

Chapter: 2199

Although they are very bloody, the strength that Lin Ziming has shown at this moment is really terrifying, and it has surpassed their cognition.

I don't know who shouted, and then, the man knelt down with a plop, and was still prostrate on the ground, his body trembling, expressing his awe and fear of Lin Ziming.

Because of his action, the warriors of other evil tribes who were standing also knelt down and prostrated on the ground, and they continued to shout a slogan.

Lin Ziming was a little stunned for their reaction. He didn't understand what they were talking about, but looking at their expressions, he probably guessed that he should mostly be regarded as a god, right?

Indeed, in a feudal, or even reckless world, the strength he displayed now would indeed be recognized as a god.

Soon, not only the people from the evil tribe, but also the people in Dilidal's tribe also knelt down and prostrated on the ground to Lin Ziming, constantly shouting the same slogans.

Lin Ziming looked at Dilidal, and sure enough, he heard Dilidal say to him in spoken words: "They treat you as a god."

It is as expected.

To be honest, Lin Ziming still felt quite helpless. Suddenly he thought, on the earth, thousands of years, there will be various myths, would that be the case?

When a person has extraordinary abilities, he is respected as a god by those around him, and passed down, and it becomes a myth over time.

Regarding this kind of thing, Lin Ziming shook his head. He originally wanted to speak, but after thinking about it, he gave up.

Because he doesn't speak the local language, once he speaks, he will definitely reveal himself. By then everyone will know that he is an intruder.

He wasn't afraid of trouble, because this would cause Dilidal trouble, so there was no need for it.

So he cast a look at Dilidal and asked her to be his own messenger. I have to say that Dilidal is still very smart. She immediately understood what Lin Ziming meant and said loudly, "This is The dumb warrior of our tribe, natural supernatural power, evil leader, you dare to come to our tribe next time to bully us, I will be the invincible dumb warrior and end your lives!"

Dumb warrior?

When they heard Dilidal's words, they all looked at Lin Ziming in amazement. They didn't expect that Lin Ziming would be dumb.

The evil leader was already afraid of being beaten by Lin Ziming, where he dared to resist, he nodded quickly to show his surrender, and then ran away dingly with someone.

As for the clothes taken over, of course they dare not take them away.
After they were gone, excited cheers came from the tribe!
The faces of men, women and children were excited and joyful.
When Lin Ziming saw this scene, he also smiled. This feeling is really
amazing. If he had never thought before, he would one day become a hero
of a tribe in a different world.
