

Chapter: 2234

For three months, this was even more rush than he thought, and he also felt an invisible pressure!

He must get more fruits within these three months, break through to the psychic realm in one fell swoop, and leave the psychic realm and return to the earth, so that he can better protect his family.

The fat man raised his head and saw Lin Ziming's expression change, and he felt extremely nervous. In front of Lin Ziming, he really had no thoughts of resistance. I only hope that Lin Ziming can let him go a lot. He, he really doesn't want to die.

He asked cautiously, "Senior Brother Lin, I have already told you what I can know, can you let me go?"

After he finished saying this sentence, his heartbeat was extremely fast, and at the same time he looked at Lin Ziming closely. He saw Lin Ziming and didn't make any movements. He was still thinking, so he left gently and cautiously. Hope it won't attract Lin Ziming's attention.

However, as soon as he moved, Lin Ziming's voice sounded, "Did I let you go?"

Hearing these words, the fat man's body suddenly stopped. He just wanted to speak, and immediately afterwards, his whole body was shocked, and his head slammed and exploded. At the same time, the strength of the body was also lost, and the body was soft. When he fell down, he felt extremely pain and despair, and immediately afterwards, his consciousness fell into infinite darkness.

It was Lin Ziming who shot him and slapped him directly on the back of his head, which ended his life.

By the time he died, he couldn't understand why Lin Ziming wanted to kill him like this, obviously he had already begged for mercy.

After Lin Ziming slapped the fat man to death, he didn't stop, and hurried to the direction where the fat man threw the fruit just now. After a while, he saw the two fruits suspended in the air and put them there quietly. Obviously there is no strength to support, but it can be suspended in the air, this kind of thing is indeed too weird.

It seems that this is the subtlety of the fruit.

To be honest, Lin Ziming was still very excited when he saw these two fruits. Combining the one fruit he got from the thin man just now, adding up, he has three fruits.

As for King Xiaoyao, he only got two fruits.

He took a deep breath, then strode over, grabbing the two suspended fruits!

As soon as he started, he felt a feeling that he had never experienced before. It seemed that the two fruits were conscious. After he started, the two fruits made a pleasant sound, very happy. Can be owned by him.

Lin Ziming held it in his hand and immediately felt the enormous energy contained in these two fruits.

With the one in his original hand, he already has three now. He has a strong hunch that if he swallows these three, then he will be able to break through to the god-passing realm immediately, and when the time comes, His strength will be improved several times than it is now!

You know, his current strength is already extremely strong. If it is increased several times on this basis, how strong will he be? The same is against Adam, Adam is in his hands, can't survive three moves, right?

In such a moment, he really had a huge idea, that is to swallow these three fruits directly, break through to the realm of the gods in one fell swoop, and then return to the earth.

This kind of thought was extremely strong, it was directly produced in his mind, as if there was a voice that was constantly bewitching him, swallow it, swallow it...
