

Chapter: 2224

I have to say that Gong Chunqiu's strength is still very strong, much stronger than fat and thin. It is worthy of being the fourth super arrogant on the Fengxian list.

This is also one of the rare strong men Lin Ziming has encountered.

Lin Ziming simply judged that the strength of this Gong Chunqiu was equal to that of Adam.

You know, Gong Chunqiu is only half-step through the divine realm, it seems that there are still many geniuses under the world.

It's just that Gong Chunqiu's strength was not enough in front of Lin Ziming.

Lin Ziming now is not the one who fought Adam in the beautiful country.

After defeating Adam, in this battle, he gained tremendous growth and gained a lot of insights, and in the secret realm, because of the different environment, the oxygen content in the air increased, and the gravity was also greater. Invisible, he continuously tempered his body, making his strength increase every day.

Now facing Gong Chunqiu, he can easily defeat it.

Of course, he will not defeat Gong Chunqiu directly, because he knows very well that his real opponent is not Gong Chunqiu, nor Bu Jingyun, not Sakyamuni, but King Xiaoyao, who has been proud of the group and has been known for thousands of years. The most genius, Xiaoyao King known as the chosen son of this era.

Gong Chunqiu is Xiaoyao King's junior, so Gong Chunqiu and Xiaoyao King's martial arts come from the same faction. He and Gong Chunqiu fight against each other, and you can get a glimpse of the strength of Xiaoyao King.

Although Lin Ziming usually looks reckless, he will go straight to the enemy, but he is not a reckless person in essence.

Saying that it was too late, Gong Chunqiu came in front of him all at once, and from the very beginning, he performed a big killer move, obviously wanting to kill him directly.

I have to say that Gong Chunqiu's strength is still very strong, and his moves are extremely delicate. He is one of the few opponents Lin Ziming has encountered, and his moves are delicate.

When encountering such an opponent, Lin Ziming was not only afraid of him, but even more excited, because only by fighting against a stronger opponent, the greater the benefits he would get.

They immediately fought each other, and directly created a great movement. Because of their powerful collision, a huge shock occurred directly on the ground. For these natives in the tribe, they were all stunned and hard to return to their senses. They had never seen such a powerful force.

This is beyond their cognition.

Some elders in the tribe squatted straight down, clinging to the ground tightly, shouting in reverence and awe: “God of the earth, God of the earth...”

Yes, in their view, only the god of the earth can possess such a powerful force.

Of course, they did not think that Lin Ziming and Gong Chunqiu were the gods of the earth, but that they were sent by the god of the earth, Lin Ziming was to save them, and Gong Chunqiu and others were evil gods and demons. Uganda and others, who have been with Lin Ziming, have their eyes widened now. They can't return to their senses for a long time. Their eyes are full of shock and fear. They know Lin Ziming is very powerful, but they never thought that Lin Ziming would. That's awesome!

Isn't it? The fight between them just now directly caused a small earthquake, and their speed was extremely fast, and they hit the jungle next to them. Their violent moves directly interrupted the big trees. , Just like hitting cotton, it's completely destructive.

They have never encountered such a terrifying power before, and when a mortal encounters something beyond their knowledge, the first reaction is awe.
