

## Chapter: 2239

And as his words fell, a strong murderous intent immediately radiated from his body, causing the surrounding air to drop a lot, causing many super geniuses around to shiver uncontrollably.

After they heard this sentence, they were all stunned, their eyes widened, they looked incredible, Gong Chunqiu actually died?

They suspect that they have heard it wrong. Gong Chunqiu is also the fourth super arrogant on the list of immortals. He is a famous genius in the entire martial art world. Everyone thinks that Gong Chunqiu's visit to the secret realm this time is similar to traveling. Anything that is dangerous, when enough fruits are picked, it will be able to smoothly break through to the realm of the gods. This is a matter of course.

But now, Gong Chunqiu is dead?

Soon, they saw the instrument in the hands of King Xiaoyao, which indeed showed that Gong Chunqiu was dead, and finally they realized that their expressions changed wonderfully for a while!

In their martial world, each disciple has a special instrument on his body, and once he loses his life characteristics, he will send out a signal.

In this way, Gong Chunqiu is indeed dead.

However, this is in a secret realm. The natives here do not know martial arts. Even if someone has swallowed the fruit by chance, it is only to reach the strength of an innate realm powerhouse. How can it be compared with a super arrogant like Gong Chunqiu?

Bu Jingyun was also stunned, "What? Gong Chunqiu actually died? It's impossible! Didn't he leave with the fat and thin two? Is it because they encountered some danger?"

Shakyatuni also said in surprise: "Could it be Junior Brother Gong Chunqiu who was tricked by the fat and the thin?"

"It is possible that they are looking for the fruit together. If they find the fruit, Junior Brother Gong Chunqiu may really be calculated by them together!"

They are all analyzing seriously.

Gong Chunqiu's death was a big shock to them. You know, they didn't care about this trip to the secret realm at all, but thought they were here to do a very easy thing. There is no danger to life, but now Gong Chunqiu is dead.

Does this show that the secret realm is full of unknown dangers?

At this moment, someone suddenly said, "Could it be that they met Lin Ziming and died in Lin Ziming's hands?"

As this sentence was spoken, immediately, the surrounding air became stiff, and everyone stopped talking.

They all looked at King Xiaoyao together.

If Lin Ziming really killed Gong Chunqiu, then King Xiaoyao, as Gong

Chunqiu's senior, must avenge Gong Chunqiu.

"I can't? Lin Ziming is only a half-step master of the gods, let alone whether he is Gong Chunqiu's opponent, and there are fat and thin people around Gong Chunqiu. Lin Ziming has three heads and six arms that can work with the three of them. contend?"

This sentence is indeed very reasonable. According to the logic of normal people, the three of them have no opponents in this secret realm.

"Could it be that Lin Ziming and others joined forces? You know, Huangpudao's junior fellow Tuoba Liang also came in." Someone made such a guess.

They discussed enthusiastically. At this time, King Xiaoyao interrupted them coldly, "Enough, no matter who did it, I must avenge Junior Brother Chunqiu!"
