

Chapter: 2253

Don't talk about them, even Tuoba Liang's eyes widened now, obviously he couldn't react. After a while, he reacted and stared at Lin Ziming and said, "When did you become so powerful? ?!"

Yes, he felt that Lin Ziming's strength was obviously stronger than when he met on Earth.

He knows how strong the indigenous powerhouse is, because he has fought against this indigenous powerhouse not long ago. He is not an opponent at all, and he was beaten very embarrassed.

But such a strong man is actually in Lin Ziming's hands and has no chance to fight back?

In this way, how powerful is Lin Ziming's strength?

If he and Lin Ziming fought against each other, wouldn't they be defeated if they met each other?

To be honest, he couldn't accept this fact a bit.

Although he knew that his current strength was not Lin Ziming's opponent, after all, Lin Ziming was also a super arrogant who made it to the immortal ranking list, and also killed Adam.

But deep in his heart, he has always been unable to admit defeat, thinking that one day he will definitely be able to catch up with Lin Ziming.

This trip to the secret realm is his greatest opportunity.

He thinks that his luck has always been good, and coming to the secret realm is a good opportunity for him to counterattack in one fell swoop and become famous in the world!

As long as he collects enough fruits to break through to the realm of the gods, then he can definitely become famous and become a figure like the senior brother Huangpudao.

But now Lin Ziming's appearance really gave him a big blow.

However, Lin Ziming didn't have so much reason. In fact, he didn't know how strong his strength was. He felt that he had already reached a bottleneck on Earth, and his strength could no longer be improved.

He once thought that that was his bottleneck, and if he wanted to go further, he would only have to break through to the realm of the gods.

However, after he came to the secret realm, his strength that had already reached the bottleneck actually began to break through again, and he continued to improve. The environment on this planet was greatly beneficial to him. His strength was slowly increasing every day. Progress.

And it has been a while since he entered the secret realm, so his strength is constantly improving, but to what extent has it been specifically improved?

He didn't know it himself.

So when he met these five indigenous powerhouses, his first reaction was not afraid, let alone nervous, but a little happy.

Now he took a deep breath, hooked his fingers towards the remaining four indigenous strong men, and said, "Come on, I'm in a hurry."

What is arrogance, what is arrogance? Lin Ziming has done it now.

And the four native strong men, hearing these words from Lin Ziming, all of their faces instantly flushed, and one's breathing became a little quick, staring at Lin Ziming, full of murderous intent and anger.

Lin Ziming's behavior is really too arrogant, and he doesn't put them in his eyes!

You know, they are not the breakthrough natives in the tribe, but absolute powerhouses. In this world, they even exist as gods. Now, Lin Ziming, the invader, actually ridiculed and despised them so much. This is absolutely unbearable for them.

So they were immediately enraged, and immediately roared, and directly launched the fiercest attack on Lin Ziming. They had nothing to do with Lin Ziming, and they directly wanted to kill Lin Ziming.
