

## Chapter: 2138

At this time, Lin Ziming didn't know Chu Fei's situation at all, because he had already entered the mode of meditation.

He closed his five senses and six senses.

The next day, early in the morning, he woke up automatically, full of energy, and went to make breakfast.

When his breakfast was ready, Chu Fei and Tao Sanniang had already gotten up. Their eyes were a little red. They were obviously crying. They were spotted by Lin Ziming and said, "You guys last night Cried?"

Chu Fei and Tao Sanniang didn't panic. They had thought of the wording a long time ago, and they said together that they had watched a tear-jerking TV show last night.

Lin Ziming didn't even think about it. After all, he is already a very powerful existence, especially in China, as long as he is not a lunatic, it is impossible to provoke his family members.

Not long after, Ning Yuning also got up. She had panda eyes on her face. It was obvious that she was not sleeping well, but Chu Fei and Tao Sanniang's eyes were mainly placed on her legs and found her. There is no strange walking, it is better to be stunned. Did Ning Yuning go to Lin Ziming's room last night?

Ning Yuning saw the gazes of the two of them, her face flushed, and at the same time she felt very embarrassed. She gently shook her head to indicate that there was no super-friendship between herself and Lin Ziming.

This surprised both Chu Fei and Tao Sanniang. How could Lin Ziming hold it back?

After eating breakfast, Lin Ziming didn't know how much he stayed, chatted for a while, and then went directly to the airport. He was going to fly to Yandu to find Huangpu Road.

Now he is quite confused, looking for Huangpu Road.

In addition, he also contacted Nishang to see if he could get in touch with Grandpa.

Yes, since Grandpa rescued him that time, he disappeared again, and he didn't even have any contact information left. This made Lin Ziming feel particularly depressed, and at the same time worried that Grandpa's behavior was too weird. He was very worried about his grandfather, and at the same time he was very curious about his identity.

Who will grandpa's true identity be?

When he went to the airport, he called Han Jinlong, Wang Shougui and Jiang Liqun to meet them, chat with them, and learn about their current situation by the way.

When they received the call from Lin Ziming, they were all very happy and excited, and rushed over without saying a word.

They arrived almost at the same time. After seeing Lin Ziming, they immediately greeted respectfully, “Chairman, you are back!”

“Yeah.” Lin Ziming nodded, and then said, “How are you doing these days?”

Han Jinlong said it well, “Thanks to the chairman, we all have a good life. This time is the happiest and most peak time in our life. All this is the blessing given by the chairman.”

Wang Shougui also said, “Yes, we are lucky to be able to follow the chairman.”

Jiang Liqun said: “The most correct thing I have done in my life is to follow the chairman.”

Lin Ziming waved his hand and said angrily: “Okay, you don’t have to flatter me anymore, just talk about business.”

For the three of them, Lin Ziming has always treated them very preferentially. Speaking of which, they can be regarded as following their elders very early. Over the years, they have also been absolutely loyal to themselves without any complaints or disrespect.
