

## Chapter: 2249

Lin Ziming looked back and saw right away, a group of people rushed over quickly.

Moreover, what surprised him is that these people are not from the super arrogances on the earth, but the natives on this planet?

The strength of these aboriginals has reached the level of half a step through the gods?

Having discovered this, Lin Ziming was really surprised!

He has always thought that the indigenous people in the secret world are not strong enough, because the planet is very backward, the social system is still a feudal society, and there is no development in science and technology.

There should not be a strong presence.

However, these aboriginals who appeared in front of them all had a particularly strong aura, and they had reached the point where they could pass the gods in half a step. This was very interesting!

Yes, very interesting.

After Lin Ziming discovered these aboriginals, his first reaction was not fear, nor excitement, but rather interesting, because this incident exceeded his expectations.

But for Tuoba Liang, seeing these aboriginals, his face suddenly became pale, his body began to tremble, and his eyes revealed fear!

He directly cried and said with a sad face: "You damn fellow! I blame you for delaying my time. This time is good. I was caught up by these natives. This time is going to be bad!!"

Lin Ziming withdrew his gaze, put it on Tuoba Liang's face, and asked, "You are so embarrassed, that this native made you feel so embarrassed?"

Tuoba Liang didn't have a direct answer, but his expression has confirmed Lin Ziming's conjecture. He said: "The intelligence is wrong. There are not only ordinary natives in the secret realm, but also super masters with half a step through the gods! They knew the existence of the fruit, and they are now competing with us for the fruit! I finally got a fruit and escaped from their hands. I could have escaped, but I met you as a dead star! Now it's good, After being caught up by them, we will all suffer now!"

Tuoba Liang glared at Lin Ziming fiercely and grumbled at Lin Ziming, believing that Lin Ziming had harmed him.

After Lin Ziming heard this sentence, he narrowed his eyes slightly. From this sentence, he got a huge amount of information.

Moreover, in this way, this trip to the secret realm has indeed added a lot of danger.

If nothing else, just the aboriginals in front of you are not easy to deal with.

Now Lin Ziming is in a city called 'Datu', and there are many natives around. They saw these strong men who had caught up with them, and their faces

showed awe and admiration. Obviously, these strong natives The identity is not simple.

It is also true that since these indigenous powerhouses have reached the strength of the half-step God Realm, their status in the local area must be very detached.

At this moment, those indigenous strong men were also looking at Lin Ziming and discovered that Lin Ziming was the same invader as Tuoba Liang. Among them, one of the strongest indigenous strong men spoke, and what he said was right. It is the language on the earth: "I have encountered an invader again. Every once in a while, you will come to our world to find fruit and to take away the treasures of our world. You all deserve to die."

When he said this sentence, he was murderous, and a strange blood red appeared in his eyes, which made people look terrifying and chilling.

Tuoba Liang on the side immediately said in horror: "No! They have murdered us!"

Lin Ziming didn't have any panic. He said indifferently, "What are you afraid of? The sky is falling down, and I will be against it."

Tuoba Liang glared at him fiercely and shook his head, thinking that he was too ignorant of the height of the sky.
