

Chapter: 2212

Even Xiaoyao King tightened his brows now, and for the first time such a huge fluctuation in his expression appeared on his face.

Yes, even he was a little surprised.

Because he knows the strength of the fat and the thin. Although they are not high on the list of immortals, they are brothers from the same family and have a powerful combination technique. If they join hands, they can explode with great power. Even if you are a master of the God-passing realm, you have to drink hate.

Even if he encountered the combination of these two people, he would have to spend some means to defeat it.

But now, this Lin Ziming actually defeated these two people?

And looking at the way these two people are now, they are still very embarrassed, especially the thin man, who obviously can't stand the serious injuries, how can this not surprise him.

Gong Chunqiu's pupils contracted, and then his face showed anger, and he directly retorted: "Presumptuous! You dare to lie in front of Senior Brother Xiaoyao! That Lin Ziming is just a small person, a spokesperson in the world, how can you have it? The strength can defeat both of you!"

Yes, Gong Chunqiu obviously didn't believe it, thinking that the fat man and the thin man must be lying.

He has a natural hostility towards this Lin Ziming, and it is very unpleasant to look at it. Now that the fat and thin people say that this Lin Ziming is so powerful, how can he believe it?

After others heard Gong Chunqiu's words, they also began to calm down.

Yes, Lin Ziming and the others have not seen it before. Although they are also super talents, they are definitely not up to the level of Xiaoyao King. If they can defeat the joint of fat and thin, then they absolutely don't believe it.

You know, they are all geniuses. At this level of theirs, although there is a gap between them, the gap is not as big as imagined. Except for the super enchanting King Xiaoyao, the gap in the strength of the others is not bad.

It is absolutely impossible that one enemy and two will happen!

So they think that the fat and the thin must be broken one by one, and now they want to kill someone with a knife.

The fat and the thin looked at each other. Originally, according to their plan, Gong Chunqiu was going to use a strategy to encourage Gong Chunqiu to become an enemy of Lin Ziming. When Gong Chunqiu died in Lin Ziming's hands, it was absolutely impossible for Xiaoyao King to take action. . When the time comes, the two tigers will compete.

But when they met Xiaoyao King so many people together, they immediately changed their minds, the tone was so troublesome, it would be better to directly stimulate Xiaoyao King.

As a result, I didn't think that these people actually didn't believe it, which really made them feel ashamed.

But they didn't dare to express their dissatisfaction, so they had to be patient and repeat what happened just now. Finally, the fat man said, "The strength of this Lin Ziming is really terrifying! Our two brothers are absolutely not joking, and, His purpose is not just our brothers, but he intends to hit us super arrogances from the sect. He has said that when he collects the fruits and breaks through to the realm of the gods, then it will be our doomsday! Even Brother Xiaoyao is not in his eyes..."

He looked chubby and honest, but his heart was very dark. When he said something, he could greatly agitate everyone's emotions.

After letting them listen, they couldn't help being furious, expressing hatred and dissatisfaction towards Lin Ziming.

Especially Gong Chunqiu, his eyes were flushed, and he was very angry, and shouted loudly: "It is unreasonable! This Lin Ziming is so courageous, I think he is impatient! Let Lao Tzu meet him, it must be Cut him under the horse!!"

The murderous aura he said caused other super arrogant to agree.

Only the King Xiaoyao kept frowning, staring at the fat and the thin, and said: "He really said something like this? Don't lie to me."

The fat man gritted his teeth and said, "Say it!"
