

Chapter: 2200

Then, people from these tribes knelt down to Lin Ziming one after another, expressing their respect and gratitude to Lin Ziming.

Lin Ziming didn't know what to do with this situation, so he looked at Dilidal, who smiled and told him with his eyes that this is what their tribe should do.

Fortunately, Dilidal was also a very smart person. Under her circling, the people in these tribes believed her words. The dumb warrior in front of him came from another tribe and saved them from the crisis.

Just because of some special reasons, the dumb warrior has lost the ability to speak.

Because of the heroic performance of the dumb warrior just now, many young women in the tribe glared at him. Some were bold, and even went directly to the dumb warrior to show off.

The meaning expressed in it is obvious, that is, I want to go to Wushan with the dumb warrior.

Lin Ziming felt very embarrassed about this situation, and Dilidal was even more angry with the black line on his face, and he violently drove these women away.

And her move made the people in the tribe look at her with jokes and ambiguities, and they still said something that Lin Ziming couldn't understand.

After she listened, her face flushed even more.

After all the dust settled, Lin Ziming's identity was legalized, and he could just live in the tribe, but Dilidal's brother Uganda scratched his head when he saw him in this suit, and felt very puzzled. How can the clothes worn by a dumb warrior look so familiar?

In the next few days, Lin Ziming lived in the tribe.

He didn't want to take root here, but he was an outsider who was too unfamiliar with the world, and didn't even know what the world was like.

And if you want to integrate into the world as quickly as possible, the best way is to integrate into the local area, because local talents know many secrets of this world.

Sure enough, after staying in these few days, he has indeed learned a lot about this world through communication with Dilidal. At the same time, I have a better understanding of this world.

It turned out that this world is a world of feudal society. In addition to the tribes around them, there is a huge city standing thousands of miles away.

And there are dozens of cities like this, and these cities are all managed by one country.

The strength of this country is very strong, and there are several such countries...In fact, after counting, it is almost the same as the ancient times

on earth.

The difference is that the force value here is much higher.

These people from Dilidal said that here, there really are gods, and these gods are very powerful.

He also warned Lin Ziming not to offend those gods.

Hearing this statement, Lin Ziming became interested.

In his opinion, these so-called gods may be natives who have eaten the 'fruit'?

It seems that the effect of this kind of "fruit" is really great, otherwise it is impossible for a world with a foundation in martial arts to give birth to extraordinary powers.

There are also things about intruders, Lin Ziming also understands clearly, it turns out that every once in a while, there will be some intruders here, and these intruders are very evil, very cruel, every time there is an invasion.

Many people will die in their tribe with the appearance of the savior.

So they all hate these invaders.
