

Chapter: 2198

But isn't it? The evil leader seems to them to be invincible. Waiting for ten or eight big men, none of them are the opponents of the evil leader, and even those huge beasts can't get a bargain in the hands of the evil leader.

But now, it was solved by a much thinner man?

And it seems that the evil leader is not the man's opponent at all.

After a brief stupefaction, Dilidal immediately uttered an excited cheer, "It's great, great! Beat them down and see if they dare to bully us in the future!"

The other people in the tribe are now recovering. When they look at Lin Ziming, their eyes are full of awe. There are even some old men who knelt down for Lin Ziming, yelling constantly: "Invincible warrior, Invincible warrior."

As for the people of the evil tribe, they are already scared and stupid. They have never imagined that such a thing would happen if they were killed. In their opinion, the evil leader is invincible, and he was actually caught by the man in front of them. , So easily settled?

So for a while, they all froze in place, not knowing what to do.

The evil leader yelled strangely, his voice was loud and loud, like a wild beast. Lin Ziming couldn't understand what he was talking about, but looking at his expression and the performance of those evil tribes, it was obvious that he was scolding. The men of these evil tribes avenged him.

I have to say that the indigenous people here are still very courageous, and their bones are full of bloodthirsty genes. Even if they know that Lin Ziming's strength is very strong, they will not shrink back, holding the weapon in their hands, and shouting loudly. Then, rushing towards Lin Ziming, the number of people is extremely large, and their bodies are generally huge, much stronger than the people on earth.

Even the Westerners on the earth, in terms of size, are no better than these warriors of the evil tribe.

People in the Dilidal tribe, their complexion became bad after seeing this scene, and they were worried about Lin Ziming. Up to now, they have actually found out that Lin Ziming is not a member of their tribe, or even this. The world wins people, but the invaders they hate.

"No! These people of the evil tribe are going crazy! Our brave warrior is in danger!"

"The people of the evil tribe are so despicable, they besieged the warriors of our tribe!"

"People of the tribe, we can't just stand by and fight together and drive away these damn evil tribes!"

There is no shortage of bloody warriors in the tribe. Although they know that they are not the opponents of the evil tribe, they have been taught by the evil tribe people just now. Now their faces are still blue and swollen, but

they are not timid and hold them. Weapons, we must join the battle.

However, at this moment, Lin Ziming had already moved.

He didn't retreat. Instead, he took the initiative to attack these warriors in the evil tribe.

His action made everyone in the tribe look stupid...

Bang bang bang...

The sound of fists to the flesh and all kinds of screams were heard continuously. It took less than a while. The people of these evil tribes, like bottles, were constantly broken by Lin Ziming and fell to the ground screaming completely. It's a one-sided situation.

After only a while, hundreds of warriors in the evil tribe were already lying down.

The rest are the evil tribe warriors behind, who are already looking silly now, facing Lin Ziming's gaze and the movement towards them, they all felt their scalp numb.
