

Chapter: 2187

They seriously suspect that Lin Ziming's current strength is no longer under King Xiaoyao.

It was too late to say, and Lin Ziming's breath was getting closer and closer, and he was about to catch up with them. This made them feel extremely flustered, and the fat man immediately screamed: "Lin Ziming! You are on the earth. , In this other world, you still chase and kill the same kind, are you still a human?!"

The thin man also yelled anxiously: "Lin Ziming! Can you stop chasing after you! For a local aboriginal, are you doing this right with our brothers?!"

They were obviously already very anxious, and began to be truly afraid, because the horror that Lin Ziming brought to them was too great, like a god of death, haunting them, the sickle above their heads, ready to be harvested at any time Kill their lives.

They came to the secret realm this time, but they came rushing to the god-passing realm. If they died in Lin Ziming's hands like this, it would not be worth it!

However, they had no other way. Lin Ziming's current strength was far above them. They had already used the strength of the milk to escape, and they still couldn't escape.

Seeing that Lin Ziming's distance was getting closer and closer, they became more anxious. If this continues, they are really going to be caught up by Lin Ziming!

At this moment, the fat man shook his head, took out two chubby things from his arms, gritted his teeth, and then threw them at Lin Ziming's body abruptly, yelling: "Go to hell!!!" !"

He just roared out. Lin Ziming, who was chasing after him, immediately felt bad when he saw his movements. A strong sense of crisis arose in his heart. He just rolled around without thinking about it. Avoiding these two round things embarrassingly.

And at the same time, where he left, there was a violent noise, which exploded with a bang!

The power was extremely huge, and a huge destructive force was set off on the spot. Fortunately, Lin Ziming's reaction was timely enough, otherwise he would definitely be seriously injured.

But even so, he looked very embarrassed.

"This won't kill him!" The fat man in front looked back and found that Lin Ziming had escaped him. He yelled a few times, but his movements didn't show any sluggishness, so Lin Ziming stopped. At this time, he immediately opened the distance again.

At the same time, the thin man took out two bombs from his body and threw

them on the ground, and immediately a large cloud of smoke rose up, covering their whereabouts completely.

Lin Ziming saw this scene with a gloomy face, but he didn't continue to chase, because he knew that the two of them were already far away, and he couldn't catch up.

It seems that I am still careless, and I didn't think that at this time, they still have a killer.

But it's normal to think about it, they must be well prepared to come to the secret realm.

Fortunately, he just dodged in time, but he would really capsize in the gutter. Shaking his head, Lin Ziming didn't think too much, and went straight back to the place to see how the woman was doing.
