

Chapter: 2263

Then, Tuoba Liang simply talked to Huangpudao about what happened when he entered the secret realm. There was nothing dangerous that happened a week before he entered the secret realm, even if he encountered some tribes. The indigenous strength inside is also very average.

Until the second week, after he walked out of the forest and reached the city limits, he soon met the strong inside, and his strength actually reached a half-step through the gods.

There was a battle with him. If it wasn't that his reaction was fast enough, and his martial arts foundation was deeper than the native strongmen inside, then he was already dead inside.

When Huangpudao heard this, he immediately sighed with emotion and said: "I don't think that in the past few years, in the secret realm, there have been half-steps of the gods. This is incredible! The generation of ours entered the secret realm. Among them, even the masters of the innate realm are rare."

Tuoba Liang also said with emotion: "Yes, the indigenous people inside have gradually opened up their spiritual wisdom. They know the mystery of their world, and they have begun to constantly search for all kinds of rare and exotic fruits. Some people even know the fruits. Existence, once they have found enough fruits, swallowed them, and broke through to the psychic realm, then, they may be rejected by their world, and then rejected on the earth, it is not impossible.."

Hearing these words, Huangpudao's face suddenly changed.

"What? There is such a thing!" Huangpudao was very surprised, because he had also entered the secret realm and knew what the world was like, but the difference was that when he entered the secret realm, it was already good. A few decades ago, the secret realm at that time was still very primitive. The natives inside were just taller and stronger than ordinary people on earth. Besides that, they all had no spiritual wisdom and didn't know how to cultivate.

But now listening to Tuoba Liang's words, the natives in the secret realm clearly have found a way to cultivate, and they also know the existence of various rare and exotic fruits, which can improve their own strength.

Especially after knowing the existence of the fruit, once those indigenous people swallow it and break through to the realm of the gods, it is really possible to be repelled to the earth!

And over the years, the strong on the earth went into the secret realm, but few bullied the natives, and they have already forged a deep hatred. If by then, the strong natives of the secret realm with the gods, really come to the earth, then, Definitely another catastrophe!

In this way, once a war breaks out on the earth, it will inevitably be a waste of life.

The worst thing is that the martial world will attack the secular world on a large scale in the near future.

Hearing this, Huangpudao was still in a good mood, but it immediately became worse.

Even Tuoba Liang felt his heaviness, and fell silent with him.

Originally Tuoba Liang was very confident in himself, but now, he has this arrogant idea, because he knows that there are still many arrogances on earth, even stronger than him.

After a pause, Huangpudao thought of something and asked: “Next, how did you escape? Also, did you meet Lin Ziming?”

There was some light in Tuoba Liang’s eyes, awed and grateful, and he nodded and said: “I met, in fact, I was rescued by Lin Ziming. It’s ridiculous that I thought I was killed by him at the time, and I scolded him. For a while.”

Having said this, Tuoba Liang’s face turned red, and he was ashamed of his original remarks.

Isn’t it? He still questioned and complained to Lin Ziming at the beginning, but Lin Ziming showed great power and solved all the five indigenous powerhouses.

When he told about the events of the day one by one, even Huangpu Dao opened his mouth wide and looked very shocked. After a while, he said with emotion, “This Lin Ziming is really a monster, and he has grown up. This level! If he breaks through to the realm of the gods, he must be the best in the realm of the gods, and may even become the number one strong on the earth!!”
