

Chapter: 2225

Dilidal said happily: "Let me tell you. Although Lin Ziming also comes from another world, he is not an intruder. He is different from those evil invaders. He is the patron saint of our tribe! But you just drove out mercilessly. Fortunately, Lin Ziming's heart is kind, otherwise we have all been punished."

After hearing Dilidal's words, everyone in the tribe became ashamed, bowed their heads, and prayed that Lin Ziming could forgive them.

At this moment, Lin Ziming and Gong Chunqiu had already fought hundreds of moves, and they were playing dimly.

Mainly Gong Chunqiu was attacking, while Lin Ziming was defending. Gong Chunqiu's moves were extremely fierce and brutal. Their moves were all killer moves, and they were extremely fast. They were not much better than the combination of fat and thin.

However, in front of Lin Ziming, it still seemed a little inadequate.

Lin Ziming didn't have a rush to make a move. He was still observing Gong Chunqiu, and he found that Gong Chunqiu's exercises were really exquisite, especially Gong Chunqiu's physical strength, which was incredibly strong, and his momentum was like a rainbow, becoming more and more full. The moves he played out are getting more and more urgent, more and more fierce.

If it wasn't for Lin Ziming's combat experience to be rich enough, then he would have already been defeated this time.

This made him put down his contempt, it was not that he was afraid of Gong Chunqiu, he was afraid of King Xiaoyao, and even the entire martial world, and the most powerful Eastern Sect of Heaven Killing.

Even Gong Chunqiu's strength is so terrifying, so how powerful is Xiaoyao King's strength?

There are those powerhouses of the Eastern faction, such as the suzerain, the elders and the like.

Now he finally understands why the Luo Tian faction is so big and vulnerable to the Eastern faction that even the holy king Luo Tian is injured and obviously lost.

It seems that there are really many strong people on earth.

When he just broke into the Innate Realm, he thought there were only those in the world, at most a hundred.

However, as his realm gradually improved, his vision became wider and wider, and the world he came into contact with became wider and wider. He knew that there were actually many innate realms on earth.

After he half-stepped through the God Realm, he also thought that there were not many masters in the God Realm, but now it seems that there are definitely many masters in the God Realm.

In addition, there are many geniuses under the realm of abilities, and once these geniuses break through to the realm of abilities, they are also extremely powerful.

At that time, the sect world, the four major sects will invade the secular world together, how much war has to break out?

He already felt what was going to happen.

This thought flashed through his mind.

And his absence was also caught by Gong Chunqiu, which made Gong Chunqiu extremely annoyed and felt that he was insulted!

This guy Lin Ziming was distracted when he dared to fight him. This is nothing to put him in his eyes. Damn, arrogant, too arrogant!

“Huh! Lin Ziming, you rubbish, do you only dodge? It seems that you belong to a tortoise! If there is a species, you will fight me honestly!”

Gong Chunqiu used the radical technique.

Lin Ziming showed a playful smile and said, “As you wish.”
