

Chapter: 2144

At this moment, he felt something. Looking back, he immediately saw a familiar figure walking in from outside the door.

“Brother Shangguan has paid too much for China, and he should take a good rest.”

It's Whampoa Road.

He walked in lightly, wearing a Han suit, looking particularly elegant.

Lin Ziming stood up and said hello to Huangpu Road, “Senior Huangpu.”

Huangpudao nodded, took his gaze back from Shangguan Wei'an, and put it on Lin Ziming's body. He made no secret of his appreciation for Lin Ziming. He smiled and said, “Ziming, you did a great job this time. I really don't have any. I misunderstood you.”

If you change someone else and get praise from Whampoa Road, it will definitely be very exciting, but for Lin Ziming, he just smiled and said, “Thank you, senior, for the praise.”

Then, they walked out of the room together and took a walk in the backyard. Lin Ziming didn't have any ink stains, and directly asked what he wanted to know, “Senior Huangpu, why can't I break through the God Realm?”

The question he asked was a little bit unfinished, where is there such a good breakthrough in the Tongshen Realm?

Just ask the whole world, there are only a few masters in the gods.

But Huangpu Road is very clear. Lin Ziming's doubts in his heart, he said faintly: “I don't know when, there is a saying that the rules of heaven and earth have restrictions on us human beings, who are less than thirty-five years old and cannot break through to the realm of God. , No matter how talented this person is, he can't break this rule.”

Lin Ziming was very puzzled after hearing this. With his current knowledge, he couldn't understand, what is the rule of heaven and earth?

Could it be said that heaven and earth are conscious?

He said: “Senior Huangpu, I don't quite understand the meaning of this sentence. What are the rules of heaven and earth? Why should we restrict humans from breaking through to the realm of the gods before they are thirty-five years old? What is the meaning of this?”

Huangpudao shook his head and said, “I don't know the details. I only know that there is this statement. In fact, I don't know what the rules of heaven and earth are.”

After a pause, Huangpu Road said: “I don't know where it started. Humans are divided into two schools to explore the nature of the world and the truth of the universe. At the very beginning, some people studied mathematics, physics, and science. To explain the essence of everything and the truth of the universe, this is also the most mainstream view at present. In this school, it is believed that there are four forces in the universe, namely

electromagnetic force, strong force, weak force, and gravity. Matter is composed of atoms. of.....”

“The other school is the cultivator. They started by studying their own self-reliance, constantly breaking through the realm and having a strong spiritual level, to explore the nature of the world! In fact, our secularism is mainly the scientific school, the sect of the world. On the side, it is the Cultivator, they are exploring the essence of the universe by constantly strengthening themselves and through the high-dimensional level...”

Huangpu Road talked freely, and Lin Ziming was surprised after listening!

It was the first time he heard of such a statement.
