

Chapter: 2226

As Lin Ziming's words fell, immediately, from his body, an unprecedented and extremely huge aura burst out. At the same time, his eyes opened suddenly, as if he had changed.

The feeling for Gong Chunqiu was indeed the same. At this moment, he felt that Lin Ziming in front of him had changed, and it was not the Lin Ziming he knew.

And it was more like Lin Ziming had a wild beast on his body, awakening, and the whole body exuded an aura of destruction.

And this kind of breath, he had only seen Xiaoyao Wang.

The changes in this were so fast that when he was so close that he had no way to recover, Lin Ziming counterattacked him, and directly attacked him outrageously.

In an instant, Gong Chunqiu's scalp was numb, and his temples throbbed fiercely. He could clearly feel that Lin Ziming's strength had risen greatly.

However, he is also the fourth super arrogant in the Sealed Immortal List. Even in the Eastern Sect, he is also a first-class genius, only one head lower than Xiaoyao King.

Therefore, his reaction was quick and he didn't panic. He quickly adjusted his mentality and began to change his moves. He didn't have to fight with Lin Ziming, but chose to deal with it.

However, he still underestimated Lin Ziming's power too much.

Lin Ziming has already figured out all his routines, and now that he makes a move, naturally he will not give Gong Chunqiu any chance to catch his breath.

Therefore, his shot was a direct storm.

And he still treats his body by his own way.

Lin Ziming's moves are open and close, especially when he opens his eyes, it seems that the thunder in the sky opened his eyes, and it is as terrifying as to destroy the world.

He directly took it out with a set of moves, faster and faster, and his fists enveloped Gong Chunqiu's whole body.

At this time, Gong Chunqiu, although he adjusted his mentality quickly, his strength itself was one level behind Lin Ziming, so how could he resist Lin Ziming?

With a bang.

Lin Ziming punched out and made a loud noise. Even the air was blown by him. The speed was so fast that even his fist had some sparks. It was like a meteorite falling at high speed in the sky, and the air produced friction.

One can imagine how terrifying his punch was.

Yes, Lin Ziming's current strength has improved by at least one level compared to before. If he meets Adam again, then he will easily kill Adam

within a minute.

As for the Gong Chunqiu in front of him, although he is also a super arrogant, but even among the super arrogant, there are strong and weak points. Obviously, Gong Chunqiu is not his opponent at all.

Gong Chunqiu immediately felt the power of Lin Ziming's punch. His scalp was numb, and for the first time he had panic and fear. He didn't dare to collide with Lin Ziming. He quickly backed away, trying to dodge Lin Ziming's punch.

But, how could his speed catch up with Lin Ziming?

It was only in an instant that Lin Ziming's punch arrived in front of Gong Chunqiu, and the speed was completely beyond what Gong Chunqiu could dodge.
