war, but in my estimation, it won’t be too long...”

After Lin Ziming finished saying these words, the entire conference room fell into absolute silence, and no one spoke for a long, long time.

This is indeed the message, for them, the impact is too great!

They are not stupid, they can imagine, if this thing really happens, how much impact it will bring, it is very likely that people on this planet will die half, or even more!

And when the time comes, there will be disasters everywhere, even if they are, they may not be able to survive this war.

Ordinary people may not know how terrifying the martial world is, but they

do.

At that time, even if nuclear weapons are used, it is estimated that they will not have any effect. The only way is to fight with the martial world!

And this price is too big...

Finally, after a long silence, Peng Zhuo interrupted the silence. He looked at Lin Ziming and said, "Then when are you going to Yandu?"

Lin Ziming said, "It should be tomorrow. I come back from the beautiful country, but I still haven't returned home."

When other people heard him say this, they were also in awe. It is a blessing for the country to have people like Lin Ziming in China.

After confessing everything, Lin Ziming went home. As soon as he thought, after going back, facing three women, he still had a somewhat headache...
