

Chapter: 2188

Time went back a few minutes ago. When the woman was desperate, she saw Lin Ziming suddenly appear and fight with the two nasty invaders. She was dumbfounded and couldn't react.

After a while, she saw that the three people were shaking and moving away gradually, and she came back to her senses, she was saved.

And the other party was the man he had met before, and that man let her go and didn't violate her.

This made her heart suddenly complicated, and at the same time she couldn't understand why the other party wanted to do this?

Didn't the people in the family say that these invaders are all heinous bad guys?

Yes, she has been fascinated since she was a child, and all the elders around her are telling her that these invaders are beasts, beasts, and beasts with no human nature. Every once in a while, these invaders will enter their world, rob them of their things, and slaughter them. They are their lifetime enemies! If they encounter these invaders, the first reaction is to escape. If they can't escape, they will fight to the death. Even if they die, they can't fall into the hands of these invaders, otherwise they will suffer endless pain and torture.

Today, she met two intruders, one tall and one short, one fat and one thin. When they met, she was desperate at the time, but she did not have the first time to commit suicide. This is what she regrets most. thing!

As a result, she saw with her own eyes that these two hateful invaders cruelly killed her people and violated her!

She was tied up, unable to commit suicide, what awaited her was boundless pain and torture.

But at this moment, the man I met last time reappeared, and he didn't bully her with these two nasty intruders. Instead, he fought with the two intruders, which was obviously to rescue her. she was.

Moreover, she also understood their conversation. It was obvious that the man despised the two intruders. This situation gave her a huge impact on her concept. Could it be that not all intruders are Is it heinous?

She was confused, which caused her to stay in place for a long time. After a while, she came to her senses. She saw more than a dozen corpses on the ground, all of her people. In order to protect her, she fought hard, but was still caught by those two. The hateful intruder hurt cruelly!

She felt anguish in her heart and kept crying.

However, after a while, she heard the movement again. It was the sound of someone coming over and stepping on the branches of the ground, which immediately frightened her and picked up the branches of the ground in a panic, blocking her in front of her. defense.

Soon, she saw that it was not the two nasty invaders that appeared in the

depths of the woods, but the man who appeared just now and saved her.

I saw that this man was obviously embarrassed, and his face was dirty, with black patches, as if he was injured.

I don't know why, when she saw this man, she suddenly breathed a sigh of relief. It wasn't the two nasty intruders, okay, okay...

Even, she felt a sense of security in her heart, which made her feel incredible.

Lin Ziming was indeed a little injured. The two bombs that the fat man threw just now were too powerful. They were even more powerful than the grenade on the earth. They were obviously improved!

He seriously suspected that if it exploded within one meter of him, then he might be killed directly.

This also made him more murderous towards the fat man, and when he met these two people next time, he must take action to end their lives.

Now that I saw this woman, there was no injury. It was good. He breathed a sigh of relief. After walking over, he saw the other person holding a branch in his hand and looking at him defensively. He just felt a little helpless, he said: "They have been beaten away by me, you are safe."
