

Chapter: 2252

As a strong man in this world, he has the dignity and spiritual wisdom that ordinary people in many tribes do not have.

He knew why these invaders would continue to come into their world.

It is to take the treasure of their world, something that is turned into a “fruit” by the invader.

He knew the benefits of this kind of fruit, as long as he reached a certain level and swallowed enough ‘fruits’ he could enter the next level!

At that level, then the whole person will usher in a new transformation!

Over the years, these invaders will invade their world every once in a while, rob their treasures, and slaughter their kind.

This is a great humiliation and provocation for these powerful men. He vowed to return this humiliation and provocation to these invaders!

In fact, they all have a common idea, that is, they have found an opportunity, one day, they must invade the earth and pay for a tooth!

Now that Lin Ziming is so arrogant, it can be said that he ignited him directly. If he did not kill Lin Ziming, then he would not be worthy of being a strong man in this world.

He has absolute confidence in himself, because he has swallowed a lot of rare and exotic fruits in this world since he opened up spiritual wisdom, and under the ‘guidance’ of some invaders, he has learned martial arts and has been practicing to this day. Even if he meets an intruder, he will definitely be able to win the opponent.

His shot was directly a violent storm, an absolute fierce attack.

Lin Ziming stood there, waiting for the aboriginal powerhouse to attack, he immediately felt that this aboriginal powerhouse had traces of the moves of the earth powerhouse, but there was the essence of this world.

I have to say that the aura of this indigenous powerhouse is still very strong, and his own strength is also very strong, almost at the level of a fat man.

This strength, even if it reaches the earth, can still dominate one side.

It’s a pity that in front of Lin Ziming, it was still not enough.

Therefore, Lin Ziming waited until he arrived in front of him and launched an offensive against him, he didn’t rush to shoot immediately, but fought with the opponent.

The martial arts found in this aboriginal powerhouse can only be regarded as ordinary. The opponent’s strength is more only in strength. Such a reckless man can not pose a threat to him at all.

Lin Ziming shook his head, a little disappointed, and soon he reacted directly.

With this counterattack, he just didn’t give the opponent a chance, only two moves, and he defeated the opponent!

A punch broke two of the opponent’s ribs.

But he also didn't have a chase, just click to stop. After all, he and the other party have no grudges, and there is no need to face life and death.

“you.....”

After the indigenous strong man was defeated, an incredible expression appeared on his face, and he looked at Lin Ziming in astonishment, in disbelief.

Not only him, but also four other indigenous powerhouses, are now looking at Lin Ziming with wide-eyed eyes, unable to speak for a while.

It's not that they have encountered other invaders. In fact, they have killed a lot of invaders, but the invaders they encountered definitely did not have the strength of the invader in front of them!
