

Chapter: 2152

However, the three guards obviously didn't believe him.

"He can't produce evidence. It's definitely not the King of the Southern Territories, but the miscellaneous pieces sent by the East! Brothers, we must guard, and we can't let him in and kill our sect!"

One of the guards gritted his teeth.

Another guard also said: "We sealed the passage and notified the division that there was an attack from a foreign enemy!"

Their reaction was extremely strong, and the whole people looked like they were at home with the same enemy, even though they knew that they were not Lin Ziming's opponents. However, they didn't back down because of this. Instead, they were beaten up with blood and wanted to die with Lin Ziming.

In addition, one of the guards had already begun reporting the letter, and shouted three times at a conch-like communication tool: "Enemy attack, enemy attack! Eastern crap is here again!!!"

After yelling these words, they all attacked Lin Ziming together, the style of play was extremely fierce, and it was completely the same.

Not to mention, although these three guards are all in the first stage of the innate realm, the power of the three of them now bursts out, even if it is in the third stage of the innate realm, they must avoid their edge.

Hearing this, Lin Ziming finally understood that the reason why they were so keen was that the Luo Tian organization had experienced a great war. It was the Eastern faction who attacked them, and they should have paid a lot of casualties. That's why they are so all-in-one!

After learning about this, Lin Ziming's mood sank. He now wants to know what's the situation with his mother and the neon clothes?

Since he reconciled with the Luo Tian organization, his mother Qin Huayue returned to the Luo Tian organization. For her, this is her home, and she would just go out of vulgarity and reunite with him from time to time.

At just this time, mother Qin Huayue was in the Luo Tian organization!

If the mother really has something short and long, then he cannot accept this fact!

Now he faced the attack of these three guards, he snorted, shot directly, and subdued these three sects in threes or twos.

And soon, he felt several powerful auras, rushing from the inside, it was obvious that it was the powerhouse of the Luo Tian organization who came.

Lin Ziming also did not act rashly, quietly waiting for the strong from Luo Tian organization to come over, so that his identity could be verified.

Sure enough, before Lin Ziming, seven or eight experts suddenly appeared in front of Lin Ziming. They were all masters at the high stage of the Innate Realm. Among them, two of them were the Great Perfection of the Innate

Realm, and they were all acquaintances.

The three guards saw the emergence of these eight powerhouses, and immediately said excitedly: “Report that the sword is like the Frost King. This is the guy who wants to force the Luotian faction. We suspect that he is the enemy of the Eastern faction!”

“Yes, the sword is like the King of Frost. This person must be a miscellaneous piece of the Eastern faction. Please also ask the King of Sword to be taken down quickly!!”

I have to say that these three door guards are still very competent, but IQ is a bit in arrears.

Standing in front of Lin Ziming, it was Jian Rushuang, who was considered to be the person he was most familiar with in the Luo Tian organization. When he first saw Jian Rushuang, he was just a little ant and almost died of Jian Rushuang. Frosty hands.

But now, the identities of him and Jian Rushuang have been completely transferred.

The current sword Rushuang, in front of him, is an ant, he can kill the sword Rushuang with one move.
